site <http://www.unimelb.edu.au/cp2008> Held annually the CP conference series is the premier international conference on constraint programming. The conference focuses on all aspects of computing with constraints. The CP conference series is organized by the Association for Constraint Programming (ACP). Information about the conferences in the series can be found on the Web at <http://www.cs.ualberta.ca/ai/cp>. Information about ACP can be found at <http://www.a4cp.org>. CP 2008 included two calls for contributions: a call for research papers describing novel contributions in the field and a call for application papers describing applications of constraint technology. For the first time, authors could directly submit short papers for consideration by the committee. The research track received 84 long submissions and 21 short submissions, and the application track received 15 long submissions. Each paper received at least three reviews, which the authors had the opportunity to see and to react to before the papers and their reviews were discussed extensively by the members of the Program Committee.

Principles and Practice of Constraint Programming - CP 2007 Christian Bessière, 2007-10-11 This book constitutes the refereed proceedings of the 13th International Conference on Principles and Practice of Constraint Programming CP 2007. It contains 51 revised full papers and 14 revised short papers presented together with eight application papers and the abstracts of two invited lectures. All current issues of computing with constraints are addressed, ranging from methodological and foundational aspects to solving real world problems in various application fields.
