**Críticas** ,2004      **Residuos de la violencia** Fanta Castro, Andrea,2015-10-30 Esta obra analiza los productos culturales contemporáneos del choque entre la globalización y la violencia a través de la literatura del cine de la arquitectura y de la escultura. Específicamente estudia las subjetividades que derivan de este contexto: los cuerpos residuales es decir remanentes de la generalizada violencia social política y económica inherentes a las sociedades consumo. El análisis está centrado específicamente en los textos *La virgen de los sicarios* de Fernando Vallejo, *Rosario Tijeras* de Jorge Franco y en sus adaptaciones cinematográficas. También examina las novelas *Satanas* y *Scorpio City* de Mario Mendoza. *Perder es cuestión de método* y *Vida feliz* de un joven llamado Esteban de Santiago Gamboa. El olvido que seremos de Hector Abad Faciolince y *Todo pasa pronto* de Juan David Correa. A través del trabajo plástico de Doris Salcedo el texto examina como los cuerpos residuales están presentes como ausencia en la escultura contemporánea y esto en última instancia se alía su condición marginal. Además explora transformaciones urbanas recientes en Bogotá particularmente en estructuras arquitectónicas como el Palacio de Justicia y el Parque Tercer Milenio. En este corpus diverso se analiza el contexto político e histórico en el cual los cuerpos residuales devienen parte del proceso de reciclaje de desechos. Este trabajo propone una lectura de la producción cultural reciente totalmente novedosa tanto en su forma como en el contenido en tanto que rompe con las visiones tradicionales y propone una nueva comprensión no solo de la violencia sino de las prácticas culturales contemporáneas colombianas. **The**

**Europa Directory of Literary Awards and Prizes** Europa,2015      *Confronting History and Modernity in Mexican Narrative* Elisabeth Guerrero,2008-07-15 Two motifs of an angel of history one European and one Mexican provide a theoretical framework for this book. The first is Walter Benjamin's interpretation of the Klee painting *angelus novus* a figure that gazes upon the ruins of the past powerless to repair the broken pieces as it keels into the future. Although Benjamin envisions history as catastrophe piled upon catastrophe he also sees in this angel the possibility for redemption in divine destruction. Mexico City's key monument the Angel of Independence also embodies redemption and destruction through history marking moments of staggering transformation beyond the conquest. Drawing from these two theoretical angels the study delineates three major narrative tendencies in contemporary historical novels from Mexico. First these novels humanize canonized heroes and bring them down to earth. Secondly they demonumentalize the European legacy renegotiating Europe's five hundred year bequest of conquest and colonialism. Thirdly the novels have begun to recover secondary figures previously lost to history particularly women and people of color. While these three tendencies apply throughout Latin America they are particularly pronounced in Mexican literary production. **Library of Congress Catalogs** Library of Congress,1978
