profesores que llevan a los creyendo que imparten yoga cuando en realidad lo que están enseñando es más bien ejercicios gimnásticos y alguna exótica acrobacia. Todo ello quizá disfrazado con alguna recitación mística al principio o final de la clase. En La ciencia del yoga encontramos las claves para practicar los métodos genuinos, adquirir la verdadera actitud que propone el yoga y convertirnos en aplicados practicantes con la motivación y la esperanza de un día poder ser yoguis aunque sabiendo y admitiendo que se requieren práctica asidua e inquebrantable motivación. Un libro imprescindible para descubrir el primer método de mejoramiento humano, transformación interior y evolución consciente. **Sujetos subalternos** Saurabh Dube, 2001. Formado en el seno de los Estudios de la Subalternidad, Saurabh Dube realiza en este libro una apuesta a favor del pensamiento crítico más depurado. En Sujetos subalternos se conjugan sus intereses por los estudios etnográficos y por la reflexión historiográfica. Se propone como un espacio alternativo frente a concepciones de la cultura dominadas por el eurocentrismo o el nativismo. Es en este sentido ante todo una invitación al diálogo entre culturas, entre tiempos y lugares. Se cuestionan asimismo las teorías de la modernidad y modernización basadas en la oposición entre tradición y modernidad, mito e historia y su hagiografía histórica nacionalista sin caer en la celebración de algunas de sus partes. A partir de una nueva noción de cultura se hace posible develar el carácter contradictorio de la dominación y subordinación en las sociedades modernas. **Estudios de Asia y África**, 1999.
