Afshin Shahi, 2013-12-04 Exploring the management of truth in the Kingdom of Saudi Arabia this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam One at macro level constitutes the trans historical foundational principles of the religion a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives The other at a micro level takes place internally to find truth within the truth Unlike Islamic truth at the macro level which is entrenched the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth Wahhabism which is the product of an eighteenth century revivalist movement is portrayed as the most

authentic reading of Islam It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another this book will be of interest to students of Religion Politics and Saudi Politics more specifically Polygamy and Law in Contemporary Saudi Arabia Maha Yamani, 2022-07-01 The topic of polygamy in Islamic countries is generally perceived by outsiders as something linked to harems and Hollywood style foreign intrigues The practice is frequently viewed through sexual connotations and male power versus female powerlessness The purpose of this book is to shed light on the often misunderstood polygamous situation in modern Saudi Arabia Through a unique series of local interviews with both men and women involved in polygamy both maritally and professionally the author invites the reader into the homes and personal lives of the people directly affected The result is a moving candid examination of the frame of mind impulses incentives reasons and circumstances that drive individuals towards polygamy as well as the social legal economic and emotional consequences that inevitably follow The book also examines the historical origins of Islamic polygamy in Mecca and Medina as well as the legal situation in Saudi Arabia today The author argues that a combination of gender differences created through local laws and public policy decisions the revival of customary tribal practices and the pressures created by the sudden materialism of modern life have all led towards a misapplication of the original Islamic legal essence of the practice and a re adaptation of the laws regulating it

*Military Review*, 2003      *Twilight in the Desert* Matthew R. Simmons, 2011-01-04 *Twilight in the Desert* reveals a Saudi oil and production industry that could soon approach a serious irreversible decline In this exhaustively researched book veteran oil industry analyst Matthew Simmons draws on his three plus decades of insider experience and more than 200 independently produced reports about Saudi petroleum resources and production operations He uncovers a story about Saudi Arabia's troubled oil industry not to mention its political and societal instability which differs sharply from the globally accepted Saudi version Its a story that is provocative and disturbing based on undeniable facts but until now never told in its entirety *Twilight in the Desert* answers all readers questions about Saudi oil and production industries with keen examination instead of unsubstantiated posturing and takes its place as one of the most important books of this still young century

**The Struggle of Entertainment and Neoliberal Postcolonial Capitalist Politics in "New" Saudi Arabia** Anas M. Alahmed, 2022-07-07 Anas M Alahmed argues that the Entertainment Authority of Saudi Arabia created in 2016 was meant to introduce a new Saudi to the Western outsider audience and that the new Saudi state is on a mission to transform the country from a traditional and conservative kingdom to a new state dedicated to social modernization and openness Alahmed contends that globalization and the neoliberalism capitalist mode of politics have reinforced the transformation of cultural production into global entertainment production Therefore the author shows how the entertainment sector relies heavily on reproducing the Western culture of entertainment production and depends on Western businesses to bring entertainment into the country instead of investing in local entertainment businesses which forces the state to adopt neoliberal capitalism The author provides evidence on how the new modernity of Saudi Arabia has become a political tool through which neoliberal capitalists can create positive relationships with Western capitals as part of the postcolonial struggle of neoliberalism in the Global South Alahmed argues that there is a connection between the role of geopolitical power in globalization and postcolonial studies that explains the struggles of indigenous cultures related to providing their own production to society
