research journey in the context of the postgraduate student's broader life world e.g. skill development and supervisor relations, effective time and project management, a healthy work-life balance, maintaining motivation and dealing with criticism. In the busy research lab of Dr. Yvette Bilodeau, the harmony of her scientific team is fatefully disrupted when a young graduate student, Mike Desfleur, is found murdered at his lab bench. Detective Brandell Young has been taken away from his usual big city street crimes to work the case and quickly learns about the significance of the lab's focus and the ramifications of discovery in the biomedical field.
