Early Modern Constructions of Europe Florian Kläger, Gerd Bayer, 2016-02-12 Between the medieval conception of Christendom and the political visions of modernity ideas of Europe underwent a transformative and catalytic period that saw a cultural process of renewed self definition or self Europeanization The contributors to this volume address this process analyzing how Europe was imagined between 1450 and 1750 By whom in which contexts and for what purposes was Europe made into a subject of discourse Which forms did early modern Europes take and what functions did they serve Essays examine the role of factors such as religion history space and geography ethnicity and alterity patronage and dynasty migration and education language translation and narration for the ways in which Europe turned into an imagined community The thematic range of the volume comprises early modern texts in Arabic English French German Greek Italian Latin and Spanish including plays poems and narrative fiction as well as cartography historiography iconography travelogues periodicals and political polemics Literary negotiations in particular foreground the creative potential versatility and agency that inhere in the process of Europeanization as well as a specifically early modern attitude towards the past and tradition emblemized in the poetics of the period There is a clear continuity between the collection s approach to European identities and the focus of cultural and postcolonial studies on the constructed nature of collective identities at large the chapters build on the insights produced by these fields over the past decades and apply them from various angles to a subject that has so far largely eluded critical attention This volume examines what existing and well established work on identity and alterity hybridity and margins has to contribute to an understanding of the largely unexamined and under theorized pre formative period of European identity

Jonathan Swift: The Reluctant Rebel John Stubbs, 2017-02-28 A rich and riveting portrait of the man behind Gulliver s Travels by a vivid ardent and engaging New York Times Book Review author One of Europe s most important literary figures Jonathan Swift was also an inspired humorist a beloved companion and a conscientious Anglican minister as well as a hoaxer and a teller of tales His anger against abuses of power would produce the most famous satires of the English language Gulliver s Travels as well as the Drapier Papers and the unparalleled Modest Proposal in which he imagined the poor of Ireland farming their infants for the tables of wealthy

colonists John Stubbs's biography captures the dirt and beauty of a world that Swift both scorned and sought to amend. It follows Swift through his many battles for and against authority and in his many contradictions as a priest who sought to uphold the dogma of his church as a man who was quite prepared to defy convention not least in his unshakable attachment to an unmarried woman, his Stella, and as a writer whose vision showed that no single creed holds all the answers. Impeccably researched and beautifully told, in Jonathan Swift Stubbs has found the perfect subject for this masterfully told biography of a reluctant rebel, a voice of withering disenchantment unrivaled in English.

The Fatal News Katherine E. Ellison, 2005-11-28 What was information in the early eighteenth century and what influence did the emergence of information as potential physical and psychological threat have on readers of the period? Recent scholarship in eighteenth-century print culture and in twenty-first-century media studies and theory offers a unique opportunity to reconsider how and why information is figuratively imagined during the eighteenth century as an abstract yet bodily entity that can flood, suffocate, and incapacitate readers. Focusing on 1678 to 1722, a period that experienced impressive innovations in communication, this study reveals that the term information undergoes a significant transformation with social, cultural, and literary consequences. By investigating discussions of information and media that are evident in works by literary authors, the author finds that writers like John Bunyan, Aphra Behn, Jonathan Swift, and Daniel Defoe confront the idea of information overload and provide case studies in literacy reform that operate on institutional, generic, and consumer levels. For example, while in Defoe's *Journal of the Plague Year*, information is infectious and citizens depend upon comets and phantoms to construct a reader-controlled, decentralized media, in Swift's *Tale of a Tub*, commonplace books and collections demonstrate a new type of organizational or secretarial impulse in society.

The Isle of Pines, 1668 John Scheckter, 2016-03-09 A short fiction of shipwreck and discovery written by the politician Henry Neville (1620-1694), *The Isle of Pines* is only beginning to draw critical attention, and until now no scholarly edition of the work has appeared. In the first full-length study of *The Isle of Pines*, supported by the first fully critical edition, John Scheckter discloses how Neville's work offers a critique of scientific discourse, enacts complicated engagements of race and gender, and interrogates the methods and consequences of European exploration. The volume offers a new critical model for applying postcolonial and postmodern examination strategies to an early modern work. Scheckter argues that the structure and publication history of the fiction, with its separate, unreliable narrators along with its several topics—shipwreck, survival, the founding of a new society, the initial phases of European colonization—are imbued with the sense of uncertainty that permeated the era.

Imagining the Irish child Jarlath Killeen, 2023-02-07 This book examines the ways in which ideas about children, childhood, and Ireland changed together in Irish Protestant writing of the seventeenth and eighteenth centuries. It focuses on different varieties of the child found in the work of a range of Irish Protestant writers: theologians, philosophers, educationalists, politicians, and parents, from the early seventeenth century up to the outbreak of the 1798 Rebellion.
