Saving America Faith Based Services And The Future Of Civil Society:

Saving America? Robert Wuthnow, 2004 The great strength of *Saving America* is its comprehensive vision *Saving America?* Robert Wuthnow, 2009-11-06 On January 29 2001 President George W Bush signed an executive order creating the White House Office of Faith Based and Community Initiatives This action marked a key step toward institutionalizing an idea that emerged in the mid 1990s under the Clinton administration the transfer of some social programs from government control to religious organizations However despite an increasingly vocal ideologically charged national debate a debate centered on such questions as What are these organizations doing How well are they doing it Should they be supported with tax dollars solid answers have been few In *Saving America* Robert Wuthnow provides a wealth of up to date information whose absence until now has hindered the pursuit of answers Assembling and analyzing new evidence from research he and others have conducted he reveals what social support faith based agencies are capable of providing Among the many questions he addresses Are congregations effective vehicles for providing broad based social programs or are they best at supporting their own members How many local congregations have formal programs to assist needy families How much money do such programs represent How many specialized faith based service agencies are there and which are most effective Are religious organizations promoting trust love and compassion The answers that emerge demonstrate that American religion is helping needy families and that it is more broadly fostering civil society Yet religion alone cannot save America from the broad problems it faces in providing social services to those who need them most Elegantly written *Saving America* represents an authoritative and evenhanded benchmark of information for the current and the coming debate

The Arc of Faith-Based Initiatives John P. Bartkowski, Susan E. Grettenberger, 2018-05-17 This volume offers an in depth examination of a diverse range of faith based programs implemented in three different geographical locales family support in rural Mississippi transitional housing in Michigan and addiction recovery in the Pacific Northwest Washington Oregon Various types of religious service providers faith intensive and faith related are carefully examined and secular organizations also serve as an illuminating point of comparison Among other insights this book reveals how the three C s of social service provision programmatic content organizational culture and ecological context all combine to shape the delivery of welfare services in the nonprofit world This book warns against simplistic generalizations about faith based organizations Faith based providers exhibit considerable diversity and quite often remarkable resilience in the face of challenging social circumstances An appreciation of these nuances is critical as policies concerning faith based organizations continue to evolve

Faiths, Public Policy and Civil Society A. Dinham, 2009-03-12 This book uses empirical data and theory to explore the role of faiths as public actors their contribution to welfare services how they help build community cohesion and break it down and what it means for them and for others to be involved in new modes of governance **European Societies in**

Transition Dan Sandu, 2010 The contributions in this volume on social care and welfare disadvantaged groups or individuals

are intended to be useful in the Eastern European social context to those who experienced or study the communist rule The transition in Eastern societies is fast paced sometimes people oppose it or refuse to be involved Rules are firm and imposed according to already established models in Western European countries Society tends to become more ferocious in content but more accessible through media and democratic liberties Changes are very swift and need greater attention because of the fundamental and structural nature of transformations in an age of transition

Follow the New Way Melissa May Borja,2023-02-21 When the US government resettled thousands of Hmong in 1975 the work was done by Christian organizations deputized by the state Exploring the resiliency of tradition amid shaky US commitments to pluralism and secularism Melissa May Borja shows how Hmong Americans developed a new way that blended Christianity with their longstanding practices

Piety and Public Funding
Axel R. Schäfer,2012-06-28 How is it that some conservative groups are viscerally antigovernment even while enjoying the benefits of government funding In Piety and Public Funding historian Axel R Sch fer offers a compelling answer to this question by chronicling how in the first half century since World War II conservative evangelical groups became increasingly adept at accommodating their hostility to the state with federal support Though holding to the ideals of church state separation evangelicals gradually took advantage of expanded public funding opportunities for religious foreign aid health care education and social welfare This was especially the case during the Cold War when groups such as the National Association of Evangelicals were at the forefront of battling communism at home and abroad It was evident too in the Sunbelt where the military industrial complex grew exponentially after World War II and where the postwar right would achieve its earliest success Contrary to evangelicals own claims liberal public policies were a boon for not a threat to their own

institutions and values The welfare state forged during the New Deal and renewed by the Great Society hastened not hindered the ascendancy of a conservative political movement that would in turn use its resurgence as leverage against the very system that helped create it By showing that the liberal state's dependence on private and nonprofit social services made it vulnerable to assaults from the right Piety and Public Funding brings a much needed historical perspective to a hotly debated contemporary issue the efforts of both Republican and Democratic administrations to channel federal money to faith based organizations It suggests a major reevaluation of the religious right which grew to dominate evangelicalism by exploiting institutional ties to the state while simultaneously brandishing a message of free enterprise and moral awakening

Religion and Politics in the United States Kenneth D. Wald, Allison Calhoun-Brown, 2007 Religion and Politics in the United States Fifth Edition offers a comprehensive account of the role of religious ideas institutions and communities in American public life While maintaining that religion is too politically potent to be left out or consigned to the margins in accounts of American politics Wald and Calhoun Brown also argue against the common tendency to treat religion as the dominant force in politics today Early topics include the nature and persistence of religion in the United States its contribution to the Founding and the continuing debate over the role of religion in government and law Following a discussion of how religious factors encourage political action the book concludes by discussing basic political attitudes and behavior among members of mainstream American religious traditions and minority religious communities defined by ethnicity race gender and sexual orientation The new edition greatly expands coverage of various religious minorities with a new chapter on politics and religion among African Americans Latinos Muslim Americans Latter Day Saints Mormons and other faith traditions There is larger focus on how religion influences the politics of local communities To Care for Creation Stephen Ellingson, 2016-08-26 Controversial megachurch pastor Mark Driscoll proclaimed from a conference stage in 2013 I know who made the environment and he's coming back and going to burn it all up So yes I drive an SUV The comment which Driscoll later explained away as a joke highlights what has been a long history of religious anti environmentalism Given how firmly entrenched this sentiment has been surprising inroads have been made by a new movement with few financial resources which is deeply committed to promoting green religious traditions and creating a new environmental ethic To Care for Creation chronicles this movement and explains how it has emerged despite institutional and cultural barriers as well as the hurdles posed by logic and practices that set religious environmental organizations apart from the secular movement Ellingson takes a deep dive into the ways entrepreneurial activists tap into and improvise on a variety of theological ethical and symbolic traditions in order to issue a compelling call to arms that mobilizes religious audiences Drawing on interviews with the leaders of more than sixty of these organizations Ellingson deftly illustrates how activists borrow and rework resources from various traditions to create new meanings for religion nature and the religious person's duty to the natural world **The Routledge International Handbook of Education, Religion and Values** James

Arthur, Terence Lovat, 2013-08-21 The academic fields of religion and values have become the focus of renewed interest in contemporary thinking about human activity and its motivations The Routledge International Handbook of Education Religion and Values explores and expands upon a range of international research related to this revival The book provides an authoritative overview of global issues in religion and values surveying the state of the academic area in contributions covering a wide range of topics It includes emerging controversial and cutting edge contributions as well as investigations into more established areas International authorities Arthur and Lovat have brought together experts from across the world to examine the complexity of the field of study The handbook is organised around four key topics which focus on both the importance of religion and values as broad fields of human enquiry as well as in their application to education inter agency work and cross cultural endeavours The Conceptual World of Religion and Values Religion and Values in Education Religion and Values in Inter agency Work Religion and Values in Cross cultural Work This comprehensive reference work combines theoretical and empirical research of international significance and will be valuable reading for students researchers and academics in the field of education
