Saving Lives Livelihoods:

Saving livelihoods saves lives Food and Agriculture Organization of the United Nations, 2018-11-01 A summary of the achievements of FAO's resilience and emergency programmes in 2017 covering over 50 countries While 59% of resources went to preventing famine in Nigeria Somalia South Sudan and Yemen FAO also responded to other major protracted crises

Saving livelihoods saves lives 2018 Food and Agriculture Organization of the United Nations, 2019-05-23 In recent years the number of people experiencing acute hunger has been persistently high And 2018 was no exception Some 113 million people in 53 countries were acutely hungry last year That is 113 million girls boys men and women old and young who were unable to access enough food and required humanitarian assistance to meet their most basic needs For FAO building resilient agriculture based livelihoods and food systems is at the core of efforts to fight acute hunger and avert food crises We know how critical humanitarian assistance is At the same time it is clear that humanitarian assistance on its own is not enough to win the battle against acute hunger That is why FAO's humanitarian work is firmly embedded within a foundation of resilience building And this was really demonstrated in 2018 when the breadth of our work extended from immediate humanitarian response to protect lives and livelihoods in some of the most complex contexts in the world including South Sudan and Yemen to addressing the vulnerability of pastoral populations and facilitating the development of livestock feed balances in the Horn of Africa to supporting disaster risk reduction efforts from Myanmar to Central America Publications such as this offer us an opportunity to reflect on some of our achievements over the past year and identify how we can do better in the next It is not intended as an exhaustive list of the work done under FAO's strategic programme on resilience but rather a snapshot to demonstrate what we can achieve and how much more this to be done **Livelihoods, Natural Resources, and Post-Conflict Peacebuilding** Helen Young, Lisa Goldman, 2015-04-10 Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post conflict countries By degrading the natural resources that are essential to livelihoods and by significantly hindering access to those resources conflict can wreak havoc on the ability of war torn populations to survive and recover This book explores how natural resource management initiatives in more than twenty countries and territories have supported livelihoods and facilitated post conflict peacebuilding Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources from land to agriculture forestry fisheries and protected areas The book also explores larger questions about how to structure livelihoods assistance as part of a coherent integrated approach to post conflict redevelopment Livelihoods and Natural Resources in Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water assessing and restoring natural resources and governance **Ecosystems,**

Livelihoods and Disasters Karen Sudmeier-Rieux,CARE/International,IUCN Commission on Ecosystem Management,2006 Vulnerability to natural disasters continues to increase severely compromising the achievement of poverty alleviation goals in many developing countries A more effective approach is needed to reduce the impacts of these disasters This publication proposes an approach that integrates ecosystem management development planning and risk reduction strategies to reduce disaster impacts and improve both livelihoods and biodiversity outcomes

Anti-Leftist Politics in Modern World History Philip B. Minehan,2021-11-04 Systemic and political hostility against the left real and contrived has been a key yet under recognized aspect of the history of the modern world for the past two hundred years By the 1820s the new exploitative and destabilizing character of capitalist industrial production and its accompanying market liberalizations began creating necessities among the working classes and their allies for the new self protective politics of socialism But it is evident that for the new economic system to sustain itself such oppositional politics that it necessitated had to be undermined if not destroyed by whatever means necessary Through the imperialism of the later 19th century and with significant variations this complex and often highly destructive dialectical syndrome expanded worldwide Liberals conservatives extreme nationalists fascists racists and others have all repeatedly come aggressively and violently into play against socialist oppositions In this book Philip Minehan traces the patterns of such hostility and presents numerous crucial examples of it from Britain France Germany and the United States the British in India European fascism the United States and Britain as they operated in China and Indochina from Kenya Algeria and Iran and from Central and South America during the Cold War In the final chapters Minehan addresses the post Cold War US led triumphalist wars in the Middle East the ensuing refugee crises neo fascism and anti environmentalist politics to show the ways that the syndrome within which anti leftist antagonism emerges in its neoliberal phase since the 1970s remains as self destructive and dangerous as ever

Plans For Your Good Scott Morrison, 2024-04-30. Scott Morrison, Australia's 30th Prime Minister, 2018-2022 offers a unique insider's account of a Christian who was open about his faith and operated at the top level of politics for more than a decade. During one of the toughest periods since the second world war, covering drought, wildfires, a global pandemic, and recession, he chronicles God's faithfulness throughout win or lose, public criticism or public success.
