## **Saving Our Children From Poverty:**

*Saving Our Children From Poverty* Barbara R. Bergmann, 1996-10-24 More than one in five American children live below the poverty line a proportion that exceeds that of any other advanced nation Although large numbers of Western European children live with single or unemployed parents or belong to disadvantaged minorities they are better shielded from severe deprivation by carefully designed public assistance programs *Saving Our Children from Poverty* describes one of the most successful European systems of assistance for families that of France and through comparison with American programs offers a valuable guide to improving our own safety net for children and reforming our dysfunctional welfare system *Saving Our Children from Poverty* details the array of benefits available to both high and low income families in France Government run nursery schools provide free high quality care for almost all children between the ages of three and six Children also receive guaranteed medical care under a national health insurance plan The French system offers married couples most of the same benefits as single parents and creates strong incentives to seek and hold jobs rather than remain on welfare A French single mother who chooses to work still receives substantial income supplements housing assistance subsidized health care and access to public child care facilities In stark contrast her American counterpart loses most of her cash benefits if she takes a job and receives no government assistance with child care Because American policies focus disproportionately on aiding the poorest non working families parents forced to rely on low wage jobs are frequently left without the resources to provide their children with an adequate standard of living As the public debate on welfare reform continues to rage ever more American children fall into poverty Why does the nation remain so unresponsive to their plight *Saving Our Children from Poverty* probes the American aversion to national assistance programs citing the negative attitudes that have seeped into the current political discourse A lack of faith in the federal government's administrative abilities has bolstered a trend toward decentralization of programs as well as a growing resistance to taxation Racial antipathies and a belief that financial support encourages irresponsibility further undermine the development of programs for those in need *Saving Our Children from Poverty* illustrates what a nation no wealthier than ours can realistically accomplish and afford and concludes with a viable blueprint for successfully applying aspects of France's system to the United States

*Who Cares for our Children?* Valerie Polakow, 2007 Valerie Polakow spent a year traveling around the country listening to low income women from diverse backgrounds tell their stories of struggle resilience distress and occasional success as they encountered ongoing child care crises The resulting work is both a compelling account of the lived realities of the child care crisis and an incisive critique of public policy that points to the United States as an outlier in the international community Drawing on historical and international perspectives Polakow creates a groundbreaking analysis of child care as a human right persuasively arguing for a universal child care system *Who Cares for Our Children* is one of the most disturbing books I have read in a long time It should have a major impact on debates over poverty and social policy From the Foreword by Barbara

Ehrenreich author of *Nickel and Dimed* In this beautifully written and provocative volume Polakow deftly steps aside and lets real mothers struggling against the odds to keep their families safe and sound speak for themselves about what they need This book delivers a timely message Child care should be viewed as a human right Martha F Davis Northeastern University School of Law A collection of moving and often chilling personal narratives Who Cares for Our Children is a powerful and well documented analysis of the worlds of low income families Beth Blue Swadener Arizona State University Thoroughly researched and grounded in a heartfelt sympathy for the struggles of families that face such painful choices and dilemmas in meeting the needs of their children James Garbarino Loyola University Chicago *Joint Hearing on H.R. 3467, "Saving Our Children: the American Renewal Act of 1996"* United States. Congress. House. Committee on Ways and Means. Subcommittee on Human Resources,1996 [Save Our Children](#) Charles Paul Jeffries,2017-06-07 Guide for parents and teachers to help children who suffer from traumatic events **Listening to Our Students and Transcending K-12 to Save Our Nation** Alec Ostrom,Brian Hack,Don Prentice,2020-01-06 This journey will engage you in dealing with some hard truths and it will take you down a new pathway and new ways of thinking about K 12 education We now live in a nation that is struggling with deep social economic and political conflicts We are all doing our best to resolve these conflicts and to solve the critical challenges that we all face in the Digital Age but our children and young adults are having a very difficult time in dealing with the realities of their young lives We wrote this book because we want to engage all of our readers in each local community in frank honest down to earth practical conversations about our K 12 schools as the foundation for our constitutional democracy Without well educated citizens our government our economy and our society will not survive And this is true regardless of the political beliefs of our readers across the political spectrum **Save Our Youth** United States. Congress. House. Select Committee on Narcotics Abuse and Control,1992 *Wasting America's Future* Marian Wright Edelman,1994-10-31 The Health and Human Services poverty line for a three person family in America is 11 800 in annual income One in every five American children is growing up in poverty What does child poverty mean for the economic and societal future of our country The Children s Defense Fund widely considered the most powerful force for children in America has assembled expert and ground breaking information on how poverty affects health childhood deaths low birth weight and injury on the insidious connections between low family income and learning disabilities on links between poverty abuse and neglect and self esteem and much more *Wasting America s Future* is the crucial citizen s handbook as we continue the national debate on welfare reform [Saving Our Kids](#) Marc Gorelick, MD,2025-04-10 If someone were to ask you what the leading cause of death is among American children today what would you say Cancer Car accidents Obesity The answer is firearms Guns kill more children in our country than anything else It s a shocking statistic no matter your politics So how do we solve it Where can we find common ground on one of the most divisive issues in America The solution according to Dr Gorelick lies in public health In *Saving Our Kids* An ER Doc s Common Sense Solution to the Gun Crisis Dr Gorelick unfurls a

roadmap that everyone from pediatricians to the general public can follow The key is taking a fresh look at the issue of guns through the lens of public health and leading the debate away from partisanship and toward reasonable policies that will save children s lives As a father pediatrician and leader of one of the largest independent pediatric health systems in the United States Dr Gorelick has viewed the issue of gun violence up close from many angles for many years All that experience has brought him to one conclusion we can solve this crisis if we prioritize our children s health **Capitalism Sucks!** Wolf
