

DAYLIGHT SAVINGS FLUENCY POEMS

CHANGING CLOCKS

A long time back, in days of old,
People worked in farms and fields of gold.
They needed sunlight bright and high,
To plant and pick before night's shroud.

So clocks were changed to help the day
With sunlight for work and play!
In spring we jump an hour ahead,
And in the fall, we reverse it instead.

Now come still changes, but come do not
Be doubtful over the spot!
But one thing's true, both fair and true:
The clocks will change again next year!

GEORGE HUDSON

A man named George had a clever idea,
He wanted more sunlight when days were clear.
"If we change the clocks just right,
We'll have more sunshine, warm and bright!"

He dreamed of evenings long and fun,
More time to play when work was done.
So he made a plan to shift the time,
To match the sun now north that time.

Now twice a year, the time feels new,
All because of George's true.
So when the clocks go tick and tock,
Remember who once changed the clock.

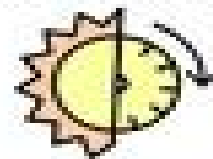

SPRING FORWARD

The clock moves forward-jump ahead!
One less hour in our bed.
The sun comes out so we can play,
Longer, brighter, happier day!

But when the autumn leaves turn brown,
We set the clock one hour down.
Darker nights and early light,
Snuggled in, all warm and tight.

Spring ahead and fall behind,
Time will change things that are mind.
Morning, evening, night, and noon,
Daylight savings ends the season.

One Hundred Poems and the Brain Henry Ryman Miner, 2023-12-19 About the Book As Henry Ryman Miner began to grow older he noticed a subtle increase in forgetfulness like going to another room and forgetting what he came for He began to undertake various forms of mental exercise in an effort to improve his memory which led him to engage in the practice of memorizing and reciting favorite and newly discovered poems a practice that he combined with cycling in the Oakland hills Gradually his collection of memorized verse grew to reach one hundred poems Broken into three parts Miner first details his process for memorization explaining in detail his methods and strategies In part two he lists all one hundred poems and includes his thoughts on each reflecting on its place in the chronology of his life Now familiar with his personal process and poems Miner in part three explains the science behind memory memorization and the brain proving and disproving some of his own methods in part one A fascinating read on the realities of memory loss with aging and the power of poetry Miner's *One Hundred Poems and the Brain* blends science and art into one engaging thoughtful mental exercise
