

The background of the entire cover is a detailed still life photograph. It features several glass bottles of olive oil, some with dark labels and others with lighter ones. The bottles are surrounded by fresh green olives on branches and some sliced bread. The lighting is dramatic, with strong highlights and deep shadows, creating a sense of depth and texture. The overall color palette is dominated by the greens of the olives and the browns and yellows of the bread and oil.

The Ritual Effect Michael Norton, 2015-05-20 In the bestselling tradition of Charles Duhigg's *The Power of Habit* and Angela Duckworth's *Grit* a renowned social psychologist demonstrates how a subtle turning of habits into rituals can clear a little space for everyday magic The Guardian in our lives Our lives are filled with repetitive tasks meant to keep us on track what we come to know as habits Over time these routines like brushing your teeth or putting on your right sock first tend to be performed automatically But when we're more mindful about these actions when we focus on the precise way they are performed they can instead become rituals Shifting from a habitual mindset to a ritual mindset can convert ordinary acts from black and white to technicolor Think about the way you savor a certain beverage the care you take with a particular outfit that gets worn only on special occasions the unique way that your family gathers around the table during holidays or the secret language you enjoy with your significant other To some these behaviors may seem quirky but because rituals matter so deeply to us on a personal level they give our lives purpose and meaning Drawing on a decade of original research Norton shows that rituals play a role in healing communities experiencing a great loss marking life's major transitions driving a

stadium of sports fans to ecstasy and helping us rise to challenges and realize opportunities Compelling insightful and practical The Ritual Effect reminds us of the intention filled acts that drive human behavior and create surprising satisfaction and enjoyment
