

An aerial photograph of a coastal fortification. The fort is a large, rectangular structure with a high, light-colored wall. Inside the wall, there is a large green field and a small cluster of buildings. The fort is situated on a peninsula or a narrow strip of land, with the sea visible in the background. In the foreground, there is a small town with several buildings and a road. The title 'THE SAXON SHORE' is written in large, bold, red letters across the top of the image.

Pearson,2003 The Saxon Shore Forts were a late Roman phenomenon built in the 3rd century AD stretching from Brancaster to Portchester Based on the author s thesis this is a detailed study of the construction of eleven forts including an analysis of the provenance and nature of building materials and a discussion of the building process and resources involved From conception and design the extraction and transportation of materials to the actual construction programme itself this is a well written and well structured study [Handbook to Life in Ancient Rome](#) Lesley Adkins,Roy A. Richard John King,1868 *War and Warfare in Late Antiquity (2 vols.)* ,2013-08-19 This two volume publication explores the key factors determining the course and outcome of war in Late Antiquity Volume 8 1 includes a detailed review of strategic and tactical

issues and eight comprehensive bibliographic essays which provide an overview of the literature In Volume 8 2 thematic papers examine strategy and intelligence fortifications and siege warfare weaponry and equipment literary sources and topography and civil war while papers focused on particular geographic regions home in on war and warfare in the West Roman Empire in the 4th and 5th centuries and the Balkans and the Eastern frontier in the 4th to 7th centuries AD Contributors are Susannah Belcher Neil Christie Ian Colvin John Conyard Jon Coulston Jim Crow Florin Curta Hugh Elton James Howard Johnston Jordi Galbany Jordi Gu rdia John Haldon Michel Kazanski Maria Kouroumali Michael Kulikowski Christopher Lillington Martin Marta Maragall Oriol Mercadal Jordi Nadal Oriol Olesti Alexander Sarantis Conor Whately Michael Whitby and John Wilkes **British and Irish Archaeology** ,1994 **A Handbook for Travellers in Kent and Sussex** John Murray (Firm),1858 *Saxon Identities, AD 150-900* Robert Flierman,2017-07-13 This study is the first up to date comprehensive analysis of Continental Saxon identity in antiquity and the early middle ages Building on recent scholarship on barbarian ethnicity this study emphasises not just the constructed and open ended nature of Saxon identity but also the crucial role played by texts as instruments and resources of identity formation This book traces this process of identity formation over the course of eight centuries from its earliest beginnings in Roman ethnography to its reinvention in the monasteries and bishoprics of ninth century Saxony Though the Saxons were mentioned as early as AD 150 they left no written evidence of their own before c 840 Thus for the first seven centuries we can only look at the Saxons through the eyes of their Roman enemies Merovingian neighbours and Carolingian conquerors Such external perspectives do not yield objective descriptions of a people but rather reflect an ongoing discourse on Saxon identity in which outside authors described who they imagined wanted or feared the Saxons to be dangerous pirates noble savages bestial pagans or faithful subjects Significantly these outside views deeply influenced how ninth century Saxons eventually came to think about themselves using Roman and Frankish texts to reinvent the Saxons as a noble and Christian people **A Handbook for Travellers in Kent and Sussex. By Richard J. King. With map** John Murray (Firm),1863 Roman Military Architecture on the Frontiers Rob Collins,Matt Symonds,Meike Weber,2015-11-30 The Roman army was one of the most astounding organizations in the ancient world and much of the success of the Roman empire can be attributed to its soldiers Archaeological remains and ancient texts provide detailed testimonies that have allowed scholars to understand and reconstruct the army s organization and activities This interest has traditionally worked in tandem with the study of Roman frontiers Historically the early imperial period and in particular the emergence of the frontiers has been the focus of research During those investigations however the remains of the later Roman army were also frequently encountered if not always understood Recent decades have brought a burgeoning interest in not only the later Roman army but also late antiquity more widely It is the aim of this volume to demonstrate that while scholars grappling with the late Roman army may want for a rich corpus of inscriptions and easily identifiable military installations research is revealing a dynamic less predictable force that

was adapting to a changing world in terms of both external threats and its own internal structures The dynamism and ingenuity of the late Roman army provides a breath of fresh air after the suffocating uniformity of its forbears The late Roman army was a vital and influential element in the late antique empire Having evolved through the 3rd century and been formally reorganized under Diocletian and Constantine the *limitanei* guarded the frontiers while the *comitatenses* provided mobile armies that were fielded against external enemies and internal threats The transformation of the early imperial army to the late antique army is documented in the rich array of texts from the period supplemented by a perhaps surprisingly rich archaeological record

The Convert Kings N. J. Higham, 1997 The story of the conversion of the English to Christianity traditionally begins with Augustine's arrival in 597 This text offers a critical re evaluation of the process of conversion which assesses what the act really meant to new converts who was responsible for it and why particular figures both accepted conversion for themselves and threw their influence behind the spread of Christianity The conversion has often been seen as something which missionaries did to the English The book restores responsibility to the English and in particular King Aethelbert Edwin Oswald and Oswin and it is their religious policies that form the focus of this text
