Natural Landscape Amenities And Suburban Growth:

Natural Landscape Amenities and Suburban Growth Christopher Mueller-Wille, 1990 *Urban Growth in American Cities* Roger Auch, Janice Taylor, William Acevedo, 2003 U.S. Geological Survey Circular, 1984 **Beyond the Global City** Gordon Nelson, 2012-05-08 Policies promoting Toronto as a global city and provincial economic engine have been seen as beneficial to the development of all of Ontario yet much of the province has borne significant environmental social economic and political costs as a result of one city's growth Contributors to this volume call for a radical reimagining of public policy at local provincial and federal levels that accounts for Ontario's overlooked regions Beyond the Global City presents a kaleidoscopic view of the province the rich fields and small towns of the southwest the productive agricultural lands of rural Huron County historic Kingston and the Upper St Lawrence the social and cultural diversity of the Ottawa valley the near mythical woodlands and waters of Muskoka and Georgian Bay and the heavily exploited coasts and waters of the Great Lakes to provide a deeper understanding of its various communities In a series of regional studies contributors describe each area's distinctive qualities and challenges and offer recommendations about what is needed to move them forward in a more equitable and sustainable way Two initial historical chapters lay the framework for the regional discussions while cross cutting and integrated chapters analyze the state of natural and cultural heritage and current development theory provincially offering guidance for the future **Utah Wilderness** United States. Congress. House. Committee on Resources. Subcommittee on National Parks, Forests, and Lands, 1995 **Place and Politics in Modern Italy** John A. Agnew, 2002-10 How do the places where people live help structure and restructure their sociopolitical identities and interests John A Agnew presents a theoretical model that addresses the relation of place to politics and applies it to a series of case studies set in modern Italy *Handbook of Environmental and Resource Economics* Jeroen C. J. M. Van den Bergh, 2002-01-01 This major reference book comprises specially commissioned surveys in environmental and resource economics written by an international team of experts Authoritative yet accessible each entry provides a state of the art summary of key areas that will be invaluable to researchers practitioners and advanced students **Calvinists Incorporated** Anne Kelly Knowles, 1997-02 Bringing immigrants onstage as central players in the drama of rural capitalist transformation Anne Kelly Knowles traces a community of Welsh immigrants to Jackson and Gallia counties in southern Ohio After reconstructing the gradual process of community building Knowles focuses on the pivotal moment when the immigrants became involved with the industrialization of their new region as workers and investors in Welsh owned charcoal iron companies Setting the southern Ohio Welsh in the context of Welsh immigration as a whole from 1795 to 1850 Knowles explores how these strict Calvinists responded to the moral dilemmas posed by leaving their native land and experiencing economic success in the United States Knowles draws on a wide variety of sources including obituaries and community histories to reconstruct the personal histories of over 1 700 immigrants The resulting account will find appreciative readers

not only among historical geographers but also among American economic historians and historians of religion **Dividing the Land** Edward T. Price, 1995-04-15 Many property lines drawn in early America still survive today and continue to shape the landscape and character of the United States Surprisingly though no one until now has thoroughly examined the process by which land was divided into private property and distributed to settlers from the beginning of colonization to early nationhood In this unprecedented study Edward T Price covers most areas of the United States in which the initial division of land was controlled by colonial governments the original thirteen colonies and Maine Vermont Kentucky West Virginia Tennessee Louisiana and Texas By examining different land policies and the irregular pattern of property that resulted from them Price chronicles the many ways colonies managed land to promote settlement develop agriculture defend frontiers and attract investment His analysis reveals as much about land planning techniques carried to America from Europe as innovations spurred by the unique circumstances of the new world Price's analysis draws on his thorough survey of property records from the first land plans in Virginia in 1607 to empresario grants in Texas in the 1820s This breadth of data allows him to identify regional differences in allocating land assess the impact of land planning by historical figures like William Penn of Pennsylvania and Lord Baltimore of Maryland and trace changes in patterns of land division and ownership through transfers of power among Britain the Netherlands France Spain Mexico and the Republic of Texas **Beyond the Basilica** Chad F. Emmett, 2012-04-26 Nazareth the largest Arab city in Israel is a surprising example of ethnic harmony in a region dominated by conflict A recent trend toward integration of its historical Greek Orthodox Roman Catholic and Muslim quarters however has disrupted the harmony In *Beyond the Basilica* Christians and Muslims in Nazareth Chad F Emmett provides penetrating analysis of the complex relationship between the structure of Nazareth's quarters and the relations between its ethnic communities Emmett describes both the positive and negative effects of Nazareth's residential patterns He shows that the addition of new and ethnically mixed quarters has promoted mixed schools joint holiday celebrations a common political culture and social networks that cross ethnic boundaries But he also finds that tensions exist among Christian groups and between Muslims and Christians in regard to intersectarian marriages religious conversion attempts to establish a joint Christian cemetery and the emergence of a local Islamic party Extensive interviews with leaders of religious groups political parties and residents reveal the way in which members of each ethnic community perceive one another A survey of 300 families gives a wealth of details about the make up of Nazareth's population including residential histories religion level of religious conviction friendship and shopping patterns and much more Fourteen maps trace changes in the distribution of religious groups and political affiliation in Nazareth from the mid nineteenth century to the present *Beyond the Basilica* will interest cultural geographers historians demographers political scientists and anyone who would like to learn more about an ethnically divided community in the residents cooperate more than they fight **Deforestation in the Postwar Philippines** David M. Kummer, 1992-06 The only quantitative deforestation study to focus on one country this case

analysis of the Philippines since 1946 yields more concrete data than previous cross national studies David Kummer's close examination of the interactions among political economic and cultural factors and their environmental consequences sheds light on similar situations in other countries **The Politics of Planting** Shaul Ephraim Cohen,1993-06 On the open landscape of Israel and the West Bank where pine and cypress forests grow alongside olive groves tree planting has become symbolic of conflicting claims to the land Palestinians cultivate olive groves as a vital agricultural resource while the Israeli government has made restoration of mixed growth forests a national priority Although both sides plant for a variety of purposes both have used tree planting to assert their presence on and claim to disputed land Shaul Ephraim Cohen has conducted an unprecedented study of planting in the region and the control of land it signifies In **The Politics of Planting** he provides historical background and examines both the politics behind Israel's afforestation policy its consequences Focusing on the open land surrounding Jerusalem and four Palestinian villages outside the city this study offers a new perspective on the conflict over land use in a region where planting has become a political tool For the valuable data it presents collected from field work previously unpublished documents and interviews and the insight it provides into this political struggle this will be an important book for anyone studying the Israeli Palestinian conflict **Isle of Fire** Christian A. Kull,2004-07-19 Long considered both best friend and worst enemy to humankind fire is at once creative and destructive On the endangered tropical island of Madagascar these two faces of fire have fueled a century long conflict between rural farmers and island leaders Based on detailed fieldwork in Malagasy villages and a thorough archival investigation **Isle of Fire** offers a detailed analysis of why Madagascar has always been aflame why it always will be aflame and ultimately as Christian Kull argues why it should remain aflame **American Capitals** Christian Montès,2014-01-10 State capitals are an indelible part of the American psyche spatial representations of state power and national identity Learning them by heart is a rite of passage in grade school a pedagogical exercise that emphasizes the importance of committing place names to memory But geographers have yet to analyze state capitals in any depth In **American Capitals** Christian Montès takes us on a well researched journey across America from Augusta to Sacramento Albany to Baton Rouge shedding light along the way on the historical circumstances that led to their appointment their success or failure and their evolution over time While all state capitals have a number of characteristics in common as symbols of the state as embodiments of political power and decision making as public spaces with private interests Montès does not interpret them through a single lens in large part because of the differences in their spatial and historical evolutionary patterns Some have remained small while others have evolved into bustling metropolises and Montès explores the dynamics of change and growth All but eleven state capitals were established in the nineteenth century thirty five before 1861 but rather astonishingly only eight of the fifty states have maintained their original capitals Despite their revered status as the most monumental and historical cities in America capitals come from surprisingly humble beginnings often plagued by instability conflict hostility and corruption Montès reminds us of the period

in which they came about an era of pioneer and idealized territorial vision coupled with a still evolving American citizenry and democracy Modeling Urban Growth in California's Central Valley Shumin Liang,2004 After a California Earthquake Risa Palm,Michael E. Hodgson,1992-04-15 Shortly before the Loma Prieta earthquake devastated areas of Northern California in 1989 Risa Palm and her associates had surveyed 2 500 homeowners in the area about their perception of risk from earthquakes After the quake they surveyed the homeowners again and found that their perception of risk had increased but that most respondents were fatalistic and continued to ignore self protective measures those who personally experienced damage were more likely to buy insurance A rare opportunity to analyze behavior change directly before and after a natural disaster this survey has implications for policy makers insurance officials and those concerned with risk management Parallel Patterns of Shrinking Cities and Urban Growth Rocky Piro,2016-05-06 Focussing particularly on urban fringe and rural areas this book addresses the parallel phenomena of growth and decline In doing so it not only broadens a debate which generally concentrates on urban municipalities especially inner city areas but also covers new ground by starting to build a new theoretical framework for the spatial planning related assessment of these phenomena Bringing together contributions from internationally renowned authors such as Sir Peter Hall Steve Ward and Johann Jessen the book compares international case studies and highlights their relationships with one another It concludes by emphasizing common themes that are addressed as well as showing applicability to other urban and rural regions Overall the book provides a timely and comprehensive analysis of the spatial consequences and related spatial planning concepts in theory and practice which aim to further sustainable development of city regions urban fringe and rural areas experiencing growth and decline **Environmental Amenities and Regional Economic Development** Todd L. Cherry,Dan Rickman,2009-12-04 Rising U S income and wealth in recent decades have fueled an increase in consumption demand for environmental amenities Many observers and researchers have argued that this at least in part underlies current differentials in economic growth across regions This collection of key articles addresses the issues and more **Guide to Programs of Geography in the United States and Canada** ,1991 **Research Paper** University of Chicago. Dept. of Geography,1996
