## **Natural Law And Practical Reason A Thomist View Of Moral Autonomy:**

*Natural Law and Practical Reason* Martin Rhonheimer, 1993 Rhonheimer applies moral theology to practical questions such as what does it mean to violate the natural law or to be unnatural

**Biblical Natural Law** Matthew Levering, 2008-03-20 An introduction to natural law theory and a challenge to re think current biblical scholarship on the topic Levering establishes the relevance of a biblical worldview to the contemporary pursuit of a moral life and locates his argument in the context of the philosophical development of natural law theory from Cicero to Nietzsche

The Natural Law Reader Jacqueline A. Laing, Russell Wilcox, 2013-09-23 The Natural Law Reader features a selection of readings in metaphysics jurisprudence politics and ethics that are all related to the classical Natural Law tradition in the modern world Features a concise presentation of the natural law position that offers the reader a focal point for discussion of ancient and contemporary ideas in the natural law tradition Draws upon the metaphysical and ethical categories put forth and developed by Aristotle and Aquinas Points to the historical significance and contemporary relevance of the Natural Law tradition Reflects on a revival of interest in the tradition of virtue ethics and human rights

*Knowing the Natural Law* Steven J. Jensen, 2015-03-26 Knowing the Natural Law traces the thought of Aquinas from an understanding of human nature to a knowledge of the human good from there to an account of ought statements and finally to choice which issues in human actions The much discussed article on the precepts of the natural law I II 94 2 provides the framework for a natural law rooted in human nature and in speculative knowledge Practical knowledge is itself threefold potentially practical knowledge virtually practical knowledge and fully practical knowledge

**The Perspective of Morality** Martin Rhonheimer, 2011 At every stage in the argument brief and insightful notes carry on a rapier like face off with almost every significant ethical philosopher of the last three or four centuries making clear how much Rhonheimer has gained from those with whom he has disagreed This is at once a return to a refreshingly profound understanding of the texts of Thomas Aquinas and Aristotle and a new synthesis of ethics for our time

**Virtue and Theological Ethics** Salzman; Todd A., Lawler, Michael G., 2018-10-18 Eight story reflections each based on a different Beatitude offer accounts of immigrant children who fled Central America on their own to escape violence and poverty Artwork created by immigrant youth and meditations written by Jesuit Father Leo O Donovan accompany the stories

The Perspective of the Acting Person Martin Rhonheimer, 2008-02 The Perspective of the Acting Person introduces readers to one of the most important and provocative thinkers in contemporary moral philosophy In this collection of essays Martin Rhonheimer examines the central themes of natural law moral action and virtue emphasized by John Paul II s 1993 encyclical Veritatis Splendor Rhonheimer s work follows the general direction taken by the encyclical through an almost unprecedented rigor of philosophical argumentation and level of engagement with both European and American scholarship Rhonheimer argues extensively from the texts of Aquinas against aspects of more traditional interpretations of the Angelic Doctor He maintains that their deficiencies helped precipitate both

the postconciliar crisis in moral theology and the rise of revisionist approaches He addresses not only the central topics of natural law and moral action but also the reasonableness of Christian morality the relation between nature and reason and that between metaphysics and ethics All are considered from the distinctively moral perspective of the agent Rhonheimer also responds to critics of both Veritatis Splendor and his own work and critiques works by revisionist moral theologians The collection focuses on Rhonheimer s fundamental ethical theory establishing the theoretical bases for his more applied works in areas such as sexual ethics political philosophy social ethics and medical ethics A detailed introduction by William F Murphy Jr sketches Rhonheimer s intellectual biography and the development of his thought and summarizes key content from the essays Finally a detailed bibliography of Rhonheimer s work is included which further enhances the volume s value to moral philosophers and theologians Martin Rhonheimer is professor of ethics and political philosophy at the Pontifical University of the Holy Cross in Rome His publications include a dozen books several of which have been translated into multiple languages His Natural Law and Practical Reason was the first of his books to be made available in English William F Murphy Jr is associate professor of moral theology at the Pontifical College Josephinum and editor of the Josephinum Journal of Theology PRAISE FOR THE BOOK The recent rediscovery of the perspective of the acting person is one of the most decisive advances for moral theology which allows the resolution of many aporias of modern ethics We should be thankful to William Murphy for this collection Rhonheimer is a master and a necessary point of reference for rereading in this fresh and comprehensive perspective the Common Doctor of Catholic theology St Thomas Aquinas Msgr Livio Melina President and Professor of Moral Theology Pontifical John Paul II Institute for Studies on Marriage and Family Rome Murphy introduces Rhonheimer to Anglo American ethicists by way of judicious samples of his work astutely contextualized for ethicists of all persuasions The key to the work lies in articulating a virtue centered conception of morality from the first person perspective of the acting person who perceives goods to be pursued and acts freely through reason and will By reading Aristotle and Aquinas in critical engagement with prevailing ethical stances underlying conundrums of ethics classical and modern emerge into clearer light David B Burrell C S C Hesburgh Professor Emeritus of Philosophy and Theology University of Notre Dame Rhonheimer has taken his place as one of the more significant moralists writing in the post conciliar period His reasoning reflecting closely the rationale of the decisive paragraph 78 of Veritatis Splendor avoids weaknesses that characterize both the neo Thomistic manualists of the first half of the 20th century and more recent revisionists Murphy has done a great service

Ethical Rationalism and Secularisation in the British Enlightenment Dafydd Mills Daniel, 2020-10-22 This book reassesses the ethics of reason in the Age of the Reason making use of the neglected category of conscience Arguing that conscience was a central feature of British Enlightenment ethical rationalism the book explores the links between Enlightenment philosophy and modern secularisation while responding to longstanding criticisms of rational intuitionism and the analogy between mathematics and morals derived from David Hume and Immanuel Kant Questioning in what sense

British Enlightenment ethical rationalism can be associated with a secularising Enlightenment project Daniel investigates the extent to which contemporary and secular liberal invocations of reason and conscience rely on the early modern Christian metaphysics they have otherwise disregarded The chapters cover a rich collection of subjects ranging from the Enlightenment's secular legacy reason and conscience in the history of ethics and controversies in the Scottish Enlightenment to the role of British moralists such as John Locke Joseph Butler and Adam Smith in the secularisation of reason and conscience Each chapter expertly refines Enlightenment ethical rationalism by reinterpreting its most influential proponents in eighteenth century Britain the followers of Isaac Newton's bulldog Samuel Clarke including Richard Price Edmund Burke's opponent over the French Revolution and John Witherspoon the only clergyman to sign the US declaration of Independence

*Contemporary Controversies in Catholic Bioethics* Jason T. Eberl, 2017-07-24 This volume comprises various viewpoints representing a Catholic perspective on contemporary practices in medicine and biomedical research The Roman Catholic Church has had a significant impact upon the formulation and application of moral values and principles to a wide range of controversial issues in bioethics Catholic leaders theologians and bioethicists have elucidated and marshaled arguments to support the Church's definitive positions on several bioethical issues such as abortion euthanasia and reproductive cloning Not all bioethical issues however have been definitively addressed by Catholic authorities and some Church teachings allow for differing applications in diverse circumstances Moreover as new biomedical technologies emerge Church authorities rely on experts in science medicine philosophy theology law and other disciplines to advise them Such experts continue to debate issues related to reproduction genetics end of life care and health care policy This volume will be a valuable resource for scholars in bioethics or Catholic studies who will benefit from the nuanced arguments offered based on the latest research This volume is also instructive for students entering the field to become aware of the founding philosophical and theological principles informing the Catholic bioethical worldview

*Religious Ethics and Constructivism* Kevin Jung, 2018-04-17 In metaethics there is a divide between those who believe that there exist moral facts independently of human interests and attitudes i.e. moral realists and those who don't i.e. antirealists In the last half century the field of religious ethics has been inundated with various antirealist schools of moral thought Though there is a wide spectrum of different positions within antirealism a majority of antirealist religious ethicists tend to see moral belief as an historically dependent social construction This has created an environment where doing religious ethics in any metaphysically substantial sense is often seen not only as out of fashion but also as philosophically implausible However there is a lack of clarity as to what antirealists exactly mean by construction and what arguments they would use to support their views Religious Ethics and Constructivism brings together a diverse group of scholars who represent different philosophical and theological outlooks to discuss the merits of constructivism vis vis religious ethics The essays explore four different kinds of constructivism in metaethics social or Hegelian constructivism Kantian constructivism Humean constructivism and

theological constructivism The overall aim of these essays is to foster dialogue between religious ethicists and moral philosophers and to open the field religious ethics to the insights that can be provided by contemporary metaethics

**Natural Law & Human Dignity** Eberhard Schockenhoff, 2003 Do human rights apply only to a certain culture group or can they be demanded of all cultures and religions This discussion about a common world ethos demonstrates how relevant and explosive that question is In his study of ethical relativism and historical thinking Eberhard Schockenhoff shows how the universal recognition of fundamental norms that guarantee the minimum conditions for human existence can be substantiated Dealing critically with the two most important branches of research in present day moral theology autonomous morality and teleological ethics the author presents a new theological ethical theory of natural law Integrating the theory of practical reason and Aquinas understanding of natural inclinations Schockenhoff compares this synthesis to the insights of present day anthropology This method allows him to re establish a connection to classical natural law ethics In so doing he indicates how ethics can fulfill its most important duty to arrive at the recognition of anthropologically grounded material norms without falling prey to a logical error According to Schockenhoff claims of natural law and of human rights formulate an indispensable minimum while biblical ethics the decalogue and the Sermon of the Mount and the high ethos of the world religions point the way to an encompassing realization of the concept of the good life Renowned moral theologian Eberhard Schockenhoff is professor at Albert Ludwigs Universit t Freiburg He is the author of numerous works and managing editor of Zeitschrift f r Medizinische Ethik Brian McNeil is a parish priest in Munich and a translator of theological literature PRAISE FOR THE BOOK The book is impressive in many respects It is thorough and precise about the specific problems associated with natural law theory and the chapters on relativism and historicism exhibit impressive erudition and insight Few books on natural law grapple so extensively and fairly with objectors as does this one and its responses are admirable in their breadth and depth Mark Graham Theological Studies A masterly treatment of many of the most important issues in moral theology Brian V Johnstone Studia Moralia This book demonstrates convincingly that natural law has not become obsolete in ethical discussions Peter Fonk Theologische Revue In regard to topics that are coined by the Roman Catholic tradition the author includes Protestant authors in his considerations with a naturalness that has to be seen as a fortunate sign of ecumenical openness Schockenhoff manages to revive answers of the tradition that have sometimes been put aside and to bring them up in the challenges of today Heinrich Bedford Strohm Theologische Literaturzeitung An exceptional discussion of the concept of natural law as it applies to a modern world of moral relativism This is a high quality work providing both a wide overview of the concerns of natural law and offering a respectable solution worth further consideration Schockenhoff s work is highly recommended Matthew Ryan McWhorter Catholic Books Review OnLine This book by one of the leading Catholic moral theologians in Germany teaching at Freiburg University presents a simple thesis in an elaborate and sophisticated fashion Schockenhoff s highly learned and impressive account deserves attention and critical engagement Bernd Wannenwetsch

Studies in Christian Ethics      **Introduction to Moral Theology** Romanus Cessario, 2010-03-30 The comprehensive introduction to Catholic moral theology by the leading theologian and author of *The Moral Virtues and Theological Ethics* In *Introduction to Moral Theology* Father Romanus Cessario O P presents and expounds on the basic and central elements of Catholic moral theology written in the light of Veritatis splendor Since its publication in 2001 this first book in the Catholic Moral Thought series has been widely recognized as an authoritative resource on such topics as moral theology and the good of the human person created in God's image natural law principles of human action determination of the moral good through objects ends and circumstances and the virtues gifts of the Holy Spirit and the Beatitudes The Catholic Moral Thought series is designed to provide students with a comprehensive presentation of both the principles of Christian conduct and the specific teachings and precepts for fulfilling the requirements of the Christian life Soundly based in the teaching of the Church the volumes set out the basic principles of Catholic moral thought and the application of those principles within areas of ethical concern that are of paramount importance today      **The Root of Friendship** Anthony T. Flood, 2014-05 The *Root of Friendship* addresses the connections between self love and self governance in the thought of St Thomas Aquinas and defends three related theses First Aquinas's account of proper self love is a description of the nature and importance of a person's subjective self experience Second his notion of self governance cannot be understood fully unless we grasp its basis in self love Finally his account both satisfies contemporary conditions of relevance for self governance and offers attractive solutions to issues raised in analytic discussions on such matters      Proportionalism and the Natural Law Tradition Christopher Robert Kaczor, 2002 This work argues against the plausibility against proportionalism and its first proponents namely Peter Knauer Joseph Fuchs Louis Janssens and Richard McCormick Examining the genealogy of the movement it disputes a received history that depicts proportionalism as a recovery of Thomas Aquinas      Thomistic Principles and Bioethics Jason T. Eberl, 2006-09-27 Alongside a revival of interest in Thomism in philosophy scholars have realised its relevance when addressing certain contemporary issues in bioethics This book offers a rigorous interpretation of Aquinas's metaphysics and ethical thought and highlights its significance to questions in bioethics Jason T Eberl applies Aquinas's views on the seminal topics of human nature and morality to key questions in bioethics at the margins of human life questions which are currently contested in the academia politics and the media such as When does a human person's life begin How should we define and clinically determine a person's death Is abortion ever morally permissible How should we resolve the conflict between the potential benefits of embryonic stem cell research and the lives of human embryos Does cloning involve a misuse of human ingenuity and technology What forms of treatment are appropriate for irreversibly comatose patients How should we care for patients who experience unbearable suffering as they approach the end of life *Thomistic Principles and Bioethics* presents a significant philosophical viewpoint which will motivate further dialogue amongst religious and secular arenas of inquiry concerning such complex issues of both individual and public concern

Contemporary Perspectives on Natural Law Ana Marta González, 2016-05-13 Resorting to natural law is one way of conveying the philosophical conviction that moral norms are not merely conventional rules Accordingly the notion of natural law has a clear metaphysical dimension since it involves the recognition that human beings do not conceive themselves as sheer products of society and history And yet if natural law is to be considered the fundamental law of practical reason it must show also some intrinsic relationship to history and positive law The essays in this book examine this tension between the metaphysical and the practical and how the philosophical elaboration of natural law presents this notion as a limiting concept between metaphysics and ethics between the mutable and the immutable between is and ought and in connection with the latter even the tension between politics and eschatology as a double horizon of ethics This book contributed to by scholars from Europe and America is a major contribution to the renewed interest in natural law It provides the reader with a comprehensive overview of natural law both from a historical and a systematic point of view It ranges from the mediaeval synthesis of Aquinas through the early modern elaborations of natural law up to current discussions on the very possibility and practical relevance of natural law theory for the contemporary mind

Cultural Anatomies of the Heart in Aristotle, Augustine, Aquinas, Calvin, and Harvey Marjorie O'Rourke Boyle, 2018-09-04 This book probes beneath modern scientific and sentimental concepts of the heart to discover its past mysteries Historical hearts evidenced essential aspects of human existence that still endure in modern thought and experience of political community psychological mentality and physical vitality Marjorie O'Rourke Boyle revises ordinary assumptions about the heart with original interdisciplinary research on religious beliefs and theological and philosophical ideas Her book uncovers the thought of Aristotle William Harvey Augustine Thomas Aquinas and John Calvin as it relates to the heart It analyzes Augustine's outlaw heart in cultural deviance from biblical law Aquinas's problematic argument for the permanence of the natural law in the heart and Calvin's advocacy for an affective heart re-created by the Spirit from its fallen nature This book of cultural anatomies is the climax of her dozen years of publications on the heart

*Encountering Transcendence* Lieven Boeve, Hans Geybels, Stijn Van den Bossche, 2005 This volume consists of several contributions to a refined understanding of religious experience in view of contemporary theological epistemology Diverse sample studies taken from the extensive field of religion theology and religious studies reveal that religious experience is today clearly a pivotal issue More specifically this is made evident in modern theological hermeneutics and in the anti-modern and/or post-modern reactions thereto the theology of world religions and inter-religious dialogue the contemporary resurgence of religiosity in Western society and culture and the so-called turn to religion in contemporary continental philosophy It would appear from such studies that the category of religious experience is frequently called upon to clarify or explain the phenomenon of religion and religiosity on the one hand and to support and legitimise religious positions or the critique thereof on the other Because of the loss of plausibility of tradition-bound religiosity and of foundational so-called onto-theological schemes religious experience has come to constitute for many the

last or latest point of departure and anchor for religion and religious thinking This is certainly the case with respect to tendencies within contemporary Christian traditions and theological reflection In a multitude of ways and from a variety of different perspectives religious experience and experience of transcendence or of the divine have gained a prominent place in philosophical and fundamental theological conceptual schemes In reaction to this other authors have denied the very primacy given to religious experience in reflecting upon faith pointing to the constitutive role of tradition and narrative without which there is no religious experience From all this follows that the category of religious experience is in great need of reconceptualisation not least from a theological point of view On the one hand religious experience is all too easily called upon to legitimise religious claims often against tradition and on the other hand the category has become misleading in so far as it is tainted by the modern scientific understanding of experience in reaction to which tradition is then easily invoked to protect the core of religion Both young scholars at the preceding junior conference and senior scholars during the conference s paper sessions presented from diverse perspectives new ways to conceive of religious experience in view of today s challenges of secularisation religious plurality the aestheticisation of religion etc The selected contributions have been arranged in four thematically oriented parts Approaching Religious Experience in a Postmodern Age Modern re Thinking of Religious Experience Liberating Religious Experience and Challenges for Spirituality Josef Fuchs on Natural Law Mark Graham, 2002-10-25 Appointed by Pope John XXIII to the Pontifical Commission on Population Family and Birth Fuchs ultimately found himself disappointed in his three years of service and spent the next thirty years exploring a broad array of issues pivotal to a reconstruction of Roman Catholic natural law theory This is the first full length analysis of Fuchs s efforts Beginning historically by looking at Fuchs s writings and beliefs before the Pontifical Commission appointment including his defense of natural law during the situation ethics debates of the 50s and 60s the concept of personal salvation and the status of nature and human nature Graham moves to the intellectual conversion that inspired Fuchs to reconsider his concepts following the commission appointment From there Graham engages in a sustained critique of Fuchs s natural theory addressing both the strengths and weaknesses to be found there and suggest possible avenues of development that would make a positive contribution to the ongoing quest to rehabilitate the Roman Catholic natural law theory that continues to dominate the landscape of moral theology today *Aquinas and Sartre* Stephen Wang, 2009 Thomas Aquinas and Jean Paul Sartre are usually identified with completely different philosophical traditions intellectualism and voluntarism In this original study Stephen Wang shows instead that there are some profound similarities in their understanding of freedom and human identity
