Natural Mother:

The Natural Mother of the Child Krys Malcolm Belc, 2021-06-15 Krys Malcolm Belc's visual memoir in essays explores how the experience of gestational parenthood conceiving birthing and breastfeeding his son Samson eventually clarified his gender identity Krys Malcolm Belc has thought a lot about the interplay between parenthood and gender As a nonbinary transmasculine parent giving birth to his son Samson clarified his gender identity And yet when his partner Anna adopted Samson the legal documents listed Belc as the natural mother of the child By considering how the experiences contained under the umbrella of motherhood don't fully align with Belc's own experience *The Natural Mother of the Child* journeys both toward and through common perceptions of what it means to have a body and how that body can influence the perception of a family With this visual memoir in essays Belc has created a new kind of life record one that engages directly with the documentation often thought to constitute a record of one's life childhood photos birth certificates and addresses his deep ambivalence about the before and after so prevalent in trans stories which feels apart from his own experience *The Natural Mother of the Child* is the story of a person moving past societal expectations to take control of his own narrative with prose that delights in the intimate dailiness of family life and explores how much we can ever really know when we enter into parenting
