There is no question that Africa is endowed with abundant natural resources of different magnitudes However more than a decade of high commodity prices and new hydrocarbon discoveries across the continent has led countless international organizations donor agencies and non governmental organizations to devote considerable attention to the potential of natural resource based development Natural Resource Based Development in Africa places a particular emphasis on the actors that help us understand the extent to which resources could be transformed into broader developmental outcomes Based on a wide variety of primary sources and fieldwork including in person interviews and participant observations this collection contributes to both scholarly and policy discussions around the governance and economic development roles of local entrepreneurs transnational firms civil society groups local communities and

government agencies in Africa's natural resource sectors Natural Resource Based Development in Africa explores the impact that these actors have on regional trends such as resource nationalism and local procurement policies as well as grassroots related issues such as poverty livelihoods gender equity development and human security *Natural Resource Sovereignty and the Right to Development in Africa* Carol Chi Ngang, Serges Djouyou Kamga, 2021-08-25 This book explores the nexus between natural resources ownership and the right to development in Africa The right to sovereignty over natural resources and the right to development are recognised and protected in an extensive framework of international regional and domestic instruments They guarantee people's entitlement to fully and freely utilise their natural resources as a means of subsistence and for economic social and cultural development Yet despite the abundance of natural resources in Africa a majority of the people on the continent remain largely impoverished This book articulates the central argument that to achieve the right to development in Africa requires appropriate governance of the continent's natural resources to which the people of Africa are guaranteed sovereign ownership With case study illustrations from Zimbabwe Ghana Ethiopia and the Democratic Republic of Congo chapters explore the normative measures specific guarantees and community entitlements to natural resources for the realisation of the right to development The book will be an invaluable guide to scholars and postgraduate students of Natural Resources Development and African studies as well as policymakers and practitioners in these areas **The**

new light on foreign private sector contributions to capacity building and economic development *Natural Resources and International Development* Marion Clawson,1965 Defense Spending, Natural Resources, and Conflict Christos Kollias,Hamid E. Ali,2017-10-02 This book is an intellectual contribution of policy scientists and researchers from different academic institutions in different parts of the world The Arab Spring the rise of ISIS and terrorism ignite the debate on studying conflict and natural resources Uniquely the book discusses the sources of the conflicts and the institutions that are managing the conflicts The natural resources defense spending conflict and human welfare are intertwined In support of the resource curse hypothesis the book shows that an abundance of natural resources particularly oil encourages an increase in military spending and lower economic growth In addition the good economic and political institutions do reduce the hazard of conflict and strong political institutions for checks and balances appear to weaken the impact of natural resources on conflicts The book also examines the relationship between defense and social welfare expenditures specifically health and education Shedding light on the complicated nature of the relationship between defense spending inequality and types of political and welfare regimes gives us a deeper understanding of the type of democratic systems that will likely improve social welfare In studying the political economy of defense spending the book shows the link between public opinion toward defense spending and voters support for candidates The analysis shows that party identification or having a vested interest in defense industries do correlate with a preference for increasing defense spending This book was published as a special issue of Defence and Peace Economics Natural Resources, Conflict, and Sustainable Development Okechukwu Ukaga,Ukoha O.
