Natural Products for the Management of Arthritic Disorders Rupesh K. Gautam, Lokesh Deb, Kamal Dua, 2022-08-20 Rheumatoid arthritis RA is the most common inflammatory complication and affects approximately 1 % of the global population It affects three times more women than men RA is an autoimmune disorder elicited by exposure of genetic factors from the host to unknown antigens causing arthritogenic complaints It also includes the activation of lymphocytes as well as CD4 helper T cells along with local release of chronic inflammatory mediators and cytokines like tumor necrosis factor TNF and various cytokines like interleukins IL that enormously affect the joints The available allopathic therapies for RA are not a cure for the complications and antibody therapy and surgical procedures are expensive However in the present era

researchers and healthcare professionals have moved toward natural medicines obtained from plants and other natural sources. Research based on developments in phytomedicine has progressed steadily. Evidence has been collected to show the massive therapeutic potential of medicinal plants used in various traditional systems against many pathological complications. Researchers have focused on the therapeutic potential of natural products used for treatment and counteracting various disorders along with their complications having negligible adverse effects.

Natural Products for the Management of Arthritic Disorders compiles current knowledge about the bioactive compounds and herbal formulations useful in the treatment of rheumatoid arthritis. 11 chapters explain the role of natural products in the management of rheumatoid arthritis. Topics have been contributed by experts in medicinal chemistry and rheumatology. The book first introduces the reader to rheumatoid arthritis before delving into conventional and alternative therapies for the disease. The editors have also included special topics such as the biomarkers for RA, cytokines and anti-inflammatory mediators, preclinical and clinical studies. The range of topics should provide a comprehensive overview of natural remedies for arthritis and the role of natural products in anti-arthritic drug development. The information will be useful for many readers including medical and pharmacology students, multidisciplinary research scholars, scientists, pharma, herbal food industrialists and policy makers.

The Complementary and Alternative Medicine Information Source Book Alan Rees, 2001-03-30. From acupuncture to yoga, the increasing popularity of unconventional medical therapies has risen sharply during the past decade. Consumers are turning to complementary and alternative medicine (CAM) for a variety of reasons and are spending billions annually for treatments. Recognizing the growing need to locate authoritative CAM information, award-winning author Alan M. Rees has compiled a first-stop resource for those seeking information to guide their decisions. Noted health information expert Alan Rees organizes the best of complementary and alternative medicine (CAM) information resources in this new guide for librarians and patients. The book is divided into twelve sections, beginning with an overview of CAM terminology, safety concerns, ongoing research and education, and the movement towards integrative medicine. Best-of lists of books, magazines, newsletters, CD-ROMs and professional publications are augmented with contact information for several hundred CAM associations and professional groups, an extensive section on the Internet as a source of CAM-related information, and reviews of 355 popular books on CAM. Librarians will use the Source Book as a collection development tool. Consumers and students will find it an easy-to-use guide for locating hard-to-find resources about the latest in alternative medical therapies and treatments. This unique volume brings together in one volume print and electronic resources pertaining to an in-demand topic, provides recommendations of authoritative sources of current information, and on a wide variety of unconventional medical therapies will fill the information gap in the rapidly growing field of CAM.
