Atkinson,2015-07-21 Excerpt from Natural Philosophy for General Readers and Young People The present work has its origin in an attempt to comply with a suggestion which has frequently been made to me that I should prepare an abridged edition of my translation of Ganot s Elements de Physique which could be used for purposes of more elementary instruction than that work and in which the use of mathematical formulae would be dispensed with But I soon found that to do anything of the kind which would be more than a mere series of extracts would be very difficult and hence I turned my attention to another book by the same author which has had a very extensive circulation in France his Cours elementaire de Physique and this I have taken as the basis of the present book About the Publisher Forgotten Books
