*Sex Is Not A Natural Act & Other Essays* Leonore Tiefer, 2018-03-09 Revisits and updates the centrality of the social construction of sexuality especially in the age of Viagra FSD female sexual dysfunction and the media saturation of sex Leonore Tiefer is one of the foremost sexologists working in the United States today she is a well known and respected scholar who writes engagingly and humorously about a wide array of topics in sexuality to appeal to both students and general readers Revised and updated with new pieces on the medicalization of sex FSD female sexual dysfunction and the politics of sex as well as classic pieces found in the original edition such as Am I Normal The Question of Sex **Nature, Sex, and Goodness in a Medieval Literary Tradition** Hugh White, 2000 Nature is a highly important term in the ethical discourse of the Middle Ages and as such a leading concept in medieval literature This book examines the moral status of the natural in writings by Alan of Lille Jean de Meun John Gower Geoffrey Chaucer and others showing how particularly in the erotic sphere the influences of nature are not always conceived as wholly benign Though medieval thinkers often affirm an association of nature with reason and therefore with the good there is also an acknowledgement that the animal the pre rational the instinctive within human beings may be validly considered natural In fact human beings may be thought to be urged almost ineluctably by the force of nature within them towards behaviour hostile to reason and the right **Sex Research and Sex Therapy** Ross Morrow, 2013-06-17 Exploring the theoretical conceptual and historical issues surrounding the topic of sex research and sex therapy this book examines the influential scientific sex research completed by Masters and Johnson and its implications for sex therapy and the study of human sexuality **What IS Sex?** Alenka Zupancic, 2017-09-08 Why sexuality is at the point of a short circuit between ontology and epistemology Consider sublimation conventionally understood as a substitute satisfaction for missing sexual satisfaction But what if as Lacan claims we can get exactly the same satisfaction that we get from sex from talking or writing painting praying or other activities The point is not to explain the satisfaction from talking by pointing to its sexual origin but that the satisfaction from talking is itself sexual The satisfaction from talking contains a key to sexual satisfaction and not the other way around even a key to sexuality itself and its inherent contradictions The Lacanian perspective would make the answer to the simple seeming question What is sex rather more complex In this volume in the Short Circuits series Alenka Zupan i approaches the question from just this perspective considering sexuality a properly philosophical problem for psychoanalysis and by psychoanalysis she means that of Freud and Lacan not that of the kind of clinician practitioners called by Lacan orthopedists of the unconscious Zupan i argues that sexuality is at the point of a short circuit between ontology and epistemology Sexuality and knowledge are structured around a fundamental negativity which unites them at the point of the unconscious The unconscious as linked to sexuality is the concept of an inherent link between being and knowledge in their very negativity **With Pleasure : Thoughts on the Nature of Human Sexuality** Paul R. Abramson Professor of Psychology, Los Angeles Steven D. Pinkerton

Post-doctoral Fellow both of the University of California, 1995-11-09 Challenging everything from the mandates of the Catholic Church to the hotly debated ethics of pornography and from the controversy surrounding gay rights to issues of gender and feminism *With Pleasure* explores a new theory of human sexuality that ignites every hot topic in the public domain What role authors Paul Abramson and Steven Pinkerton ask does sexual pleasure play in our lives Is the pursuit of sexual enjoyment in our blood Our brains Our very nature Regardless of the source it can be agreed that the joys of sex are widely appreciated Why then is pleasure so often overlooked in discussions of sexual behavior and why do cultural historical and religious treatises so often fail to emphasize or outright ignore this obvious aspect of human sexuality Responding to these and many other questions about our most private affairs *With Pleasure* provides a profoundly original challenge to the cherished truisms of human sexuality Abramson and Pinkerton proclaim the paramount importance of pleasure while at the same time overthrowing traditional ideas about gender pornography contraception homosexuality abortion and much more Supported by rigorous research and co written by one of the foremost authorities on sex *With Pleasure* argues that human sexuality cannot be understood if its significance is limited to reproduction alone The authors posit that in humans reproduction itself occurs as a byproduct of pleasure not the other way around and that it is the strong drive for pleasure that makes people overcome many obstacles and even life threatening dangers such as AIDS to have sex Ranging from discussions about the church to current debates about pornography and from evolutionary theory to questions about the future of sex and pleasure Abramson and Pinkerton argue persuasively that the pleasurable of sex cannot be restricted to purely reproductive behavior *With Pleasure* advances a startling and original new theory about human sexuality one which the authors believe will replace all existing notions about sex The book standing in direct and deliberate opposition to traditions that try to confine sexuality to procreation is sure to ignite a firestorm of controversy Natural Alan Levinovitz, 2020-04-07 Illuminates the far reaching harms of believing that natural means good from misinformation about health choices to justifications for sexism racism and flawed economic policies People love what's natural it's the best way to eat the best way to parent even the best way to act naturally just as nature intended Appeals to the wisdom of nature are among the most powerful arguments in the history of human thought Yet Nature with a capital N and natural goodness are not objective or scientific In this groundbreaking book scholar of religion Alan Levinovitz demonstrates that these beliefs are actually religious and highlights the many dangers of substituting simple myths for complicated realities It may not seem like a problem when it comes to paying a premium for organic food But what about condemnations of unnatural sexual activity The guilt that attends not having a natural birth Economic deregulation justified by the inherent goodness of natural markets In *Natural* readers embark on an epic journey from Peruvian rainforests to the backcountry in Yellowstone Park from a natural bodybuilding competition to a natural cancer curing clinic The result is an essential new perspective that shatters faith in Nature's goodness and points to a better alternative We can love nature without worshipping it and we can work

toward a better world with humility and dialogue rather than taboos and zealotry

**The Nature of the Sexes** Tomás Bogardus, 2025-09-15 How complex is sex According to this book not nearly as complex as we're often told these days Author Tom s Bogardus first critically evaluates varieties of a complex view of sex supported by Anne Fausto Sterling Sarah Richardson and others in which sex is a constellation of traits related to chromosomes hormones gonads and phenotypes Bogardus then considers several gamete based accounts of sex to which he is more sympathetic including those from Alex Byrne Laura Franklin Hall and Paul Griffiths Shortcomings of these views are described and an improved account is proposed the sexes are activated higher order functions In short to be male is to have the function of producing sperm and to be female is to have the function of producing eggs Bogardus develops this view all while untangling the various meanings and definitions of gender and gender identity and while examining whether all of them are ultimately defined in terms of the sexes The author then defends his methodology of deferring to biologists when figuring out the nature of the sexes and concludes with practical questions about whether we should revise the meanings of our sex terms for the sake of social justice He asks whether pronouns like he and she track biological sex and whether they should continue to do so

**The Nature of the Sexes** Why Biology Matters expands current philosophical debate on sex and gender and is essential reading for curious students and academics alike

**Women and Change in Cyprus** Maria Hadjipavlou, 2010-05-05 Following its entry into the EU in 2004 Cyprus has become a major migrant destination The influx of migrant workers has introduced a more complex ethnic dynamic into a country traditionally considered in light of its history of conflict between its Greek and Turkish ethnic nationals Maria Hadjipavlou argues that the focus on Cyprus national problem has long prevented Cypriot women to challenge Cyprus largely patriarchal and militaristic order to pursue women's rights and public visibility While many Cypriot women are now liberated from the home this is often due to female migrant domestic workers in effect reproducing patriarchal practices Hadjipavlou here examines the experiences of women from Greek Turkish Armenian Maronite and Latin communities and migrant domestic workers in the context of ethno national conflict ethnic divisions nationalism and militarism and argues for a multi communal feminist movement in Cyprus to better promote women's rights

**The Delights of Wisdom Pertaining to Conjugal Love** Emanuel Swedenborg, 1856

**Zofloya** Charlotte Dacre, 1997-06-10 The protagonist of Charlotte Dacre's best known novel *Zofloya* or the Moor 1806 is unique in women's Gothic and Romantic literature and has more in common with the heroines of Sade or M G Lewis than with those of Ann Radcliffe Charlotte Smith or Jane Austen No heroine of Radcliffe or Austen could exult as Victoria does in this novel that there is certainly a pleasure in the infliction of prolonged torment The sexual desires and ambition of Dacre's protagonist Victoria drive her to seduce torture and murder Victoria is inspired to greater criminal and illicit acts by a seductive Lucifer disguised as a Moor before she too is plunged into an abyss by her demon lover The text's unusual evocations of the female body and feminine subject are of particular interest in the context of the history of sexuality and of the body after embarking on a series of violent crimes Victoria's body

actually begins to grow stronger and decidedly more masculine Among the documents included as appendices to this volume are a selection of Dacre s poetry and excerpts from Bienville s Nymphomania a medical treatise of the time aimed at a lay audience that focuses largely on the dangerous powers of women s imagination inspired by improper novels it is alleged that women may plunge into madness violence and death much as does the protagonist of Zofloya herself Collected Philosophical Essays John O'Loughlin,2022-03-16 As John O Loughlin s mature works became increasingly aphoristic and hence to his mind increasingly metaphysical with what he would regard as truth effectively eclipsing the fumblingly discursive nature of essays and indeed knowledge generally he totally abandoned both the essays as here and the dialogues published in a separate collective volume together with such early aphoristic material that at least had the merit so far as he was concerned of anchoring him in a more genuine approach to philosophy than could ever be found in works of a philosophical nature diluted by prose and hence by a discursive want of both logic and system unworthy in his estimation of true philosophy Nonetheless the reader will be aware that philosophical essays are still distinct from literary prose all the more so when as in this volume and various others the material has been centred the better to intimate of a sort of metaphysical aloofness from the pedament slaving world which customarily fights shy in the angularity of its untransvaluated nature of anything resembling no matter how metaphorically the curvilinear subjectivity of a dome particularly when intimating in true religious vein of transcendental possibility a possibility very much a part of the best of the essays included in this one volume presentation spanning the years 1977 84 of John O Loughlin s literary output A Centretruths Editorial
