Nature And Religious Imagination From Edwards To Bushnell:

Nature and Religious Imagination Conrad Cherry,1980 Horace Bushnell on Christian Character Development Lee J. Makowski,1999 Horace Bushnell on Christian Character Development examines the issue of character development in the speculative works and sermons of Horace Bushnell in relation to Orthodox Calvinist Unitarian and contemporary Catholic considerations of the same The author emphasizes the practical purpose of theological investigation to promote the universal cause of personal growth and development He systematically presents Bushnell s thought on that popular issue by way of a critical analysis of his language theory his rhetoric and his understanding of theology as a kind of persuasive art Bushnell proposed a theological alternative to the typical understanding of character development conversion espoused by Orthodox Calvinism Unitarianism and secular humanism His alternative incorporated the strengths of those historically influential bodies of thought and compensated for what he thought to be deficient in them In this book the reader is introduced to a theology that is remarkable for its insights into human interiority its soundness as a proposal for wholesome human living and its ecumenical spirit *The Theology of Jonathan Edwards* Conrad Cherry,1990-02-22 the Edwards of Cherry sits for a n intellectual portrait done with concepts as colors and with reason as the brush It is a picture faithfully and competently drawn New York Times Book Review 1967 this is a very good book It stresses the integral relationship of heart and mind intellect and will throughout Edwards an important book required reading for any student of Edwards Church History 1967

Nature Religion in America Catherine L. Albanese,1991-09-24 Charts the multiple histories of American nature religion and explores the moral and spiritual responses the encounter with nature has provoked throughout American history Traces the connections between movements and individuals Includes figures from popular culture such as the Hutchinson Family Singers and Davy Crockett as well as Thomas Jefferson Ralph Waldo Emerson Henry David Thoreau and John Muir The Philosophical Theology of Jonathan Edwards Sang Hyun Lee,2020-12-08 This book demonstrates the originality and coherence of Jonathan Edwards philosophical theology using his dynamic reconception of reality as the interpretive key The author argues that what underlies Edwards writings is a radical shift from the traditional Western metaphysics of substance and form to a new conception of the world as a network of dispositions active and abiding principles that possess reality apart from their manifestations in actions and events Edwards dispositional ontology enables him to restate the Augustinian Calvinist tradition in theology in a strikingly modern philosophical framework A prime example of Edwards innovative reconstruction in philosophical theology is his conception of God as both eternal actuality and a disposition to repeat that actuality within God and also through creation This view is a compelling alternative to the traditional Western doctrine of God as changeless actuality on the one hand and the recent process theologians excessive stress on God s involvement in change on the other Edwards achievement was that he saw dynamic movement as essential to God s own life without compromising the traditional Christian tenets of God s prior actuality and transcendence The author of this volume also

explicates the way in which Edwards dynamic reconception of reality informs his theories of imagination aesthetic perception the knowledge of God and the meaning of history This expanded edition includes a new preface and a new appendix titled Jonathan Edwards on Nature Law and Providence in Joseph Bellamy's New England Mark R. Valeri,1994 Bellamy was New England s consummate theologian of evangelical Calvinism He conceived the New Divinity movement based on innovations on Edwards s teachings and from 1750 to 1775 enjoyed renown as a popular preacher controversialist leader of church affairs in New England and influential teacher of other pastors Set in the context of an emergent market economy the war against France and the politics of rebellion Bellamy s story illuminates the relationship between religion and public issues in colonial New England and shows how Calvinism spoke to the concerns of ordinary New Englanders during momentous transformations in America s religious social and political life *Princeton Seminary in American Religion and Culture* James H. Moorhead,2012-08-31 The story of Princeton Theological Seminary the Presbyterian Church s first seminary in America begins in 1812 shortly after the United States had entered into its second war against Great Britain Princeton went on to become a model of American theological education setting the standard for subsequent seminaries and other religious higher education institutions Princeton s story is uniquely intertwined with American religious and cultural history the history of theological education the Presbyterian church and conceptions of ministry in general Thus this volume will interest not only those with links to Princeton but also historians of religion Presbyterians leaders within seminaries and Christian colleges and all who are interested in the history of Christian thought in America **Off the Menu** Rita Nakashima Brock,2007-01-01 Asian American Christianity is one of the fastest growing forms of American Christianity and it has already proven to be one of the richest and most innovative movements in North American religion With a deep understanding of their roots in classic Christianity as well as the diversity of Asian culture these theological voices have contributed some of the freshest and most provocative work of recent decades This volume brings together women who are searching for authentic Christian dialogue in a world of hybridity and changing context and it represents one of the most significant areas of growth and vitality in contemporary Christianity **The Culture of Calamity** Kevin Rozario,2007-08-15 Turn on the news and it looks as if we live in a time and place unusually consumed by the specter of disaster The events of 9 11 and the promise of future attacks Hurricane Katrina and the destruction of New Orleans and the inevitable consequences of environmental devastation all contribute to an atmosphere of imminent doom But reading an account of the San Francisco earthquake of 1906 with its vivid evocation of buildings crumbling as one might crush a biscuit we see that calamities whether natural or man made have long had an impact on the American consciousness Uncovering the history of Americans responses to disaster from their colonial past up to the present Kevin Rozario reveals the vital role that calamity and our abiding fascination with it has played in the development of this nation Beginning with the Puritan view of disaster as God s instrument of correction Rozario explores how catastrophic events frequently inspired positive reactions He argues that they

have shaped American life by providing an opportunity to take stock of our values and social institutions Destruction leads naturally to rebuilding and here we learn that disasters have been a boon to capitalism and paradoxically indispensable to the construction of dominant American ideas of progress As Rozario turns to the present he finds that the impulse to respond creatively to disasters is mitigated by a mania for security Terror alerts and duct tape represent the cynical politician s attitude about 9 11 but Rozario focuses on how the attacks registered in the popular imagination how responses to genuine calamity were mediated by the hyperreal thrills of movies how apocalyptic literature like the best selling Left Behind series recycles Puritan religious outlooks while adopting Hollywood s style and how the convergence of these two ways of imagining disaster points to a new postmodern culture of calamity The Culture of Calamity will stand as the definitive diagnosis of the peculiarly American addiction to the spectacle of destruction

The Universalist Movement in America, 1770-1880

Ann Lee Bressler,2001-04-19 In this volume Ann Lee Bressler offers the first cultural history of American Universalism and its central teaching the idea that an all good and all powerful God saves all souls Although Universalists have commonly been lumped together with Unitarians as liberal religionists in its origins their movement was in fact quite different from that of the better known religious liberals Unlike Unitarians such as the renowned William Ellery Channing who stressed the obligation of the individual under divine moral sanctions most early American Universalists looked to the omnipotent will of God to redeem all of creation While Channing was socially and intellectually descended from the opponents of Jonathan Edwards Hosea Ballou the foremost theologian of the Universalist movement appropriated Edwards s legacy by emphasizing the power of God s love in the face of human sinfulness and apparent intransigence Espousing what they saw as a fervent but reasonable piety many early Universalists saw their movement as a form of improved Calvinism The story of Universalism from the mid nineteenth century on however was largely one of unsuccessful efforts to maintain this early synthesis of Calvinist and Enlightenment ideals Eventually Bressler argues Universalists were swept up in the tide of American religious individualism and moralism in the late nineteenth century they increasingly extolled moral responsibility and the cultivation of the self By the time of the first Universalist centennial celebration in 1870 the ideals of the early movement were all but moribund Bressler s study illuminates such issues as the relationship between faith and reason in a young fast growing and deeply uncertain country and the fate of the Calvinist heritage in American religious history

Making Nature Sacred

John Gatta,2004-10-14 This book argues that the religious import of American environmental literature has yet to be fully recognized or understood Making Nature Sacred explores how the quest for natural revelation has been pursued through successive phases of American literary and intellectual history

The Spirit of the Appalachian Trail

Susan Power Bratton,2012-05-30 Want to know what wilderness means to people who live it for over two thousand miles Then read this extremely interesting informative intelligent and thoughtful book Roger S Gottlieb author of Engaging Voices Tales of Morality and Meaning in an Age of Global Warming There is no doubt that Bratton s book will be of value to students and

scholars of leisure studies recreation and religion Those who are familiar with the Appalachian Trail sense intuitively that a journey along its length kindles spiritual awakening this book provides the hard data to prove it s true David Brill author of *As Far as the Eye Can See Reflections of an Appalachian Trail Hiker* The Appalachian Trail covers 2 180 miles passing through fourteen states from Georgia to Maine Each year an estimated 2 3 million people visit the trail and almost two thousand attempt a thru hike walking the entire distance of the path For many the journey transcends a mere walk in the woods and becomes a modern day pilgrimage In *The Spirit of the Appalachian Trail Community Environment and Belief* Susan Power Bratton addresses the spiritual dimensions of hiking the Appalachian Trail AT Hikers often comment on how their experience as thru hikers changes them spiritually forever but this is the first study to evaluate these religious or quasireligious claims critically Rather than ask if wilderness and outdoor recreation have benefits for the soul this volume investigates specifically how long distance walking might enhance both body and mind Most who are familiar with the AT sense intuitively that a trek along its length kindles spiritual awakening Using both a quantitative and qualitative approach this book provides the hard data to support this notion Bratton bases her work on five sources an exhaustive survey of long distance AT hikers published trail diaries and memoirs hikers own logs and postings her own personal observations from many years on the trail and conversations with numerous members of the AT community including the trail angels residents of small towns along the path who attend to hikers need for food shelter or medical attention The abundant photographs reinforce the text and enable visualization of the cultural and natural context This volume is fully indexed with extensive reference and notes sections and detailed appendixes Written in an engaging and accessible style *The Spirit of the Appalachian Trail* presents a full picture of the spirituality of the AT Susan Power Bratton is professor of environmental studies She is the author of *Six Billion and More Human Population Regulation and Christian Ethics Environmental Values in Christian Art and Christianity Wilderness and Wildlife The Original Desert Solitaire* [The Scandal of the Evangelical Mind](#) Mark A. Noll, 2022-03-15 Winner of the Christianity Today Book of the Year Award 1995 The scandal of the evangelical mind is that there is not much of an evangelical mind So begins this award winning intellectual history and critique of the evangelical movement by one of evangelicalism s most respected historians Unsparing in his indictment Mark Noll asks why the largest single group of religious Americans who enjoy increasing wealth status and political influence have contributed so little to rigorous intellectual scholarship While nourishing believers in the simple truths of the gospel why have so many evangelicals failed to sustain a serious intellectual life and abandoned the universities the arts and other realms of high culture Over twenty five years since its original publication *The Scandal of the Evangelical Mind* has turned out to be prescient and perennially relevant In a new preface Noll lays out his ongoing personal frustrations with this situation and in a new afterword he assesses the state of the scandal showing how white evangelicals embrace of Trumpism their deepening distrust of science and their frequent forays into conspiratorial thinking have coexisted with surprisingly robust scholarship

from many with strong evangelical connections The Savage Side B. Jill Carroll, 2001 In this book B Jill Carroll uses the nature writing of Annie Dillard and the philosophical categories of Emmanuel Levinas to critique the models of God that drive contemporary political theologies especially feminist and liberation theologies These political theologies ignore the amoral and often harsh aspects of our existence in the natural world even though they often align God with the cosmos Political theologies excise from their models of God all notions of violence indifference to social justice or general amorality in favor of models that support and advance specific social political and economic ideologies Such domestication of God does not do justice to the hard facts of our existence in the natural world nor does it fully plumb the depths of using nature to metaphorize God Furthermore Carroll argues that current political models of God do not survive the most important critiques of religion in the modern era namely those leveled by Feuerbach Freud and Nietzsche Instead the God of the oppressed stands tall among any number of gods that exist primarily as projections of our best selves illusions rooted in wish fulfillment and attempts to further our own personal goals by claiming the universe is on our side The Savage Side offers us a glimpse of a natural theology uninterested in apologetics but thoroughly obsessed with using the natural world as a springboard for describing God The God that emerges is wildly beautiful terrifyingly indifferent to political or moral ideology the consummate Other and the ultimate ground of our being This book demands to be read by anyone interested in the relationship between religion and politics especially those who have given themselves to the cause of social justice in the name of God Readers will be challenged to let go of comfortable but outdated notions of deity despite their convenience for the advancement of certain social and political goals like gay and lesbian rights women s rights or third world liberation Indeed the claim that God is on our side emerges as the most problematic claim of contemporary constructive theology Biodiversity Conservation Ethics in Major Religions H. S. A. Yahya, 2010-10-22 Covering three broader issues biodiversity conservation religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology The Open Secret Alister E. McGrath, 2011-09-23 Natural theology in the view of many is in crisis In this long awaited book Alister McGrath sets out a new vision for natural theology re establishing its legitimacy and utility A timely and innovative resource on natural theology the exploration of knowledge of God as it is observed through nature Written by internationally regarded theologian and author of numerous bestselling books Alister McGrath Develops an intellectually rigorous vision of natural theology as a point of convergence between the Christian faith the arts and literature and the natural sciences opening up important possibilities for dialogue and cross fertilization Treats natural theology as a cultural phenomenon broader than Christianity itself yet always possessing a

distinctively Christian embodiment Explores topics including beauty goodness truth and the theological imagination how investigating nature gives rise to both theological and scientific theories the idea of a distinctively Christian approach to nature and how natural theology can function as a bridge between Christianity and other faiths **Three Golden Ages** Alf J. Mapp,1998-11-13 In this intriguing book best selling author Alf Mapp Jr explores three periods in Western history that exploded with creativity Elizabethan England Renaissance Florence and America s founding What enabled these societies to make staggering jumps in scientific knowledge develop new political structures or create timeless works of art

Vacationland William Philpott,2013-08-30 Winner of the Western Writers of America 2014 Spur Award for Best Western Nonfiction Contemporary Mention the Colorado high country today and vacation imagery springs immediately to mind mountain scenery camping hiking skiing and world renowned resorts like Aspen and Vail But not so long ago the high country was isolated and little visited Vacationland tells the story of the region s dramatic transformation in the decades after World War II when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local state and federal actors built the infrastructure for high volume tourism ski mountains stocked trout streams motels resort villages and highway improvements that culminated in an entirely new corridor through the Rockies Interstate 70 Vacationland is more than just the tale of one tourist region It is a case study of how the consumerism of the postwar years rearranged landscapes and revolutionized American environmental attitudes Postwar tourists pioneered new ways of relating to nature forging surprisingly strong personal connections to their landscapes of leisure and in many cases reinventing their lifestyles and identities to make vacationland their permanent home They sparked not just a population boom in popular tourist destinations like Colorado but also a new kind of environmental politics as they demanded protection for the aesthetic and recreational qualities of place that promoters had sold them Those demands energized the American environmental movement but also gave it blind spots that still plague it today Peopled with colorful characters richly evocative of the Rocky Mountain landscape Vacationland forces us to consider how profoundly tourism changed Colorado and America and to grapple with both the potential and the problems of our familiar ways of relating to environment nature and place *God and the Natural World* Walter H. Conser,1993 In his revisionist evaluation Conser reveals the strategies by which a diverse group of influential Protestant theologians energetically reconciled pre Darwinian science with traditional Christian beliefs and in doing so shaped the antebellum discussion of science and religion 10 halftone illustrations A Companion to American Environmental History Douglas Cazaux Sackman,2010-02-12 A Companion to American Environmental History gatherstogether a comprehensive collection of over 30 essays that examinethe evolving and diverse field of American environmental history Provides a complete historiography of American environmentalhistory Brings the field up to date to reflect the latest trends andencourages new directions for the field Includes the work of path breaking environmental historians from the founders of the field to contributions frominnovative young scholars Takes stock of the

discipline through five topically themed parts with essays ranging from American Indian Environmental Relations to Cities and Suburbs

The Top Books of the Year Nature And Religious Imagination From Edwards To Bushnell The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the fascinating narratives that have charmed audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has gripped readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Nature And Religious Imagination From Edwards To Bushnell : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.

Nature And Religious Imagination From Edwards To Bushnell Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and

manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Nature And Religious Imagination From Edwards To Bushnell PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Nature And Religious Imagination From Edwards To Bushnell PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Nature And Religious Imagination From Edwards To Bushnell free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Nature And Religious Imagination From Edwards To Bushnell Books

1. Where can I buy Nature And Religious Imagination From Edwards To Bushnell books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores.
