Nature Contested Environmental History In Scotland And Northern England

Éamonn Ó Ciardha, Gabriela Vojvoda

Nature Contested Environmental History In Scotland And Northern England:

Nature Contested T. Christopher Smout, 2000 This work is about four centuries of conflict over some of the most valued landscapes in Europe combining social and cultural history with ecology and geography

Nature Contested T. C. Smout, 2019-08-07 This work deals with four centuries of conflict over some of the most valued landscapes in Europe Based on a series of lectures given by the author at Oxford University in 1999 it combines social and cultural history with ecology and geography

An Environmental History of the UK Defence Estate, 1945 to the Present Marianna Dudley, 2012-05-03 This book brings to attention the history of places that have traditionally remained under the radar in discussions of war and the environment through site based studies of five training areas in southwest England and Wales Salisbury Plain Lulworth Dartmoor Sennybridge and Castlemartin At these sites the big events of the twentieth century are written into landscapes that absorb their impact and reflect change in intriguing ways Here however environment is more than a canvas on which historical forces play out it has an agency of its own as the depiction of the surprising nature and robust habitats of the training areas recognises *An Environmental History of the UK Defence Estate 1945 to the Present* critically examines the gradual greening of the MoD as it developed policies of military environmentalism It includes the histories of the ghost villages created by forced evictions and charts the rise and fall of anti military protest movements It depicts heated confrontations mass trespasses and demands for public access alongside conservation work and training activities situating the human histories of these sites within their environmental history and taking the reader behind the barbed wire in the first study of its kind

Exploring Environmental History T. C Smout, 2011-08-16 This volume brings together the best of T C Smout's recent articles and contributions to books and journals on the topic of environmental history

An Environmental History of Twentieth-Century Britain John Sheail, 2017-03-14 Environmental history the history of the relationship between people and the natural world is a dynamic and increasingly important field In *An Environmental History of Twentieth Century Britain* John Sheail breaks new ground in illustrating how some of the most pressing concerns came to be recognised and a response made Much use is made of archival sources in tracing a number of key issues including Management of change by central and local government The manner in which natural processes were incorporated in projects to protect personal and public health and ultimately environmental health New beginnings in forestry The emergence of a third force alongside farming and forestry in the countryside Management of a transport revolution and mitigation of environmental hazards Such instances of policy making are reviewed within the wider context of a growing awareness both on the part of government and business of the role of environmental issues in the creation of wealth and social well being for us all *An Environmental History of Twentieth Century Britain* is essential reading for all those concerned with these issues

Governing the Environment in the Early Modern World Sara Miglietti, John Morgan, 2017-03-27 Throughout the early modern period scientific debate and governmental action became increasingly preoccupied with the

environment generating discussion across Europe and the wider world as to how to improve land and climate for human benefit This discourse eventually promoted the reconsideration of long held beliefs about the role of climate in upholding the social order driving economies and affecting public health *Governing the Environment in the Early Modern World* explores the relationship between cultural perceptions of the environment and practical attempts at environmental regulation and change between 1500 and 1800 Taking a cultural and intellectual approach to early modern environmental governance this edited collection combines an interpretative perspective with new insights into a period largely unfamiliar to environmental historians Using a rich and multifaceted narrative this book offers an understanding as to how efforts to enhance productive aspects of the environment were both led by and contributed to new conceptualisations of the role of nature in human society This book offers a cultural and intellectual approach to early modern environmental history and will be of special interest to environmental cultural and intellectual historians as well as anyone with an interest in the culture and politics of environmental governance

England's Northern Frontier Jackson W. Armstrong, 2020-11-12 Explains the history of England's northern borderlands in the fifteenth century within a broader social political and European context *A History of the British Isles* Jeremy Black, 2017-03-04 A core introductory textbook that provides students with a concise overview of the full sweep of English Irish Scottish and Welsh history from pre Roman times right through to the present day Jeremy Black offers a balanced and absorbing account of a group of islands their peoples their extraordinary shared past and their remarkable impact on the rest of the world This is an ideal set text for dedicated modules on British history or a supplementary text for broader modules on European history which may be offered at all levels of an undergraduate history or European studies degree In addition it is a crucial resource for students who may be studying the history of Britain for the first time as part of a taught postgraduate degree in British or European history New to this Edition Revised and updated throughout in light of the latest research Provides coverage of recent events Pays greater attention to social developments

A Dictionary of Environmental History Ian Whyte, 2013-05-21 Increasing awareness of the extent and cause of environmental problems has fuelled the emergence of a new and timely discipline environmental history An exciting blend of geography history archaeology anthropology landscape environment and science it seeks to reveal how human activity has affected the environment in the past and how we in turn have been affected by that environment How did people use and transform their environment What problems of pollution and resource depletion occurred What has been the impact of industrialisation and urbanisation How have people's perceptions of nature and the environment changed over time Environmental historians are revealing how and why our environment changed in the past they are providing key insights into the mechanisms that influence environmental change today and are helping to make informed decisions on crucial environmental concerns such as deforestation desertification pollution global warming and climate change Professor Whyte's *A Dictionary of Environmental History* provides in a single volume a comprehensive reference work covering the past 12 000

years of the Earth's environmental history. An introduction to the discipline is followed by almost 1 000 entries covering key terminology, events, places, dates, topics, as well as the major personalities in the history of the discipline. Entries range from shorter factual accounts to substantial mini-essays on major topics and issues. Fully cross-referenced and with an extensive bibliography, this pioneering work provides an authoritative yet accessible resource that will form essential reading for academics, practitioners and students of environmental history and related disciplines.

Natural Communion Gabriel Ricci, 2019-06-03. The academic treatment of the environment and nature since the 1980s has been formalized in sub-disciplines like environmental history, environmental philosophy, ecocriticism and eco-spirituality. Within these disciplines the concept of nature has been variously employed to reorient humanity to a holistic moral standard. In each case there is general consensus that inquiry ought to turn on moral considerations of the interaction of humans and the environment with implied admonitions to live sustainably. Lending credence to the Earth as a superorganism in its own right, these modern ecological expressions can be traced to Rachel Carson's revelations in *Silent Spring*. However, they have a long pre-history which appears in monistic philosophy, the spirit of Deism in both Romanticism and the Enlightenment, and in political expressions of the idea of Nature's God designed to promote a secular vision of the state and to overturn predatory religious rivalries. With this literary momentum, *Natural Communion*, volume 40 of *Religion and Public Life*, gathers interdisciplinary essays which reconfigure humanity within an ecotheological anthropology and which treat the idea of the sacred from the perspective of an Earth-centered spirituality, thus redefining humanity's response to ecological challenges and initiating a new status within a more expansive cosmology complete with a naturalized conception of Divine Reality.

Invasive and Introduced Plants and Animals Ian D. Rotherham, Robert A. Lambert, 2012-12-06. There have been many well-publicized cases of invasive species of plants and animals, often introduced unintentionally but sometimes on purpose, causing widespread ecological havoc. Examples of such alien invasions include pernicious weeds such as Japanese knotweed, an introduced garden ornamental which can grow through concrete, the water hyacinth which has choked tropical waterways, and many introduced animals which have out-competed and displaced local fauna. This book addresses the broader context of invasive and exotic species in terms of the perceived threats and environmental concerns which surround alien species and ecological invasions. As a result of unprecedented scales of environmental change combined with rapid globalisation, the mixing of cultures and diversity, and fears over biosecurity and bioterrorism, the known impacts of particular invasions have been catastrophic. However, as several chapters show, reactions to some exotic species and the justifications for interventions in certain situations, including biological control by introduced natural enemies, rest uncomfortably with social reactions to ethnic cleansing and persecution perpetrated across the globe. The role of democracy in deciding and determining environmental policy is another emerging issue. In an increasingly multicultural society, this raises huge questions of ethics and choice. At the same time, in order to redress major ecological losses, the science of reintroduction of native species has also come to the fore.

and is widely accepted by many in nature conservation However with questions of where and when and with what species or even species analogues reintroductions are acceptable the topic is hotly debated Again it is shown that many decisions are based on values and perceptions rather than objective science Including a wide range of case studies from around the world his book raises critical issues to stimulate a much wider debate Death and Survival in Urban Britain Bill

Luckin,2015-05-19 The narratives of disease hygiene developments in medicine and the growth of urban environments are fundamental to the discipline of modern history Here the eminent urban historian Bill Luckin re introduces a body of work which published together for the first time along with new material and contextualizing notes marks the beginning of this important strand of historiography Luckin charts the spread of cholera fever and the everyday but frequently deadly infections that afflicted the inhabitants of London and its new manufacturing districts between the 1830s and the end of the nineteenth century A second part Pollution and the Ills of Urban Industrialism concentrates on the water and smoke problems and the ways in which they came to be perceived defined and finally brought under a degree of control Death and Survival in Urban Britain explores the layered and interacting narratives within the framework of the urban revolution that transformed British society between 1800 and 1950 **Pabay** Christopher Whatley,2019-09-18 An island history almost

without comparison one of the finest Highland books of the 21st century from the renowned Scottish historian West Highland Free Press The tiny diamond shaped island of Pabay lies in Skye s Inner Sound just two and a half miles from the bustling village of Broadford One of five Hebridean islands of that name it derives from the Norse papa ey meaning island of the priest Many visitors since the first holy men built their chapel there have felt that Pabay is a deeply spiritual place and one of wonder These include the great 19th century geologists Hugh Miller and Archibald Geikie for whom the island s rocks and fossil laden shales revealed much about the nature of Creation itself Len and Margaret Whatley moved to Pabay from the Midlands and lived there from 1950 until 1970 Leaving a landlocked life in Birmingham for the emptiness of an uninhabited island was a brave and challenging move for which nothing could have prepared them Christopher Whatley their nephew was a regular visitor to Pabay whilst they lived there In this book based on archival research oral interviews memory and personal experience he explores the history of this tiny island jewel and the people for whom it has been home to create a vivid picture of the trials tribulations and joys of island life If the island itself is a diamond this work is a sparkling gem The Press and Journal Beautifully written and presents a richly detailed and fascinating historical narrative It s as much a testimony to how people have shaped the island and how the island has shaped them Dundee Courier *The Oxford History*

of Historical Writing Axel Schneider,Daniel Woolf,2011-05-05 The fifth volume of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally since 1945 Divided into two parts part one selects and surveys theoretical and interdisciplinary approaches to history and part two examines select national and regional historiographies throughout the world It aims at once to provide an authoritative survey of the field and to provoke cross

cultural comparisons This is chronologically the last of five volumes in a series that explores representations of the past across the globe from the beginning of writing to the present day **The Oxford History of Historical Writing** Daniel R. Woolf, Andrew Feldherr, Grant Hardy, 2011-05-05 A chronological scholarly survey of the history of historical writing in five volumes Each volume covers a particular period of time from the beginning of writing to the present day and from all over the world

The Sunlit Summit Robin Lloyd-Jones, 2013-08-15 William Hutchison Murray 1913 1996 was one of Scotland's most distinguished climbers in the years before and after the Second World War As a prisoner of war in Italy he wrote his first classic book *Mountaineering in Scotland* on rough toilet paper which was confiscated and destroyed by the Gestapo The rewritten version was published in 1947 and followed by the now equally famous *Undiscovered Scotland* In 1951 he was deputy leader to Eric Shipton on the Everest Reconnaissance Expedition which discovered the eventual successful route which would be climbed by Hilary and Tensing From the 1960s onwards he was heavily involved in conservation campaigns and his book *Highland Landscape* commissioned by the National Trust for Scotland identified areas of outstanding beauty that should be protected It proved to be extremely influential In 1966 he was awarded an OBE as he pursued a life of service as is well illustrated by the various posts he held Commissioner for the Countryside Commission for Scotland 1968 1980 President of the Scottish Mountaineering Club 1962 1964 and of the Ramblers Association Scotland 1966 82 Chairman of Scottish Countryside Activities Council 1967 82 Vice President of the Alpine Club 1971 72 President of Mountaineering Council of Scotland 1972 75 He was a prolific author but a proper understanding of his life and work requires that we appreciate that his driving force was a quest to achieve inner purification that would lead him to oneness with Truth and Beauty For many years the climber author and teacher Robin Lloyd Jones above has been researching the life and work of Bill Murray and working steadily on this biography It is not only a triumph of fine writing and interest but a worthy accolade for this great man

Lairds, Land and Sustainability Jayne Glass, 2013-07-22 Scotland is at the heart of modern sustainable upland management This collection of cutting edge studies is a first to press synthesis of studies carried out by the Centre for Mountain Studies at Perth College which will be both enlightening and relevant

The Dawn of Green Harriet Ritvo, 2009-09-16 Located in the heart of England's Lake District the placid waters of Thirlmere seem to be the embodiment of pastoral beauty But under their calm surface lurks the legacy of a nineteenth century conflict that pitted industrial progress against natural conservation and helped launch the environmental movement as we know it Purchased by the city of Manchester in the 1870s Thirlmere was dammed and converted into a reservoir its water piped one hundred miles south to the burgeoning industrial city and its workforce This feat of civil engineering and of natural resource diversion inspired one of the first environmental struggles of modern times The Dawn of Green re creates the battle for Thirlmere and the clashes between conservationists who wished to preserve the lake and developers eager to supply the needs of a growing urban population Bringing to vivid life the colorful and strong minded characters who populated both sides of the debate

noted historian Harriet Ritvo revisits notions of the natural promulgated by romantic poets recreationists resource managers and industrial developers to establish Thirlmere as the template for subsequent and continuing environmental struggles

Politics of Identity in Post-Conflict States Éamonn Ó Ciardha, Gabriela Vojvoda, 2015-12-14 Ireland and the Balkans have come to represent divided and re united communities They both provide effective microcosms of national ethnic political military religious ideological and cultural conflicts in their respective regions and as a result they demonstrate real and imaginary divisions This book will specifically focus on the history politics and literature of Bosnia Herzegovina and Northern Ireland while making comparative reference to some of Europe s other disputed and divided regions Using case studies such as Kosovo and Serbia Lithuania Germany Poland Russia and Belarus Greece and Macedonia it examines space place and border discourse the topography of war and violence post war settlement and reconciliation and the location and negotiation of national ethnic religious political and cultural identities The book will be of particular interest to scholars and students of cultural studies history politics Irish studies Slavonic studies area studies and literary studies

What is Environmental History? Johnson Donald Hughes, 2006-12-08 What is environmental history It is a kind of history that seeks understanding of human beings as they have lived worked and thought in relationship to the rest of nature through the changes brought by time In this seminal student textbook J Donald Hughes provides a masterful overview of the thinkers topics and perspectives that have come to constitute the exciting discipline that is environmental history He does so on a global scale drawing together disparate trends from a rich variety of countries into a unified whole illuminating trends and key themes in the process Those already familiar with the discipline will find themselves invited to think about the subject in a new way Students and scholars new to environmental history will find the book both an indispensable guide and a rich source of inspiration for future work

Nature Contested Environmental History In Scotland And Northern England: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the captivating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Nature Contested Environmental History In Scotland And Northern England : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These popular novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
