the Divine Nature of God Charles Edward Price, 2011-09-27 About the Book Human Nature and the Devine Nature of God is a new dispensation of the scripture revealing new things about the Old Testament and The New Testament A book of Remembrance It was prophesied by Malachi 3 16 18 that a book of remembrance would be written that would allow you to discern between righteousness and wickness between one who serve God and one who does not serve him Think you know right from wrong think again The promise of Christ Christ said These things have I spoken unto you in proverbs but the time cometh when I shall no more speak unto you in proverbs but I shall shew you plainly of the Father John 16 25 Christ spoke of the Father to the Jews saying Yet ye have not known him and if I should say I know him not I shall be a lie like unto you But I know him and keep his saying John 8 55 The time have come that all must know the Father and this is the book that will plainly identify the Father This promise was confirmed through a prophesy to Jeremiah 31 34 saying They shall teach no more every man his brother saying know the Lord for they shall all know me from the least of them unto the greatest of them Find out why the Ten Commandments was written on stone Learn God s definitdion for Love it will suprise and delight you and much more Christ came to do two things and that was to fulfill the law and to fulfill all righteousness Human nature and the devine nature of God will tell you how this was accomplished Christ changed the law and gave us a new law human nature and the divine nature of God will identify the change in the law and the new law and will identify Christ s authority to change law and give new law A bout the Author I am a layman not trained to conform to any specific church doctrine The

churches are divided in their concept of Christ and Christianity I believe that Christ is one and his doctrine is one I have denied myself the influence and contamination of their doctrines in search of the true undefiled doctrine of Christ I do not depend upon academic excellence or human intelligence to discern the scripture only the grace of God The things contained in this book is not the product of human inventions but by the spirit as it was revealed to me Theology is the study of God and his doctrine I do not study God I do not have the intellectual capacity to study him I depend upon him to reveal himself to me A person may question my ability to reach God but they can not question his ability to reach me and I establish my relationship with him based upon this principle I look at the world and I try to understand the reason for the condition that we face we have the have and have nots the oppressed and the oppressor the compassionate and the apathetic and why mankind is the most vicious and feared beast on earth Every nation on earth have an army to protect mankind from himself and yet the scripture state that man was created in the image of God how can this be if God was the embodiment of death nothing could live I have listen to the local national and world leaders educators ministers and philosophers concerning these things and their logic and reasoning all come down to complexity and confusion I decided to seek the answers from God himself to find out what he had to say about the situation and the solution to the problem and Human Nature and the Divine Nature of God is the answer I received see what you think *The Miracle of Man* Jim Howard,2017-01-31 What Is a Man Biologically we are animals homo sapiens But men are different born with consciousness reason free will notions of morality and other characteristics of what we call human nature Why are we different Were we created by God or are we just accidents of nature Are you a child of the King or just a child of King Kong This is a book of apologetics for laypeople It looks at arguments for the existence of God and especially at those arguments that can be drawn from human nature It argues in plain language with illustrations and humor that we cannot explain human nature without God that men are miracles

God, Human Nature and Education for Peace Karl Ernst Nipkow,2018-01-18 This title was first published in 2003 What prevents the human species from finally learning the lessons of social justice and global peace in an unreconciled world Are Christians better off Presenting new challenges to moral and religious education this book clarifies the true image of the biblical God around the topics of justice and reconciliation Rejuvenating interpretations of the most outstanding traditions of the Old and New Testament Karl Ernst Nipkow's approach of elementarization well known in German speaking countries is introduced for the first time in the English language Theological perspectives are confronted with data from evolutionary ethics and social psychology through practice based examples of the roots of aggression violence xenophobia and ethnocentrism The analysis ends with peace and spirituality in the light of different faiths This book presents a striking blend of theology education and the social sciences to explore central issues in moral and religious education **Nature, God and Humanity** Richard L. Fern,2002-04-04 This study interweaves philosophical scientific religious and cultural factors to reveal why non human animals and nature are objects of moral concern and how our well being depends on harmony with nature as

it was created This argument is unique in its comprehensiveness its overt reliance on traditional forms of religious faith and its account of how those with conflicting ethics can work together to end the current foolish abuse of nature Nature, God and Humanity Richard L. Fern,2002-04-04 Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and arguments Richard L Fern frames a philosophical ethics of nature assesses it scientifically finds support for it in traditional biblical theism and situates it culturally Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness this book aims not to compel the adoption of any particular ethic but rather illumine the contribution diverse forms of inquiry make to an ethics of nature How does philosophy clarify moral conviction What does science tell us about nature Why does religious faith matter Rejecting the illusion of a single rationally compelling ethics Fern answers these questions in a way that fosters both agreement and disagreement allowing those holding conflicting ethics of nature to work together for the common good **Man and Nature in God** Lloyd E. Sandelands,2017-12-02 Contemporary American life is tinged with dissatisfaction Increased wealth and comfort and technological advances have not made individuals happier or society more companionable Today Americans marry later or not at all and they fail at marriage as often as they succeed Man and Nature in God is a story of contemporary American decadence a grim tale of our flagging relation to nature a tale confirmed at the center of our sexual lives Sandelands grounds his critique in a modern philosophical error We have conflated a particular metaphysical outlook the subjective standpoint of science with our relationship as humans to nature We fail to see that however much we may learn about nature by treating it as object to our subject we cannot in this way learn what we most want and most need to know about nature and about ourselves Answers to such questions as How are we related to nature and How are we to think and act truly in nature continue to elude us Cast as ideology by the isms of humanism naturalism and postmodernism today s subjective standpoint has turned the question of truth into one question of politics The unhappy result has been and continues to be a profound and deadly misunderstanding of nature as well as man epitomized in contemporary American culture today Taking this as his starting point Sandelands suggests how we can save ourselves from our mortifying philosophical error thereby claiming our true relation to nature and reinvigorating our sexual lives He identifies the need for a natural philosophy that takes God to be the starting point of self understanding Although the book is about philosophy it is not only for the academic philosopher Although it is about theology it is not only for the theologian or student of religion And although the book takes modern biological and social sciences to task it is not only for biological and social scientists Instead Man and Nature in God is for everyone concerned about the disma Biotechnology, Human Nature, and Christian Ethics Gerald McKenny,2018-01-19 In public debates over biotechnology theologians philosophers and political theorists have proposed that biotechnology could have significant implications for human nature They argue that ethical evaluations of biotechnologies that might affect human nature must take these implications into

account In this book Gerald McKenny examines these important yet controversial arguments which have in turn been criticized by many moral philosophers and professional bioethicists He argues that Christian ethics is in principle committed to some version of the claim that human nature has normative status in relation to biotechnology Showing how both criticisms and defences of this claim have often been facile he identifies develops and critically evaluates three versions of the claim and contributes a fourth distinctively Christian version to the debate Focusing on Christian ethics in conversation with secular ethics McKenny s book is the first thorough analysis of a controversial contemporary issue
