Infinite Nature R. Bruce Hull, 2006-05 Review In this work R Bruce Hull argues that environmentalism will never achieve its goals unless it sheds its fundamentalist logic The movement is too bound up in polarizing ideologies that pit humans against nature conservation against development and government regulation against economic growth Only when we acknowledge the infinite perspectives on how people should relate to nature will we forge solutions that are respectful to both humanity and the environment Infinite Nature opens doors so that nature can be seen from the scientific

understandings proffered by anthropology evolution and ecology to the promise of environmental responsibility offered by technology and economics to the designs of nature envisioned in philosophy art law and religion Along the way Hull helps us find the common ground created out of many natures the place where sustainable and thriving communities are possible

BOOK JACKET *Women Writing Nature* Barbara Cook, 2007-12-14 Since *Silent Spring* was published in 1962 the number of texts about the natural world written by women has grown exponentially The essays in *Women Writing Nature* A Feminist View argue that women writing in the 20th century are utilizing the historical connection of women and the natural world in diverse ways For centuries women have been associated with nature but many feminists have sought to distance themselves from the natural world because of dominant cultural representations which reflect women as controlled by powerful natural forces and confined to domestic spaces However in the spirit of Rachel Carson some writers have begun to invoke nature for feminist purposes or have used nature as an agent of resistance This collection considers women's writings about the natural world in light of recent and current feminist and ecofeminist theory and finds a variety of approaches and perspectives both by the scholars and by the authors discussed culminating with the voices of two women activist and scientist Joan Maloof and Irish poet Rosemarie Rowley who both write about the natural world from a feminist perspective **A Vision of Nature**
