## **Nature Of Coyotes Voice Of The Wilderness:**

The Nature of Coyotes Wayne Grady, 1995-10-01      **Queer Entanglements** Damien W. Riggs, Shoshana Rosenberg, Heather Fraser, Nik Taylor, 2021-07-29 *Queer Entanglements* provides the first comprehensive account of the intersections of lesbian gay bisexual queer trans and non binary people's lives with the lives of animals Exploring diverse topics such as domestic violence grief following the loss of an animal veganism cruelty free makeup products Pride events and community activism the book offers a theoretical and empirical basis for understanding the contexts that bring together human and animal lives By using real world examples it provides a lively and engaging view of what it means to think about the connections between animal and human lives even when human experiences operate at the expense of animal wellbeing This critical intersectional and interdisciplinary perspective on human animal relations will be of interest to scholars and students in human animal studies psychology sociology social work and cultural and gender studies      *Fauna* Alissa York, 2011-07-26 Scotiabank Giller Prize nominated author Alissa York creates a contemporary human fable that taps into the great tenderness and drama at the heart of the animal world The wide ravine that bisects the city is home to countless species of urban wildlife including human waifs and strays When Edal Jones can't cope with the casual cruelty she encounters in her job as a federal wildlife officer she finds herself drawn to a beacon of solace nestled in the valley under the unlikely banner of an auto wrecker's yard Guy Howell the handsome proprietor offers sanctuary to animals and people alike a half starved hawk and a brood of orphaned raccoon kits a young soldier whose spirit failed him during his first tour of duty a teenage runaway and her massive black dog Guy is well versed in the delicate workings of damaged beings and he might just stand a chance at mending Edal's heart But before love can bloom the little community must come to terms with a different breed of lost soul a young man whose brutal backwoods childhood is catching up with him causing him to persecute the creatures that call the valley home      **Nature Canada**, 1996      **Nature Trails** Dietrich Lange, 1927 Observation by author of birds animals plants and trees in Minnesota      **The Great Lakes** Wayne Grady, 2011 Annotation Five immense lakes lie at the heart of North America They comprise the world's largest freshwater system containing 95 percent of the continent's fresh water and one fifth of the planet's total supply The Great Lakes drainage basin is home to 40 million people and is the hub of industry and agriculture in North America Its rich mineral deposits and natural resources have attracted and sustained human and wildlife populations for more than ten thousand years The Great Lakes A Natural History is the most authoritative complete and accessible book to date about the biology and ecology of this vital ever changing lake system Written by one of Canada's best known science and nature writers Wayne Grady this essential resource features superb nature photography and numerous sidebars that focus on specific animal plant and invertebrate species Published in partnership with the David Suzuki Foundation      **The Voice of the Coyote** James Frank Dobie, 1961-01-01 In *The Voice of the Coyote* J Frank Dobie melds natural history with tales and lore in articulating the complex and often contentious

relationship between coyotes and humans Based on his own life experiences in Texas and twenty five years of research Dobie forges a sympathetic and nuanced picture of the coyote prefiguring later environmental and conservation movements He recognizes the impact of human action on the coyote while also examining the prominent role of the coyote in the myths and legends of the West **Wildlife Rehabilitation** National Wildlife Rehabilitators' Association (U.S.). Symposium,2006

Wild at Heart Alice Outwater,2019-04-02 Alice Outwater s infectiously readable Wild at Heart captures the essence of ecology Everything is connected and every connection leads to ourselves Alan Weisman author The World Without Us and Countdown A wonderful book Information rich to say the least and the indigenous human connections and portrait of the deep connectivity of nature are both strong elements Jim McClintock author of A Naturalist Goes Fishing Nature on the brink Maybe not With so much bad news in the world we forget how much environmental progress has been made In a narrative that reaches from Native American tribal practices to public health and commercial hunting Wild at Heart shows how western attitudes towards nature have changed dramatically in the last five hundred years The Chinook gave thanks for King Salmon s gifts The Puritans saw Nature as a frightening wilderness full of uncooked meat With the industrial revolution nature was despoiled and simultaneously celebrated as a source of the sublime With little forethought and great greed Americans killed the last passenger pigeon wiped out the old growth forests and dumped so much oil in the rivers that they burst into flame But in the span of a few decades our relationship with nature has evolved to a more sophisticated sense of interdependence that brings us full circle Across the US people are taking individual action planting native species and fighting for projects like dam removal and wolf restoration Cities are embracing nature too Humans can learn from the past and our choices today will determine whether nature survives Like the First Nations all nations must come to deep agreement that nature needs protection This compelling book reveals both how we got here and our own and nature s astonishing ability to mutually regenerate *San Geronio Wilderness Area* United States. Congress. House. Committee on Interior and Insular Affairs. Subcommittee on Public Lands,1966

**Green Voices** Richard D. Besel,Bernard K. Duffy,2016-02-25 The written works of nature s leading advocates from Charles Sumner and John Muir to Rachel Carson and President Jimmy Carter to name a few have been the subject of many texts but their speeches remain relatively unknown or unexamined Green Voices aims to redress this situation After all when it comes to the leaders heroes and activists of the environmental movement their speeches formed part of the fertile earth from which uniquely American environmental expectations assumptions and norms germinated and grew Despite having in common a definitively rhetorical focus the contributions in this book reflect a variety of methods and approaches Some concentrate on a single speaker and a single speech Others look at several speeches Some are historical in orientation while others are more theoretical In other words this collection examines the broad sweep of US environmental history from the perspective of our most famous and influential environmental figures This book is freely available in an open access edition thanks to Knowledge Unlatched an

initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7126> *San Gorgonio Wilderness Area* United States. Congress. House. Committee on Interior and Insular Affairs,1966 Canadian Books in Print. Author and Title Index ,1975 *Ecomasculinities* Rubén Cenamor,Stefan Brandt,2019-01-25 While there exist numerous studies on ecocriticism and ecofeminism much less has been written about ecomasculinities This volume contributes to filling this gap by examining models of fictional ecomasculinity in and through contemporary U S literature and cinema Our study examines ecomasculinities as practices of masculinity which are deeply conservationist and can embrace non masculine traits In this line of thought a main goal of the volume is to interrogate the potential of ecomasculinities to elicit in men a desire to become engage in other practices of masculinity that are counter hegemonic and have as main goal to achieve equality on different strata of society Bridging the gap between the Social Sciences and the Humanities the book interrogates intersections between ecomasculinities and masculinities beyond capitalism ecomasculinities and aging and ecomasculinities and queerness among others *Canadian Books in Print 2002* Marian Butler,2002-02 **Voice and Environmental Communication** Stephen Depoe,2014-07-10 Voice and Environmental Communication explores how people give voice to and listen to the voices of the environment This foundational book introduces the relationship between these two fundamental aspects of human existence and extends our knowledge of the role of voice in the study of environmental communication **Canadian Books in Print** Marian Butler,2000 Nature Wars Mark L. Winston,1999 A compelling book about ethics and choices Nature Wars shows us the difference between protecting ourselves from real pests and poisoning ourselves and the planet **States of Nature** Tina Loo,2011-11-01 Since the early days of the fur trade wildlife has been powerfully and inspiringly emblematic of Canada Yet the story of saving Canada s wildlife is largely unknown States of Nature is one of the first books to trace the development of Canadian wildlife conservation from its social political and historical roots While noting the influence of celebrity conservationists such as Jack Miner and Grey Owl Tina Loo emphasizes the impact of ordinary people on the evolution of wildlife management in Canada She also explores the elements leading up to the emergence of the modern environmental movement ranging from the reliance on and practical knowledge of wildlife demonstrated by rural people to the more aloof and scientific approach of state sponsored environmentalism Illustrated with evocative images of the Canadian wilderness of yesteryear and supported by historical case studies States of Nature will appeal to historians policy makers and wildlife managers as well as to general readers fascinated by the natural world and its champions Men, Masculinities, and Earth Paul M. Pulé,Martin Hultman,2021-08-03 This book considers issues of social and ecological significance through a masculinities lens Earth our home for aeons is reeling The atmosphere is heating up causing reefs to bleach fisheries to collapse regions to flood and dry

vast tracts to burn the polar ice caps to melt ancient glaciers to retreat biodiversity to decline exacerbated by the sixth great extinction and more Meanwhile social and economic disparities are widening Pandemics are cauterising glocal communities and altering our social mores Nationalism is feeding divisiveness and hate especially through men's violence Politically extreme individuals and groups are exalting freedom while scapegoating the marginalised Such are the symptoms of an emerging Anthropocene This anthology contends with these alarming trends pointing our attention towards their gendered origins Building on our monograph Ecological Masculinities Theoretical Foundations and Practical Guidance 2018 this collection of essays is framed as a dinner party conversation grouped into six discursive themes Their views reflect a growing community of practice whose combined efforts capture the most recent perspectives on masculine ecologisation Together they aim to help create a more caring world for all moving the ecological masculinities conversation forward as it becomes an established international and pluralised field of study
