Nature Of Deity 1927:

The Personalist Ralph Tyler Flewelling, 1929 **The Bodleian Quarterly Record** , 1926 **The Philosophical Review** Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1928 An international journal of general philosophy **Monthly Bulletin** St. Louis Public Library, 1929 Teachers bulletin vol 4 issued as part of v 23 no 9 **Dictionary of Twentieth-Century British Philosophers** Stuart Brown, Hugh Terence Bredin, 2005-08-01 No Marketing Blurb *Monthly Bulletin. New Series* St. Louis Public Library, 1929 [American Ecclesiastical Review](#) Herman Joseph Heuser, 1928 **Church Quarterly Review** , 1928 [International Journal of Ethics](#) , 1928 Includes section Book reviews *The Quest* , 1928 *The Transcendence of God* Edward Farley, 2017-06-28 In the varying perspectives of theological thought the contrasting ideas of transcendence and immanence must inevitably be looked at together To whatever extent they are held to be mutually compatible or mutually exclusive neither can be considered without at least some cognizance being taken of the other Nevertheless in the swinging of the pendulum from era to era first one and then the other theme receives the greater weight of attention Thus nineteenth century liberalism placed more emphasis on immanence whereas the twentieth century revolt against liberalism has concentrated on transcendence In this book the author studies the transcendent aspect of God as developed by five contemporary theologians Two of the men whose work Dr Farley examines Reinhold Niebuhr and Paul Tillich are thoroughly familiar The other three Karl Heim Charles Hartshorne and Henry Nelson Wieman have received less attention in recent studies The five represent widely divergent traditions but all of them agree in opposing immanentism Moreover they all deal with the tension between the philosophical and the Biblical affirmations of God s transcendence and attempt to show in their respective ways how these types of beyondness are related **Psychoanalytic Studies of the Work of Adam Smith** Sule Ozler, Paul Gabrinetti, 2017-07-14 Psychoanalytic Studies of the Work of Adam Smith blends the rich intellectual heritage of the hermeneutic tradition with the methods and concepts of psychoanalysis in order to examine the seminal works of Adam Smith This is the first book on Smith to analyse the works of the groundbreaking moral theorist and founding father of economics from a psychoanalytic perspective whilst also examining the human capacities and skills that are necessary to put Smith s ideas into practice Starting with a detailed discussion of the psychological difficulties that afflicted Smith zler and Gabrinetti examine the influence that Smith s life had on the ideas that are found in his major works The authors explore the sympathetic process in Smith s *The Theory of Moral Sentiments* TMS from an intersubjectivist perspective and use ideas from developmental psychology to argue that sympathy leads to morality This book contains a thorough analysis of the defences that are used to create Smith s moral system in the TMS and explores how Smith s ideas were precursors to concepts later developed by Freud The authors show that Smith s attitude to women was at best ambivalent and consider the reciprocal interaction between markets and morality from an evolutionary psychology perspective Covering an impressive range of topics this book will appeal to academics and

postgraduate students with an interest in psychoanalysis moral philosophy history of thought and the social sciences The book should also be of interest to more advanced undergraduate students *The Rise and Decline of Ancient Civilizations* Eka Avaliani,2025-07-02 This book concerns the formation of ancient civilizations in the Near East and the central Mediterranean world It examines five civilization models Model of Egyptian Civilization Model of Mesopotamian Civilization Model of Anatolian Civilization Model of Central Mediterranean Aegean Civilization Model of Eastern Mediterranean Culture Phoenicia Syria Palestine and the dynamics of their development Its theoretical part discusses the structure and analysis of civilizations stages of development of civilization the specifics of artistic thinking and touches on topics such as the phenomenon of cultural transformation in space and time The book is intended for readers who are interested in the development of ancient civilizations and the specifics of their artistic thinking In the process of systematizing and classifying these cultures civilizations we specifically highlight three parameters a geographical regional b ethnic and c the individual spiritual phenomenon of the culture In the course of our research it became evident that each model encompassed a specific historical geographical space and at various stages of development was tied to certain historical chronological periods

God, Freud and Religion Dianna T. Kenny,2015-03-05 Choice Essential Read Did God create man or did man create God In this book Dianna Kenny examines religious belief through a variety of perspectives psychoanalytic cognitive neuropsychological sociological historical and psychiatric to provide a coherent account of why people might believe in God She argues that psychoanalytic theory provides a fertile and creative approach to the study of religion that attempts to integrate religious belief with our innate human nature and developmental histories that have unfolded in the context of our socialization and cultural experiences Freud argued that religion is so compelling because it solves the problems of our existence It explains the origin of the universe offers solace and protection from evil and provides a blueprint about how we should live our lives with just rewards for the righteous and due punishments for sinners and transgressors Science on the other hand offers no such explanations about the universe or the meaning of our lives and no comfort for the unanswered longings of the human race Is religion a form of wish fulfilment a collective delusion to which we cling as we try to fathom our place and purpose in the drama of cosmology Can there be morality without faith Are science and religion radically incompatible What are the roots of fundamentalism and terror theology These are some of the questions addressed in *God Freud and Religion* a book that will be of interest to psychoanalysts psychologists and psychotherapists students of psychology psychoanalysis philosophy and theology and all those with an interest in religion and human behaviour Dianna Kenny is Professor of Psychology at the University of Sydney Australia She is the author of over 200 publications including six books **Freud and the Imaginative World** Harry Trosman,2013-05-13 The current resurgence of interest in the scientific origins of psychoanalysis has overshadowed the artistic and literary models to which Freud had recourse time and again in the development and presentation of his theories It is this neglected aesthetic wellspring of psychoanalysis to which

Harry Trosman calls attention in *Freud and the Imaginative World* Trosman enriches our understanding of psychoanalysis by demonstrating how Freud's cultural and humanistic commitments guided his pursuit of a science of mind Toward this end he undertakes a number of challenging tasks to situate Freud in the formative culture of his time to adumbrate the human concerns that informed his work in the natural sciences and to delineate the multiple modes of influence that fostered his creativity The second part of the book moves from the cultural sources of Freud's creativity to the psychoanalytic contribution to our understanding of art and literature Here Trosman focuses on the consumer of art and literature tracing psychoanalytic perspectives on aesthetic responsiveness from Freud to the present Trosman's critical review of the *da Vinci* and *Hamlet* literature illustrates the limitations as well as the explanatory potential of the two principal genres of applied psychoanalytic work and leads naturally to the reflective estimation of psychoanalysis and creativity that concludes the work Throughout Trosman is a well informed and engaging guide both to the imaginative Freud and to the abundant literature on psychoanalysis and the arts He documents Freud's continuing indebtedness to the literary models that nourished his theorizing and gave shape to his narrative clinical expositions even as he takes pains to show how psychoanalysis has in many ways outgrown Freud's own reductive explanations of aesthetic phenomena A skillfully crafted overview *Freud and the Imaginative World* is an exemplary introduction to a crucial aspect of the Freudian legacy

Postcolonial Resistance and Asian Theology Simon Shui-Man Kwan, 2013-11-07 Presenting a fundamental rethinking of Asian theology this book focuses on theological indigenization in Asia in light of the postcolonial theory of resistance advanced by Homi K Bhabha among others Two types of anti colonialist resistance within Asian theologies are identified and interrogated The first is nationalistic in kind operating from a theological language that is binaristic and oppositional The second is illustrated by that which was mounted by the three Chinese Christian thinkers whose indigenous theologies are analysed in this book as case studies This second kind postcolonial in its character is characterized by collaboration rather than antagonistic binarism In spite of much dissimilarity between these two kinds of resistance the book argues that they are similarly anti colonialist and both can be equally valid in resisting colonial forces Given that the binarism and antagonism imbedded in the Asian theological movement are historically contingent and that the sole reliance on this resistance has made the movement self ensnaring the book suggests that the Asian theological movement widen its choice of colonial resistant strategies Drawing attention to the otherwise subtle politics of the Asian theological indigenization discourse this book addresses the relationship between postcolonialism and Asia contextual theology and is of interest to students and scholars of Asian Religion and Philosophy

A Prophetic Voice--David Smith Cairns (1862-1946) Marlene Elizabeth Finlayson, 2018-12-07 This biography provides an exploration of the formative influences development and impact of the theology of David Smith Cairns Scottish minister academic and writer during the high point of British imperial expansion and at a time of social tension caused by industrialization It describes and evaluates his role in the Church's efforts to face major challenges relating to its

relationships to the different world religions its response to the First World War and its attitude to the scientific disciplines that called into question some of its longstanding perceptions and suppositions An eminent figure born into the United Presbyterian Church and rooted in the Church in Scotland Cairns operated ecumenically and internationally His apologetics challenged the prevailing assumptions of the day that science provided the only intellectually legitimate means of exploring the world and that scientific determinism ruled out the Christian conception of the world as governed by providence A major feature of his theology was the presentation of Christianity as a reasonable faith and throughout his life he maintained a particular concern for young people having endured his own crisis of faith when a student in Edinburgh He enjoyed a decades long involvement with the World Student Christian Federation based on a mutually enriching relationship with one of its leading figures the renowned American evangelist John Raleigh Mott God of the Living Robert Lawson Slater,1939
