Heather Conway, John Stannard

Nature Of Grief The Evolution And Psychology Of Reactions To Loss:

The Nature of Grief John Archer, 2003-09-02 The Nature of Grief is a provocative new study on the evolution of grief. Most literature on the topic regards grief either as a psychiatric disorder or illness to be cured. In contrast to this John Archer shows that grief is a natural reaction to losses of many sorts even to the death of a pet and he proves this by bringing together material from evolutionary psychology, ethology and experimental psychology. This innovative new work will be required reading for developmental and clinical psychologists and all those in the caring professions. [The Military Leadership Handbook](#) Bernd Horn, Robert W. Walker, 2008-09-29 In the simplest of terms leadership is about influencing people to achieve an objective that is important to the leader, the group and the organization. It is the human element leading, motivating and inspiring, particularly during times of crisis, chaos and complexity, when directives, policy statements and communiques have little effect on cold, exhausted and stressed followers. Strong leadership encourages subordinates to go beyond the obligation to obey and commit to the mission in a way that maximizes their potential. The Military Leadership Handbook is a concise and complete manual that identifies, describes and explains all those concepts, components and ideas that deal with or directly relate to military leadership. The book is a comprehensive compendium that focuses on, among other subjects, cohesion, command, cultural intelligence, discipline, fear and trust. This applied manual provides invaluable assistance to anyone who wishes to acquire a better understanding of both the theory and application of military leadership. [Oxford Companion to Emotion and the Affective Sciences](#) David Sander, Klaus Scherer, 2014-02-06 Few areas have witnessed the type of growth we have seen in the affective sciences in the past decades. Across psychology, philosophy, economics and neuroscience there has been an explosion of interest in the topic of emotion and affect. Comprehensive, authoritative, up to date and easy to use, the new Oxford Companion to Emotion and the Affective Sciences is an indispensable resource for all who wish to find out about theories, concepts, methods and research findings in this rapidly growing interdisciplinary field. One that brings together, amongst others, psychologists, neuroscientists, social scientists, philosophers and historians. Organized by alphabetical entries and presenting brief definitions, concise overviews and encyclopaedic articles, all with extensive references to relevant publications, this Companion lends itself to casual browsing by non-specialists interested in the fascinating phenomena of emotions, moods, affect disorders and personality, as well as to focused search for pertinent information by students and established scholars in the field. Not only does the book provide entries on affective phenomena but also on their neural underpinnings, their cognitive antecedents and the associated responses in physiological systems, facial, vocal and bodily expressions and action tendencies. Numerous entries also consider the role of emotion in society and social behavior, as well as in cognitive processes such as those critical for perception, attention, memory, judgement and decision making. The volume has been edited by a group of internationally leading authorities in the respective disciplines, consisting of two editors, David Sander and Klaus Scherer, as well as a group of 11 associate editors: John T. Cacioppo, Tim

Dalgleish Robert Dantzer Richard J Davidson Ronald B de Sousa Phoebe C Ellsworth Nico Frijda George Loewenstein Paula M Niedenthal Peter Salovey and Richard A Shweder The members of the editorial board have commissioned and reviewed contributions from major experts on specific topics In addition to comprehensive coverage of technical terms and fundamental issues the volume also highlights current debates that inform the ongoing research process In addition the Companion contains a wealth of material on the role of emotion in applied domains such as economic behaviour music and arts work and organizational behaviour family interactions and group dynamics religion law and justice and societal change Highly accessible and wide ranging this book is a vital resource for scientists students and professionals eager to obtain a rapid conclusive overview on central terms and topics and anyone wanting to learn more about the mechanisms underlying the emotions dominating many aspects of our lives The Emotional Dynamics of Law and Legal Discourse Heather Conway, John Stannard, 2016-12-15 In his seminal work Emotional Intelligence Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought decision making and individual success than is commonly acknowledged The importance of emotion to human experience cannot be denied yet the relationship between law and emotion is one that has largely been ignored until recent years However the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact including the law's response to emotion and the extent to which emotions pervade the practice of the law In The Emotional Dynamics of Law and Legal Discourse a group of leading scholars from both sides of the Atlantic explore these issues across key areas of private law public law criminal justice and dispute resolution illustrating how emotion infuses all areas of legal thought The collection argues for a more positive view of the role of emotion in the context of legal discourse and demonstrates ways in which the law could in the words of Goleman become more emotionally intelligent **Counseling Widowers** Jason M. Troyer, 2014-04-24 Working with widowers can be one of the most challenging parts of a therapist's career Despite the need for better research and professional guidance therapists have often been left alone to confront a group struggling with high rates of suicide mortality physical health problems and depression Counseling Widowers builds from the latest developments in grief research and men's studies to bridge the gap between counseling practice and the needs of bereaved men In these pages therapists will find tools for adjusting their clinical strategies to work more effectively with these men Through a more empathic understanding of widowers therapists can help them build from their strengths as they face the loss of their partner Encyclopedia of Death & Human Experience Clifton D. Bryant, Dennis L. Peck, 2009-07-15 This two volume Encyclopdia through multidisciplinary and international contributions and perspectives organizes defines and clarifies more than 300 death related concepts **A Critical Approach to Human Growth and Development** Paula Nicolson, 2014-04-25 What does it mean to be human This critical text from a well respected author captures and interrogates the many models which have been developed to explore and explain human behaviour Informed by

sociological psychological and biological perspectives the book plots the key stages of the life course from childhood through to older age

Handbook of Public Protection Mike Nash, Andy Williams, 2010-09-27 Public protection has become an increasingly central theme in the work of the criminal justice agencies in many parts of the world in recent years Its high public profile and consequent political sensitivity means that growing numbers of criminal justice professionals find their daily work load dominated by the assessment and management of high risk of harm offenders Developments such as sex offender registers and in the UK Multi Agency Public Protection Arrangements Mappa have made this issue not only a core activity for police probation and prison services but to a range of other organizations as well in particular social work and the health services Partnership has become central to the concept of public protection At the same time the concept of public protection has occasioned increased political debate Protecting the public from high risk or dangerous offenders has become an international issue and has increasingly shaped criminal justice policy This text brings together leading authorities in the field providing authoritative coverage of the theory and practice of public protection both in the UK and internationally It provides a critical review of contemporary public protection practice as well as up to date research and thinking in the field

Sex and Gender John Archer, Barbara Lloyd, 2002-07-11 Sex and Gender is a substantially revised second edition of a classic text Adopting a balanced and straightforward approach to the often controversial study of sex differences the authors aim to introduce the reader to the fundamental questions relating to sex and gender in an accessible way at the same time as drawing on research in this and related areas New developments which are explored in this edition include the rise of evolutionary psychology and the influence of Social Role Theory as well as additional psychoanalytic and ethno methodological approaches which have all contributed to a greater understanding of the complex nature of masculinity and femininity

Muhammad's Grave Leor Halevi, 2011 In this probing study of death rites Leor Halevi plays prescriptive texts against material culture advancing a new way of interpreting the origins of Islam He shows how religious scholars produced codes of funerary law to create new social patterns in the cities of Arabia Mesopotamia and the eastern Mediterranean They distinguished Islamic from Christian Jewish and Zoroastrian rites and they changed the way men and women interacted publicly and privately Each chapter explores a different layer of human interaction following the movement of the corpse from the deathbed to the grave Highlighting economic and political factors as well as key religious and sexual divisions Halevi forges a fascinating link between the development of funerary rites and the efforts of an emerging religion to carve its own distinct identity Muhammad's Grave is a groundbreaking history of the rise of Islam and the roots of contemporary Muslim attitudes toward the body and society

Requiem for a Species Clive Hamilton, 2011-04-07 This book does not set out once more to raise the alarm to encourage us to take radical measures to head off climate chaos There have been any number of books and reports in recent years explaining just how dire the future looks and how little time we have left to act This book is about why we have ignored those warnings and why it is now too late It is a book about the frailties of the human

species as expressed in both the institutions we built and the psychological dispositions that have led us on the path of self destruction It is about our strange obsessions our hubris and our penchant for avoiding the facts It is the story of a battle within us between the forces that should have caused us to protect the Earth our capacity to reason and our connection to Nature and those that in the end have won out our greed materialism and alienation from Nature And it is about the 21st century consequences of these failures Clive Hamilton is author of the bestselling *Affluenza* and *Growth Fetish* of Scorchers and most recently *Freedom Paradox*
