**The Mirror of Laughter** Alexander Kozintsev, 2017-07-12 The Mirror of Laughter presents a theory of humor and laughter by examining their relationship to human behaviors Kozintsev is especially interested in the relationship between biological and cultural factors that influence behaviors He divides his work into four chapters the first of which establishes a theme of the book focusing on the study of meaning from the perspective of philosophy and psychology while examining linguistic theories of humor The second chapter examines biological data regarding laughter and the evolutionary origins of laughter and humor It demonstrates the author's interest in studying humor objectively by detailing physiological reactions and underlying psychological issues The third section on play including linguistic play distinguishes between orderly and disorderly play While orderly play has no biological roots and is synonymous with culture disorderly play is rooted in the pre human past The final chapter discusses the conflict between culture and nature and how culture has transformed the original semantics of laughter Kozintsev seeks to understand the relationship between the biological cultural and social origins of humor and from here he seeks to create new understanding that only the alliance of several disciplines could provide All of this is done while the author challenges many popular ideas of humor such as that humor is inherently related to hostility Originally written in Russian this work makes great strides towards its goal and it does so in an interesting and enlightening way

Classen,2010-09-22 Despite popular opinions of the dark Middle Ages and a gloomy early modern age many people laughed smiled giggled chuckled entertained and ridiculed each other This volume demonstrates how important laughter had been at times and how diverse the situations proved to be in which people laughed and this from late antiquity to the eighteenth century The contributions examine a wide gamut of significant cases of laughter in literary texts historical documents and art works where laughter determined the relationship among people In fact laughter emerges as a kaleidoscopic phenomenon reflecting divine joy bitter hatred and contempt satirical perspectives and parodic intentions In some examples protagonists laughed out of sheer happiness and delight in others because they felt anxiety and insecurity It is much more difficult to detect premodern sculptures of laughing figures but they also existed Laughter reflected a variety of concerns interests and intentions and the collective approach in this volume to laughter in the past opens many new windows to the history of mentality social and religious conditions gender relationships and power structures *The Psychoanalytic Review* ,1926

that the period's visual culture was also an important part of the Enlightenment comic landscape.
