The Nature of Risk Justin Mamis, 1993-01 Mamis who has been hailed as a wildly prescient man by the Milwaukee Business Journal named to the Wall Street Letter's 1991 All American Research Team and called one of five leading gurus of the stock market by Barron's reveals the great paradox of making money in the market the less you know about a stock or company the better off you are

Solomon's Riches Ron Peterson, 2000-09-26 Everything you need to know about making money in the markets can be found in the Bible This cryptic comment by a very successful investor only became clear to the author when extensive real life experience was matched with the wisdom found in the Hebrew Bible and the New Testament The book is a concise textbook of market strategies that a reader can take into their own investment program He or she will learn what to expect of bull and bear markets how to control risk to be able to stay with winning investments while culling out losers identify strong markets how to profit under all market conditions and how do so with more confidence than ever before Short investment lessons are precisely matched with appropriate Biblical passages and the reader is left with memorable investing techniques for a lifetime
