Wildlife Review, 1959 Wildlife Abstracts U.S. Fish and Wildlife Service, 1954 **Nature Magazine**, 1959 An illustrated monthly with popular articles about nature. *The Possessor and the Possessed* Peter Kivy, 2008-10-01 The concept of genius intrigues us. Artistic geniuses have something other people don't have. In some cases, that something seems to be a remarkable kind of inspiration that permits the artist to exceed his own abilities. It is as if the artist is suddenly possessed as if some outside force flows through him at the moment of creation. In other cases, genius seems best explained as a natural gift. The artist is the possessor of an extra talent that enables the production of masterpiece after masterpiece. This book explores the concept of artistic genius and how it came to be symbolized by three great composers of the modern era: Handel, Mozart, and Beethoven. Peter Kivy, a leading thinker in musical aesthetics, delineates the two concepts of genius that were already well formed in the ancient world. Kivy then develops the argument that these concepts have alternately held sway in Western thought since the beginning of the eighteenth century. He explores why this pendulum swing from the concept of the possessor to the concept of the possessed has occurred and how the concepts were given philosophical reformulations as views toward Handel, Mozart, and Beethoven as geniuses changed in the eighteenth, nineteenth, and twentieth centuries. Vienna Tales Helen Constantine, 2014-11-13 Situated on the cusp of West and East, between the foothills of the Alps and the mighty Blue Danube, Vienna has long presented authors with a wealth of material for stories that entertain and intrigue. The city's famous quality of life and rich variety of cultural offerings is apparent here at every turn, but so too is its darker side, whether it be the Viennese obsession with death and decay or the dramatic tragic events of its twentieth-century history. In stories from the early to mid-nineteenth century, in particular, the city stands for wine, women, and song, for a laid-back, perhaps somewhat lax outlook on life that is invariably linked to its location as German culture's southernmost centre. In more recent tales, the theme of the good life and of Vienna's beauty continues, but there are very few authors who do not dwell on elements of darkness or melancholy. Indeed, from the mid-twentieth century onward, death itself seems to have become literature's preferred guide to the city. The collection concentrates on stories set at the city's margins.

The tales are arranged geographically rather than chronologically around and through the city from west to east and back again We begin and end with Arthur Schnitzler and Joseph Roth two authors already indelibly associated with Vienna but represented here by little known gems translated for the first time Other authors include stars of Vienna s nineteenth century feuilleton journalism Heinrich Laube Ferdinand K rnberger Adalbert Stifter but also the most recent generation of Viennese writers Doron Rabinovici Eva Menasse Dimitr Dinev with tales as yet unknown in English
