The Mindful Carnivore Tovar Cerulli,2013-03-13 A vegan turned hunter reignites the connection between humans and our food sources and continues the dialog begun by Michael Pollan and Barbara Kingsolver While still in high school Tovar Cerulli experimented with vegetarianism and by the age of twenty he was a vegan Ten years later in the face of declining health he would find himself picking up a rifle and heading into the woods Through his personal quest Tovar Cerulli bridges disparate worldviews and questions moral certainties challenging both the behavior of many hunters and the illusion of blamelessness maintained by many vegetarians In this time of intensifying concern over ecological degradation how do we make peace with

the fact that even in growing organic vegetables life is sustained by death Drawing on personal anecdotes philosophy history and religion Cerulli shows how America's overly sanitized habits of consumption and disconnection with our food have resulted in so many of the health and environmental crises we now face America's Natural Places Stacy S.

Morrissey,1984-12-17

For many Americans Vermont still seems what the United States at least in myth once was a bucolic landscape of wooded hills neat farms and handsome villages before modern forces transformed our agrarian nation into an urban industrial giant Vermonters have long been respected as sturdy Americans who prize hard work honest dealing town meeting government and dry humor Their way of life along with the beauty of their Green Mountains and quiet valleys remains immensely attractive to natives and newcomers who seek beauty and the satisfaction of self sufficiency in a natural environment where rocky soil and a varied climate have always compelled respect *America's Natural Places: East and Northeast* Donelle

Gregg, 2010-11-23 Historians have long viewed the massive reshaping of the American landscape during the New Deal era as unprecedented This book uncovers the early twentieth century history rich with precedents for the New Deal in forest park and agricultural policy Sara M Gregg explores the redevelopment of the Appalachian Mountains from the 1910s through the 1930s finding in this region a changing paradigm of land use planning that laid the groundwork for the national New Deal Through an intensive analysis of federal planning in Virginia and Vermont Gregg contextualizes the expansion of the federal government through land use planning and highlights the deep intellectual roots of federal conservation policy

Wilderness Comes Home Christopher McGrory Klyza, 2001 The first book to look at wilderness in the northeastern US Wilderness Comes Home features a new approach based on ecological reserve design to protect biological diversity rewilding and restoring lands to wilderness and embedding wilderness in a landscape of sustainably managed farmland and forestland It addresses major theoretical and practical aspects of this important issue whether why and how to reestablish wilderness areas in the Northeast Although Western wilderness models already exist for undeveloped areas Eastern models are still evolving Protection and social management are being urged not for the forest primeval but for recovering areas in which returning species such as moose and peregrine falcons roam over new growth softwoods and hardwoods interspersed with the stone walls that once marked field boundaries

Plan for Implementing the Silvio O. Conte National Fish and Wildlife Refuge Act in the Connecticut River Watershed [CT, MA, VT, NH] , 1995

Reading the Mountains of Home John Elder, 1998 Small farms once occupied the heights that John Elder calls home but now only a few cellar holes and tumbled stone walls remain among the dense stands of maple beech and hemlocks on these Vermont hills *Reading the Mountains of Home* is a journey into these verdant reaches where in the last century humans tried their hand and where bear and moose now find shelter As John Elder is our guide so Robert Frost is Elder's companion his great poem *Directive* seeing us through a landscape in which nature and literature loss and recovery are inextricably joined Over the course of a year Elder takes us on his hikes through the forested uplands between South Mountain and North Mountain reflecting on the forces of nature from the descent of the glaciers to the rush of the New Haven River that shaped a plateau for his village of Bristol and on the human will that denuded and farmed and abandoned the mountains so many years ago His forays wind through the flinty relics of nineteenth century homesteads and Abenaki settlements leading to meditations on both human failure and the possibility for deeper communion with the land and others An exploration of the body and soul of a place an interpretive map of its natural and literary life *Reading the Mountains of Home* strikes a moving balance between the pressures of civilization and the attraction of wilderness It is a beautiful work of nature writing in which human nature finds its place where the reader is invited to follow the last line of Frost's *Directive* to Drink and be whole again beyond confusion

Bogs of the Northeast Charles W. Johnson, 2000-09-26

The first popular book to deal with bogs in a comprehensive yet authoritative manner **Green Mountain National Forest (N.F.), Forest Plan Revision** ,2005 In the Land of the Wild Onion Charles Fish,2006 A lyrical and insightful journey of discovery down Vermont's Winooski River **Mountain Resorts** Julia LeMense,2016-04-22 Mountains are the home of significant ecological resources wildlife habitat higher elevation plant systems steep slopes delicate soils and water systems These resources are subject to very visible and growing pressures most of which are caused by the unique features of mountains Using as case studies four mountain resorts in the US and Canada this book analyzes the extent to which the law protects the ecological systems of mountains from the adverse impacts associated with the development operation and expansion of resorts In order to examine these issues Mountain Resorts takes an interdisciplinary approach with contributions from ecologists and lawyers who focus on ski related activities increasing four season use of the mountains and expanding residential commercial and recreational development at the mountains base Its analysis of an array of US and Canadian federal state and local laws provides a multifaceted exploration of the intersection of ecology and the law at mountain resorts Method Infinite: Freemasonry and the Mormon Restoration Cheryl L. Bruno,Joe Steve Swick III,Nicholas S. Literski,2022-08-09 While no one thing can entirely explain the rise of The Church of Jesus Christ of Latter day Saints the historical influence of Freemasonry on this religious tradition cannot be refuted Those who study Mormonism have been aware of the impact that Freemasonry had on the founding prophet Joseph Smith during the Nauvoo period but his involvement in Freemasonry was arguably earlier and broader than many modern historians have admitted The fact that the most obvious vestiges of Freemasonry are evident only in the more esoteric aspects of the Mormon faith has made it difficult to recognize let alone fully grasp the relevant issues Even those with both Mormon and Masonic experience may not be versed in the nineteenth century versions of Masonry's rituals legends and practices Without this specialized background it is easy to miss the Masonic significance of numerous early Mormon ordinances scripture and doctrines Method Infinite Freemasonry and the Mormon Restoration offers a fresh perspective on the Masonic thread present in Mormonism from its earliest days Smith's firsthand knowledge of and experience with both Masonry and anti Masonic currents contributed to the theology structure culture tradition history literature and ritual of the religion he founded
