Plastics Anne Gunnison,David Joselit,2025-11-11 Why modern and contemporary art and art conservation can t be understood without taking account of the revolutionary impact of plastics Modern and contemporary art wouldn t exist without the invention of plastics From sculpture to paint and photography to film plastics have shaped every major medium of art In turn plastics have revolutionized art conservation transforming the possibilities of preservation but also producing new challenges for conservators struggling to preserve toxic and degrading material Hailed as utopian in the twentieth century plastics today are often understood as pollution and waste a central cause of ecological crisis *Plastics* is the first book to address the multifaceted history of plastics from the perspective of artists art historians conservators and environmental scientists *Plastics* demonstrates that this material cannot easily be summarized as toxic or utopian catastrophic or necessary Instead plastics define the modern world in both its possibility and failures The book also reveals how artists have been a critical overlooked voice in debates about plastics and how they have offered theories of the material through works that explore its potential and harmfulness Presenting a variety of perspectives on the world of plastics through the lens of art artmaking art history and art conservation *Plastics* shows why and how coming to terms with this material is critical to understanding not only modern and contemporary art and art conservation but also the crises of the twenty first century **Naum Gabo** ,1987 Make it Modern Brandon Taylor,2022-01-01 A fascinating journey through Western art from the 1910s to the 1960s charting how artists wrestled with the headlong changes of a turbulent and conflict ridden world From the chaos of the First World War to the ravages of the Second from the Great Depression to the rise of consumer culture artists we call modern faced the challenge of responding imaginatively to utterly new circumstances of life Original thought startling artistic techniques and new attitudes to experimentation were required to produce exceptional and

Prehistory Jed Rasula,2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan *Make It New* became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both **Academic American Encyclopedia: Cit-Cz** ,1995 A twenty one volume encyclopedia with 32 000 entries and more than 16 000 illustrations
