**Drawing on Tradition** Jolyon Baraka Thomas, 2012-10-31 Manga and anime illustrated serial novels and animated films are highly influential Japanese entertainment media that boast tremendous domestic consumption as well as worldwide distribution and an international audience *Drawing on Tradition* examines religious aspects of the culture of manga and anime production and consumption through a methodological synthesis of narrative and visual analysis history and ethnography Rather than merely describing the incidence of religions such as Buddhism or Shinto in these media Jolyon Baraka Thomas shows that authors and audiences create and re create religious frames of mind through their imaginative and ritualized interactions with illustrated worlds Manga and anime therefore not only contribute to familiarity with traditional religious doctrines and imagery but also allow authors directors and audiences to modify and elaborate upon such traditional tropes sometimes creating hitherto unforeseen religious ideas and practices The book takes play seriously by highlighting these recursive relationships between recreation and religion emphasizing throughout the double sense of play as entertainment and play as adulteration i e the whimsical or parodic representation of religious figures doctrines and imagery Building on recent developments in academic studies of manga and anime as well as on recent advances in the study of religion as related to art and film Thomas demonstrates that the specific aesthetic qualities and industrial dispositions of manga and anime invite practices of rendition and reception that can and do influence the ways that religious institutions and lay authors have attempted to captivate new audiences *Drawing on Tradition* will appeal to both the dilettante and the specialist Fans and self professed otaku will find an engaging academic perspective on often overlooked facets of the media and culture of manga and anime while scholars and students of religion will discover a fresh approach to the complicated relationships between religion and visual media religion and quotidian practice and the putative differences between traditional and new religions *Asian Cinema and the Use of Space* Lilian Chee, Edna Lim, 2015-04-24 Asian cinemas are connected to global networks and participate in producing international film history while at the same time influenced and engaged by spatial cultural social and political transformations This interdisciplinary study forwards a productive pairing of Asian cinemas and space where space is used as a discursive tool to understand cinemas of Asia Concentrating on the performative potential of cinematic space in Asian films the contributors discuss how space re constructs forms of identities and meanings across a range of cinematic practices Cities landscapes buildings and interiors actively shape cinematic performances of such identities and their significances The essays are structured around the spatial themes of ephemeral imagined and contested spaces They deal with struggles for identity belonging autonomy and mobility within different national and transnational contexts across East Southeast and parts of South Asia in particular which are complicated by micropolitics and subcultures and by the interventions and interests of global lobbies **"I'm Just a Comic Book Boy"** Christopher B. Field, Keegan Lannon, Michael David MacBride, 2019-02-14 Comics and the punk movement are inextricably

linked each has a foundational do it yourself ethos and a nonconformist spirit defiant of authority This collection of new essays provides for the first time a thorough analysis of the intersections between comics and punk The contributors expand the discussion beyond the familiar U S and UK scenes to include the influence punk has had on comics produced in other countries such as Spain and Turkey      **Focus On: 100 Most Popular Fantasy Anime and Manga** Wikipedia contributors,

Nardi,Keli Fancher,2025-05-15 This collection investigates how Hayao Miyazaki Isao Takahata and other Studio Ghibli storytellers have approached the process of reimagining literary sources for animation Studio Ghibli is renowned for its original storytelling in films like My Neighbor Totoro but many of its most famous films including Howl s Moving Castle and Ponyo have their origins in pre existing novels manga or fairy tales Studio Ghibli s adaptations seldom directly translate source material to animation but instead transform the works to incorporate themes or imagery central to the studio s sensibilities Studio Ghibli Animation as Adaptations explores how these adaptations often blur genre boundaries and raise questions about what constitutes fidelity to source material The collection also shows how the studio reinterprets and recontextualizes stories across cultures for Japanese audiences and across mediums like manga
