Dick,2003 As one of the oldest scientific institutions in the United States the US Naval Observatory has a rich and colourful history This volume is first and foremost a story of the relations between space time and navigation from the rise of the chronometer in the United States to the Global Positioning System of satellites for which the Naval Observatory provides the time to a billionth of a second per day It is a story of the history of technology in the form of telescopes lenses detectors calculators clocks and computers over 170 years It describes how one scientific institution under government and military patronage has contributed through all the vagaries of history to almost two centuries of unparalleled progress in astronomy Sky and Ocean Joined will appeal to historians of science technology scientific institutions and American science as well as astronomers meteorologists and physicists **Masculinities in British Adventure Fiction, 1880-1915** Joseph A. Kestner,2016-05-06 Making use of recent masculinity theories Joseph A Kestner sheds new light on Victorian and Edwardian adventure fiction Beginning with works published in the 1880s when writers like H Rider Haggard took inspiration from the First Boer War and the Zulu War Kestner engages tales involving initiation and rites of passage experiences with the non Western Other colonial contexts and sexual encounters Canonical authors such as R L Stevenson Rudyard Kipling Joseph Conrad and Olive Schreiner are examined alongside popular writers like A E W Mason W H Hudson and John Buchan providing an expansive picture of the crisis of masculinity that pervades adventure texts during the period *From Sail to Steam* Richard V. Francaviglia,2010-06-28 The story of the ships mariners and ports that formed a vital connection between Texas and the rest of the world A first stop reference The Journal of American History Second Place Presidio La Bahia Award Sons of the Republic of Texas The Gulf Coast has been a principal place of entry into Texas ever since Alonso Alvarez de Pineda explored these shores in 1519 Yet nearly five hundred years later the maritime history of Texas remains largely untold In this book Richard V Francaviglia offers a comprehensive overview of Texas merchant and military marine history drawn from his own extensive collection of maritime history materials as well as from research in libraries and museums around the country Based on recent discoveries in nautical archaeology Francaviglia tells the stories of the Spanish flotilla that wrecked off Padre Island in 1554 and of La Salle s flagship Belle which sank in 1687 He explores the role of the Texas Navy in the Texas Revolution of 1835 1836 and during the years of the Texas Republic and also describes the Civil War battles at Galveston and Sabine Pass Finally he recounts major developments of the nineteenth

century concluding with the disastrous Galveston Hurricane in 1900 More than one hundred illustrations many never before published complement the text Although there have been many excellent and valuable books published previously on specific topics in Texas maritime development e g the Texas Navy river trade the Civil War etc we have been waiting a long time for a single volume that ties all those loose threads together into a single cohesive whole Andrew W Hall specialist in Texas marine history and archaeology *Literary Criticism Register* ,1984 **The USS Carondelet** Myron J. Smith, Jr.,2010-04-13 The USS Carondelet had a revolutionary ship design and was the most active of all the Union s Civil War river ironclads From Fort Henry through the siege of Vicksburg and from the Red River campaign through the Battle of Nashville the gunboat was prominent in war legend and literature This history draws on the letters of Ensign Scott Dyer Jordan and Rear Adm Henry Walke s memoirs National Trade and Professional Associations of the United States, 1984 Craig Colgate,1984

Nautical Research Journal ,2006 *Encyclopedia of the Lewis and Clark Expedition* Elin Woodger,Brandon Toropov,2014-05-14 Provides facts and information about the travels of Meriwether Lewis and William Clark and their Corps of Discovery and its importance in relation to Native Americans and the westward expansion in the United States **Wolf of the Deep** Stephen Fox,2008-08-12 The electrifying story of Raphael Semmes and the CSS Alabama the Confederate raider that destroyed Union ocean shipping and took more prizes than any other raider in naval history In July 1862 Semmes received orders to take command of a secret new British built steam warship the Alabama At its helm he would become the most hated and feared man in ports up and down the Union coast and a Confederate legend Now with unparalleled authority and depth and with a vivid sense of the excitement and danger of the time Stephen Fox tells the story of Captain Semmes s remarkable wartime exploits From vicious naval battles off the coast of France to plundering the cargo of Union ships in the Caribbean this is a thrilling tale of an often overlooked chapter of the Civil War Border Security Peter Chambers,2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault s work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book s analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security **Serials in Microform** ,1984 **The CSS Arkansas** Myron J. Smith, Jr.,2014-01-10 While the Monitor and Merrimack are the most famous of the Civil War ironclads the Confederacy had another ship in its flotilla that carried high hopes and a metal hull The makeshift CSS Arkansas completed by Lt Isaac Newton Brown and manned by a

mixed crew of volunteers gave the South a surge of confidence when it launched in 1862 For 28 days of summer the ship engaged in five battles with Union warships falling victim in the end only to her own primitive engines The saga of the CSS Arkansas represents the last significant Rebel naval activity in the war s Western theater Women on the Plains ,1985
