Resources Conservation Service The Roots of Dependency Richard White,1988-01-01 Richard White's study of the collapse into dependency of three Native American subsistence economies represents the best kind of interdisciplinary effort. Here ideas and approaches from several fields mainly anthropology, history and ecology are fruitfully combined in one inquiring mind closely focused on a related set of large salient problems. A very sophisticated study, a best read in Indian history. *American Historical Review*. The book is original, enlightening and rewarding. It points the way to a holistic manner in which tribal histories and studies of Indian-white relations should be written in the future. It can be recommended to anyone interested in Indian affairs, particularly in the question of the present-day dependency plight of the tribes. Alvin M. Josephy Jr. *Western Historical Quarterly*. The Roots of Dependency is a model study. With a provocative thesis tightly argued, it is extensively researched and well written. The nonreductionist interdisciplinary approach provides insight heretofore beyond the range of traditional methodologies. To the historiography of the American Indian, this book is an important addition. W. David Baird. *American Indian Quarterly*. Richard White is a professor of history at the University of Washington. He is the winner of the Albert J. Beveridge Award of the American Historical Association, the James A. Rawley Prize presented by the Organization of American Historians and the Francis Parkman Prize from the Society of American Historians.
