Naval War In The Mediterranean 1914 1918:

The Naval War in the Mediterranean Paul G. Halpern, 2015-10-05 This volume originally published in 1987 fills a gap in a neglected area Looking at the entire war in the Mediterranean the volume examines the war from the viewpoint of all the important participants making full use of archives and manuscript collections in Britain France Italy Germany Austria and the United States A fascinating mosaic of campaigns emerges in the Adriatic Straits of Otranto and the Eastern Aegean The German assistance to the tribes of Libya the threat that Germany would get her hands on the Russian Black Sea Fleet and use it in the Mediterranean and the appearance and influence of the Americans in 1918 all took place against a background of rivalry between the Allies which frustrated the appointment of Jellicoe in 1918 as supreme command at sea in a role similar to that of Foch on land

Naval History of World War I Paul G Halpern, 2012-04-15 There have been a number of studies published on the activities of British and German navies during World War I but little on naval action in other arenas This book offers for the first time a balanced history of the naval war as a whole viewed from the perspective of all participants in all major theaters The author's earlier examination *The Naval War in the Mediterranean 1914 1918* centered on submarine activities and allied efforts to counteract this new menace With this welcome sequel he again takes the reader beyond those World War I operations staged on the North Sea Halpern's clear and authoritative voice lends a cohesiveness to this encompassing view of the Italians and Austrians in the Adriatic the Russians Germans and Turks in the Baltic and Black Seas and French and British in the Mediterranean Important riverine engagements notably on the Danube also are included along with major colonial campaigns such as Mesopotamia and the Dardanelles The role of neutral sea powers such as the Swedes in the Baltic and the Dutch in the East Indies is examined from the perspective of how their neutrality affected naval activity Also discussed is the part played by the U S Navy and the often overlooked but far from negligible role of the Japanese navy The latter is viewed in the context of the opening months of the war and in the Mediterranean during the height of the submarine crisis of 1917

Britain and Italy in the Era of the Great War Stefano Marcuzzi, 2020-12-10 This is an important reassessment of British and Italian grand strategies during the First World War Stefano Marcuzzi sheds new light on a hitherto overlooked but central aspect of Britain and Italy's war experiences the uneasy and only partial overlap between Britain's strategy for imperial defence and Italy's ambition for imperial expansion Taking Anglo Italian bilateral relations as a special lens through which to understand the workings of the Entente in World War I he reveals how the ups and downs of that relationship influenced and shaped Allied grand strategy Marcuzzi considers three main issues war aims war strategy and peace making and examines how under the pressure of divergent interests and wartime events the Anglo Italian traditional friendship turned increasingly into competition by the end of the war casting a shadow on Anglo Italian relations both at the Peace Conference and in the interwar period

Franz Conrad von Hötzendorf Lawrence Sondhaus, 2021-10-25 Did you ever wonder how and why Franz Conrad von H tzen dorf 1852 1925 earned his reputation for brilliance while failing so miserably during the First World War In examining Conrad's life and career including his years as a military writer teacher of tactics and a peacetime troop commander before 1906 this first modern biography offers a fascinating and impressive explanation of his thoughts and actions Franz Conrad von H tzen dorf 1852 1925 served as Austro Hungarian chief of the general staff between 1906 and 1917 and was a leading figure in the origins and conduct of the First World War In no other country did a single general serve as the leading prewar tactician prewar and wartime strategist and wartime army commander Because Conrad filled all of these roles in Austria Hungary he had no equal among the military men leading the old order of Europe to destruction in 1914 1918 Germany in the Great War Joshua Bilton, 2021-12-08 This book documents the experiences of the Central Powers specifically Austria Hungary Germany and the Ottoman Empire during 1917 as they fought on land at sea and in the air Drawing on hundreds of contemporary photographs many of them never previously published this book examines the experiences of these three nations spotlighting not only the events that occurred throughout the year but the lives of those individuals fighting and dying to defend their homelands families and friends Each chapter includes a succinct overview of a single front or theatre of operation complimenting the hundreds of professional and amateur photographs contained within Though many of the images are of the German and Austro Hungarian armies on the Westfront and Ostfront several additional chapters also

explore the fighting across other lesser known fronts including the S dwest Front and in Sinai and Palestine and Mesopotamia This book is an excellent pictorial guide that would be of benefit to anyone seeking to gain a better understanding of what life was like from the perspective of the German Austro Hungarian and Ottoman armies and their peoples during the fourth year of the First World War **The War Lords and the Gallipoli Disaster** Nicholas A. Lambert, 2021-02-05 An eye opening interpretation of the infamous Gallipoli campaign that sets it in the context of global trade In early 1915 the British government ordered the Royal Navy to force a passage of the Dardanelles Straits the most heavily defended waterway in the world After the Navy failed to breach Turkish defenses British and allied ground forces stormed the Gallipoli peninsula but were unable to move off the beaches Over the course of the year the Allied landed hundreds of thousands of reinforcements but all to no avail The Gallipoli campaign has gone down as one of the great disasters in the history of warfare Previous works have focused on the battles and sought to explain the reasons for the British failure typically focusing on First Lord of the Admiralty Winston Churchill In this bold new account Nicholas Lambert offers the first fully researched explanation of why Prime Minister Henry Asquith and all of his senior advisers the War Lords ordered the attacks in the first place in defiance of most professional military opinion Peeling back the manipulation of the historical record by those involved with the campaign s inception Lambert shows that the original goals were political economic rather than military not to relieve pressure on the Western Front but to respond to the fall out from the massive disruption of the international grain trade caused by the war By the beginning of 1915 the price of wheat was rising so fast that Britain the greatest importer of wheat in the world feared bread riots Meanwhile Russia the greatest exporter of wheat in the world and Britain s ally in the east faced financial collapse Lambert demonstrates that the War Lords authorized the attacks at the Dardanelles to open the straits to the flow of Russian wheat seeking to lower the price of grain on the global market and simultaneously to eliminate the need for huge British loans to support Russia s war effort Carefully reconstructing the perspectives of the individual War Lords this book offers an eye opening case study of strategic policy making under pressure in a globalized world economy **Strategy and Command** Roy A. Prete, 2021-06-16 Falling between the War of Movement in 1914 and the major attrition battles of 1916 1915 was a critical year in the First World War As France failed in ever larger offensives to break through the German trenches Britain shifted its strategy from defence of empire to total commitment to the continental war In the second of three planned volumes Roy Prete analyzes the political and military policies and strategies of Britain and France and their joint command relationship on the Western Front in 1915 The opposing strategies of the two governments proved to be the main determinant in the sometimes ragged relations between the French commander in chief Joseph Joffre and his British counterpart Sir John French as they sought to drive the German army out of France and to aid their hard pressed Russian ally With an impressive marshalling of evidence Strategy and Command demonstrates that the increased British commitment to the continental war manifested in sending Kitchener s

New Armies to France in 1915 was largely due to the disastrous situation of the Russian army on the Eastern Front and the perceived weakness of the French government Based on extensive research in French and British political and military archives this new in depth study of Anglo French military relations on the Western Front in 1915 fills a major gap in the unfolding drama of the First World War

Castles of Steel Robert K. Massie, 2003-10-28 In a work of extraordinary narrative power filled with brilliant personalities and vivid scenes of dramatic action Robert K Massie the Pulitzer Prize winning author of *Peter the Great* *Nicholas and Alexandra* and *Dreadnought* elevates to its proper historical importance the role of sea power in the winning of the Great War The predominant image of this first world war is of mud and trenches barbed wire machine guns poison gas and slaughter A generation of European manhood was massacred and a wound was inflicted on European civilization that required the remainder of the twentieth century to heal But with all its sacrifice trench warfare did not win the war for one side or lose it for the other Over the course of four years the lines on the Western Front moved scarcely at all attempts to break through led only to the lengthening of the already unbearably long casualty lists For the true story of military upheaval we must look to the sea On the eve of the war in August 1914 Great Britain and Germany possessed the two greatest navies the world had ever seen When war came these two fleets of dreadnoughts gigantic floating castles of steel able to hurl massive shells at an enemy miles away were ready to test their terrible power against each other Their struggles took place in the North Sea and the Pacific at the Falkland Islands and the Dardanelles They reached their climax when Germany suffocated by an implacable naval blockade decided to strike against the British ring of steel The result was Jutland a titanic clash of fifty eight dreadnoughts each the home of a thousand men When the German High Seas Fleet retreated the kaiser unleashed unrestricted U boat warfare which in its indiscriminate violence brought a reluctant America into the war In this way the German effort to seize the trident by defeating the British navy led to the fall of the German empire Ultimately the distinguishing feature of *Castles of Steel* is the author himself The knowledge understanding and literary power Massie brings to this story are unparalleled His portrayals of Winston Churchill the British admirals Fisher Jellicoe and Beatty and the Germans Scheer Hipper and Tirpitz are stunning in their veracity and artistry *Castles of Steel* is about war at sea leadership and command courage genius and folly All these elements are given magnificent scope by Robert K Massie s special and widely hailed literary mastery

Coalition Strategy and the End of the First World War Meighen McCrae, 2019-01-24 When the Germans

requested an armistice in October 1918 it was a shock to the Allied political and military leadership They had been expecting and planning for the war to continue into 1919 the year they hoped to achieve a complete military victory over the Central Powers Meighen McCrae illuminates how throughout this planning process the Supreme War Council evolved to become the predominant mechanism for coalition war making She analyses the Council s role in the formulation of an Allied strategy for 1918 1919 across the various theatres of war and compares the perspectives of the British French Americans and Italians In doing so we learn how in an early example of modern alliance warfare the Supreme War Council had to coordinate national needs with coalition ones
