Naval Customs, Traditions and Usage Leland Pearson Lovette, 1939 *Our Navy, the Standard Publication of the U.S. Navy*, 1913 **Naval Training Bulletin**, 1944 The Armed Forces Officer United States. Office of Armed Forces Information and Education, 1965 *The Armed Forces Officer* United States. Directorate for Armed Forces Information and Education, 1960 *Naval Aviation News*, 1948 *Selling Sea Power* Ryan D. Wadle, 2019-03-28 The accepted narrative of the interwar U S Navy is one of transformation from a battle centric force into a force that could fight on the three planes of war in the skies on the water and under the waves The political and cultural tumult that accompanied this transformation is another story Ryan D Wadle s *Selling Sea Power* explores this little known but critically important aspect of naval history After World War I the U S Navy faced numerous challenges a call for naval arms limitation the ascendancy of air power and budgetary constraints exacerbated by the Great Depression *Selling Sea Power* tells the story of how the navy met these challenges by engaging in protracted public relations campaigns at a time when the means and methods of reaching the American public were undergoing dramatic shifts While printed media continued to thrive the rapidly growing film and radio industries presented new means by which the navy could connect with politicians and the public Deftly capturing the institutional nuances and the personalities in play Wadle tracks the U S Navy s at first awkward but ultimately successful manipulation of mass media At the same time he analyzes what the public could actually see of the service in the variety of media available to them including visual examples from progressively more sophisticated and effective public relations campaigns Integrating military policy and strategy with the history of American culture and politics *Selling Sea Power* offers a unique look at the complex links between the evolution of the art and industry of persuasion and the growth of the modern U S Navy as well as the connections between the workings of communications and public relations and the command of military and political power *The Naval Reserve of the United States Navy* United States. Bureau of Naval Personnel, 1942

The Naval Reserve of the United States Navy, a Pamphlet for the Instruction and Guidance of Naval Reserve Officers United States. Bureau of Naval Personnel, 1940 **Bibliography of Military History**, 1975 Battle Line Thomas C Hone, Trent Hone, 2006-04-03 A portrait in words and photographs of the interwar Navy this book examines the twenty year period that saw the U S fleet shrink under the pressure of arms limitation treaties and government economy and then grow again to a world class force The authors trace the Navy s evolution from a fleet centered around slow battleships to one that deployed most of the warship types that proved so essential in World War II including fast aircraft carriers heavy and light cruisers sleek destroyers powerful battleships and deadly submarines Both the older battleships and these newer ships are captured in stunning period photographs that have never before been published An authoritative yet lively text explains how and why the newer ships and aircraft came to be Thomas Hone and Trent Hone describe how a Navy desperately short funds and men nevertheless pioneered carrier aviation shipboard electronics code breaking and with the

Marines amphibious warfare elements that made America's later victory in the Pacific possible Based on years of study of official Navy department records their book presents a comprehensive view of the foundations of a navy that would become the world's largest and most formidable At the same time the heart of the book draws on memoirs novels and oral histories to reveal the work and the skills of sailors and officers that contributed to successes in World War II From their service on such battleships as West Virginia to their efforts ashore to develop and procure the most effective aircraft electronics and ships from their adventures on Yangtze River gunboats to carrier landings on the converted battle cruisers Saratoga and Lexington the men are profiled along with their ships This combination of popular history with archival history will appeal to a general audience of naval enthusiasts

Origins of the Navy Judge Advocate General's Corps Jay M.
