Navies Armies The Anglo Dutch Relationship In War Peace 1688 1988:

Navies and Armies G. J. A. Raven, 1990 *Ottoman-Dutch Economic Relations in the Early Modern Period 1571-1699* Mehmet Bulut, 2001 The Navy and Anglo-Scottish Union, 1603-1707 Colin Helling, 2022 Examines the union of England and Scotland by weaving the navy into a political narrative of events between the regal union in 1603 and the parliamentary union in 1707 This book examines the union of England and Scotland by weaving the navy into a political narrative of events between the regal union in 1603 and the parliamentary union in 1707 For most of the century the Scottish crown had no separate naval force which made the Stuart monarchs navy seen by them as a personal not a state force unusual in being an institution which had a relationship with both kingdoms This did not necessarily make the navy a shared organisation as it continued to be financed from and based in England and was predominantly English Nevertheless the navy is an unusually good prism through which the nature of the regal union can be interrogated as English commanded ships interacted with Scottish authorities and as Scots looked to the navy for protection from foreign invaders such as the Dutch in the Forth in 1667 and for Scottish merchant ships trading with the Baltic and elsewhere These interactions were often harmonious but there were also many instances of tensions particularly in the 1690s The book illustrates both the ambiguous relationship between England and Scotland in the seventeenth century and also the navy s under appreciated role in creating the political union of Britain

Navies in Northern Waters Rolf Hobson, TOM KRISTIANSEN, 2004-08-02 Navies in Northern Waters is a collection of articles covering the roles played by the secondary navies of northern European powers and the United States within the maritime balance of power The contributions covering the 18th and 19th centuries focus on their relations with each other as they sought to create a counterweight to the dominant naval power of Britain The inter war years are treated from the perspectives of international disarmament efforts within the framework of collective security and the subsequent naval rivalry in the Baltic area in the years leading up to the Second World War For the post 1945 period the contributions concentrate on superpower rivalry in northern waters during the Cold War the changing aspects of security policy since the collapse of the Soviet Union and the particular challenges facing small coastal states policing extensive waters of increasing economic importance
