absence of the bodies of Christ and Mary architecture took on a special representational role during the Christian Middle Ages marking out sites associated with the bodily presence of the dominant figures of the religion Throughout this period buildings were reinterpreted in relation to the mediating role of textual and pictorial representations that shaped the pilgrimage experience across expansive geographies In this study Kathryn Blair Moore challenges fundamental ideas within architectural history regarding the origins and significance of European recreations of buildings in Jerusalem Bethlehem and Nazareth From these conceptual foundations she traces and re interprets the significance of the architecture of the Holy Land within changing religious and political contexts from the First Crusade and the emergence of the Franciscan Custody of the Holy Land to the anti Islamic crusade movements of the Renaissance as well as the Reformation *The Crusades and Visual Culture* LauraJ Whatley,2017-07-05 The crusades whether realized or merely planned had a profound impact on medieval and early modern societies Numerous scholars in the fields of history and literature have explored the influence of crusading ideas values aspirations and anxieties in both the Latin States and Europe However there have been few studies dedicated to investigating how the crusading movement influenced and was reflected in medieval visual cultures Written by scholars from around the world working in the domains of art history and history the essays in this volume examine the ways in which ideas of crusading were realized in a broad variety of media including manuscripts cartography sculpture mural paintings and metalwork Arguing implicitly for recognition of the conceptual frameworks of crusades that transcend traditional disciplinary boundaries the volume explores the pervasive influence and diverse expression of the crusading movement from the twelfth through the fifteenth centuries **The Churches of the Crusader Kingdom of Jerusalem: A Corpus: Volume 2, L-Z (excluding Tyre)** Denys Pringle,1993 This is the second of a series of four volumes that are intended to present a complete corpus of all the church buildings of both the western and the oriental rites rebuilt or simply in use in the Crusader Kingdom of Jerusalem between the capture of Jerusalem for the First Crusade in 1099 and the loss of Acre in 1291 This volume completes the general topographical coverage begun in volume I and will be followed by a third volume dealing specifically with the major cities of Jerusalem Acre and Tyre which are excluded from the preceding volumes The project of which this series represents the final definitive publication has been sponsored by the British School of Archaeology in Jerusalem On completion the corpus will contain a topographical listing of all the 400 or more church buildings of the Kingdom that are attested by documentary or surviving archaeological evidence and individual descriptions and discussion of them in terms of their identification building history and architecture Some of the buildings have been published before but many others are published here for the first time **Jerusalem, 1000-1400** Barbara Drake Boehm ,Melanie Holcomb,2016-09-14 Medieval Jerusalem was a vibrant international center home to multiple cultures faiths and languages Harmonious and dissonant voices from many lands including Persians Turks Greeks Syrians Armenians Georgians Copts Ethiopians Indians and Europeans passed in the narrow streets of a city not much larger than midtown Manhattan

Patrons artists pilgrims poets and scholars from Christian Jewish and Islamic traditions focused their attention on the Holy City endowing and enriching its sacred buildings creating luxury goods for its residents and praising its merits This artistic fertility was particularly in evidence between the eleventh and fourteenth centuries notwithstanding often devastating circumstances from the earthquake of 1033 to the fierce battles of the Crusades So strong a magnet was Jerusalem that it drew out the creative imagination of even those separated from it by great distance from as far north as Scandinavia to as far east as present day China This publication is the first to define these four centuries as a singularly creative moment in a singularly complex city Through absorbing essays and incisive discussions of nearly 200 works of art Jerusalem 1000 1400 Every People Under Heaven explores not only the meaning of the city to its many faiths and its importance as a destination for tourists and pilgrims but also the aesthetic strands that enhanced and enlivened the medieval city that served as the crossroads of the known world

Forms of the Goddess Lajj? Gaur? in Indian Art Carol Radcliffe Bolon, 2010-11-01 Striking images of a certain Indian goddess have been variously referred to as the shameless woman the nude squatting goddess the mother goddess or because her historical name remains unknown more than twenty five names among them Aditi Lajj Gaur Renuk and Nagna Kabambdha The best known images of this goddess have a female torso and a lotus flower in place of a head while her legs are bent up at the knees and drawn up to each side in a position that has been described as one of giving birth or self display This type of goddess figure is explained as part of a long highly sophisticated tradition of expressing fertility and well being in Indian art The artists creating images of Lajj Gaur drew on various ancient symbols of fortune fertility and life force to communicate her power through their rich heritage of meanings As these historical religious symbols and images were constantly reused and reincorporated they formed a new and enriched religious context In the process of recycling they became empowered cultural metaphors visual morphemes in the language of Indian art Because there are no texts to explain the figure the study proceeds from the basis of the objects to derive their meaning Carol Bolon charts the changes in the goddess s form over a period of more than four centuries including its possible adoption from tribal worship into Hindu temples and brings a new appreciation of Lajj Gaur s rich symbolic meanings and cultural context

Degas and the Business of Art ,1994 While it received a more positive response than other works exhibited its success was with the conservative audience After considerable difficulty Degas finally succeeded in selling the painting in 1878 to the newly founded museum in the city of Pau The painting was probably regarded as an appropriate homage to the old textile manufacturing family who funded its purchase It also appealed to progressive provincial and more cosmopolitan audiences in Pau The picture s scattered form and atomized figures in which some interpreters today read evidence of the artist s own

ambivalence about capitalism seemingly contributed to its innovative cachet in Pau. But the private and public meanings of the painting had shifted in discontinuous fashion between its production and consumption. Under the circumstances, Degas's unfixed and even mixed messages about business became among other things his most successful if unwitting marketing strategy.
