Nazi Germanys New Aristocracy:

Nazi Germany's New Aristocracy Herbert F. Ziegler, 2014-07-14 The first book length presentation on the social origins of the prewar SS leadership this volume offers a complete picture of the men who between 1925 and 1939 joined the vanguard of National Socialism and rose to the rank of SS F hrer Herbert Ziegler reveals that the Black Order was composed of people from all walks of life Young Gymnasium and university graduates rubbed elbows with former gardeners mechanics and office clerks while old fighters of the pre 1933 Nazi movement climbed the ladder of SS ranks alongside those who did not find their enthusiasm for Hitler s new order until after the Nazi seizure of power Within the confines of Heinrich Himmler s new knighthood was created a people s community in microcosm furnishing many a recruit a vehicle for upward social mobility Moving beyond earlier explanations of who provided the support for National Socialism Ziegler describes practices within the SS that were akin to a democracy of personnel selection and that resulted by 1939 in a leadership corps characterized by social heterogeneity rather than homogeneity Taking advantage of the detailed information contained in the thousands of SS personnel files located at the Berlin Document Center and using the tools of statistical analysis he also probes the connections between social reality and the ideological credos and promises of the Third Reich Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Hitler's Enforcers* George C. Bendersky, 2020-09-21 This balanced history offers a concise readable introduction to Nazi Germany Combining compelling narrative storytelling with analysis Joseph W Bendersky offers an authoritative survey of the major political economic and social factors that powered the rise and fall of the Third Reich Now in its fifth edition the book incorporates significant research of recent years analysis of the politics of memory postwar German controversies about World War II and the Nazi era and more on non Jewish victims Delving into the complexity of social life within the Nazi state it also reemphasizes the crucial role played by racial ideology in determining the policies and practices of the Third Reich Bendersky paints a fascinating picture of how average citizens negotiated their way through both the threatening power behind certain Nazi policies and the strong enticements to acquiesce or collaborate His classic treatment provides an invaluable overview of a subject that retains its historical significance and contemporary importance **Hitler's True Believers** Robert Gellately, 2020-05-01 Understanding Adolf Hitler s ideology provides insights into the mental world of an extremist politics that over the course of the Third Reich developed explosive energies culminating in the Second World War and the Holocaust Too often the theories underlying National Socialism or Nazism are dismissed as an irrational hodge podge of ideas Yet that ideology drove Hitler s quest for power in 1933 colored everything in the Third Reich and transformed him however briefly into the most powerful leader in the world How did he discover that ideology How was it that cohorts of leaders followers and ordinary citizens adopted aspects of National Socialism without experiencing the leader first hand or reading his works They shared a collective desire to create a harmonious racially select community of the people to build on Germany s socialist oriented political culture and to seek national renewal If we wish to understand the rise of the Nazi Party and the new dictatorship s remarkable staying power we have to take the nationalist and socialist aspects of this ideology seriously Hitler became a kind of representative figure for ideas emotions and aims that he shared with thousands and eventually millions of true believers who were of like mind They projected onto him the properties of the necessary leader a commanding figure at the head of a uniformed corps that would rally the masses and storm the barricades It remains remarkable that millions of people in a well educated and cultured nation eventually came to accept or accommodate themselves to the tenants of an

extremist ideology laced with hatred and laden with such obvious murderous implications Hitler's Willing Executioners Daniel Jonah Goldhagen, 2007-12-18 This groundbreaking international bestseller lays to rest many myths about the Holocaust that Germans were ignorant of the mass destruction of Jews that the killers were all SS men and that those who slaughtered Jews did so reluctantly Hitler's Willing Executioners provides conclusive evidence that the extermination of European Jewry engaged the energies and enthusiasm of tens of thousands of ordinary Germans Goldhagen reconstructs the climate of eliminationist anti-Semitism that made Hitler's pursuit of his genocidal goals possible and the radical persecution of the Jews during the 1930s popular Drawing on a wealth of unused archival materials principally the testimony of the killers themselves Goldhagen takes us into the killing fields where Germans voluntarily hunted Jews like animals tortured them wantonly and then posed cheerfully for snapshots with their victims From mobile killing units to the camps to the death marches Goldhagen shows how ordinary Germans nurtured in a society where Jews were seen as unalterable evil and dangerous willingly followed their beliefs to their logical conclusion Hitler's Willing Executioners is an original indeed brilliant contribution to the literature on the Holocaust New York Review of Books The most important book ever published about the Holocaust Eloquently written meticulously documented impassioned A model of moral and scholarly integrity Philadelphia Inquirer

The Rise of National Socialism and the Working Classes in Weimar Germany Conan Fischer, 1996 Before seizing power the Nazi movement assembled an exceptionally broad social coalition of activists and supporters Many were working class but there remains considerable disagreement over the precise size and structure of this constituency and still more over its ideology and politics An indispensable work for scholars of interwar Germany and Nazism in general
