The Atlas of AI Kate Crawford, 2021-04-06 The hidden costs of artificial intelligence from natural resources and labor to privacy and freedom What happens when artificial intelligence saturates political life and depletes the planet How is AI shaping our understanding of ourselves and our societies In this book Kate Crawford reveals how this planetary network is fueling a shift toward undemocratic governance and increased inequality Drawing on more than a decade of research award winning science and technology Crawford reveals how AI is a technology of extraction from the energy and minerals needed to build and sustain its infrastructure to the exploited workers behind automated services to the data AI collects from us Rather than taking a narrow focus on code and algorithms Crawford offers us a political and a material perspective on what it takes to make artificial intelligence and where it goes wrong While technical systems present a veneer of objectivity they are always systems of power This is an urgent account of what is at stake as technology companies use artificial intelligence to reshape the world *Information Please Almanac, Atlas and Yearbook* Dan Golenpaul, 1995 **Atlas of the 2020**

Elections Robert H. Watrel, Kimberly Johnson Maier, Ryan Weichelt, Fiona M. Davidson, John Heppen, Erin H. Fouberg, J. Clark Archer, Richard Morrill, Fred M. Shelley, Kenneth C. Martis, 2022-05-04 The 2020 presidential election was one of the most historic contested and contentious in American history Joe Biden was the oldest person elected president Kamala Harris was the first female elected vice president and the first vice president of Black and Asian descent The primaries campaigns and elections were held for the first time amid an international and national pandemic Despite this voter turnout was the highest in 120 years Donald Trump was the first president in modern times who refused to concede leading to numerous lawsuits over the election process and results although election litigation and state officials found no evidence of large scale voter fraud Nevertheless continued claims of a stolen election led to a riotous mob occupation of the US Capitol on January 6 2021 in an attempt to overturn the Electoral College results The Atlas of the 2020 Elections explains the results of the 2020 elections with a series of unique maps unleashing the illustrative power of cartography and the relevance of history and political geography The contributors a balanced mix of geographers political scientists and historians provide a comprehensive examination of the election process from the primary campaigns through the general election and post election events In addition to the presidential election the Atlas has full coverage of other important races including congressional races state races and local and state referenda Illustrated with more than 150 meticulously drawn full color

maps and numerous graphs and tables the Atlas will be an essential reference and a fascinating resource for scholars teachers students pundits campaign staff and political junkies alike and for all who care about the American democratic process Index to American Reference Books Annual, 1990-1994 D Aviva Rothschild,1994-07-15 The annuals to which this is the index are cited in Sheehy and BCL3 This five year index gives access to 8771 reviews of references reviewed in ARBA volumes 16 through 20 American Reference Books Annual ARBA is an essential tool not only for libraries but for reference book publishers as well we at Book News would not be without it and is cited in BCL3 Sheehy and Walford This five year cumulative index provides access by subject title and author to reviews of the 9 284 reference works covered in the last five volumes of ARBA In addition to being used to locate reviews the index also serves as an analytical tool for collection evaluation and development and acquisitions Annotation copyright by Book News Inc Portland OR **Religious Cultures of the World** Philip Parker,1997-02-28 This work is a study of quantitative comparisons encompassing over 70 religious groups on a transnational level including factors that affect economic development demographic behavior and general business policies Over 26 000 statistics are presented Linguistic Cultures of the World Philip Parker,1997-02-28 Quantitative comparisons to be used on a global basis focusing on over 460 language groups and the impact linguistic groups have upon such factors as economic development demographic behavior and general business policies Some 130 000 statistics are provided
