Poetics of Children's Literature Zohar Shavit,2009-11-01 Since its emergence in the seventeenth century as a
distinctive cultural system children s literature has had a culturally inferior status resulting from its existence in a
netherworld between the literary system and the educational system In addition to its official readership children it has to be
approved of by adults Writers for children explains Zohar Shavit are constrained to respond to these multiple systems of
often mutually contradictory demands Most writers do not try to bypass these constraints but accept them as a framework
for their work In the most extreme cases an author may ignore one segment of the readership If the adult reader is ignored
the writer risks rejection as is the case of popular literature If the writer utilizes the child as a pseudo addressee in order to
appeal to an adult audience the result can be what Shavit terms an ambivalent work Shavit analyzes the conventions and the
moral aims that have structured children s literature from the fairy tales collected and reworked by Charles Perrault and the
Brothers Grimm in particular Little Red Riding Hood through the complex manipulations of Lewis Carroll in Alice s
Adventures in Wonderland to the subversion of the genre s canonical requirements in the chapbooks of the eighteenth
century and in the formulaic Nancy Drew books of the twentieth century Throughout her study Shavit explores not only how
society has shaped children s literature but also how society has been reflected in the literary works it produces for its
