society and Anglican identity *Readings in Sexualities from Africa* Rachel Spronk, Thomas Hendriks, 2020-02-04 Images and stories about African sexuality abound in today's globalized media. Frequently old stereotypes and popular opinion inform these stories and sex in the media is predominately approached as a problem in need of solutions and intervention. The authors gathered here refuse an easy characterization of African sexuality and instead seek to understand the various erotic realities, sexual practices and gendered changes taking place across the continent. They present a nuanced and comprehensive overview of the field of sex and sexuality in Africa to serve as a guide through the quickly expanding literature. This collection offers a set of texts that use sexuality as a prism for studying how communities coalesce against the canvas of larger political and economic contexts and how personal lives evolve therein. Scholars working in Africa, the U.S. and Europe reflect on issues of representation, health and bio-politics, same sex relationships and identity, transactional economies of sex, religion and tradition and the importance of pleasure and agency. This multidimensional reader provides a comprehensive view of sexuality from an African perspective.

The Gender of Piety Wendy Urban-Mead, 2015-07-15 The Gender of Piety is an intimate history of the Brethren in Christ Church in Zimbabwe or BICC as related through six individual life histories that extend from the early colonial years through the first decade after independence Taken together these six lives show how men and women of the BICC experienced and sequenced their piety in different ways Women usually remained tied to the church throughout their lives while men often had a more strained relationship with it Church doctrine was not always flexible enough to accommodate expected masculine gender roles particularly male membership in political and economic institutions or participation in important male communal practices The study is based on more than fifteen years of extensive oral history research supported by archival work in Zimbabwe the United Kingdom and the United States The oral accounts make it clear official versions to the contrary that the church was

led by spiritually powerful women and that maleness and mission church notions of piety were often incompatible The life history approach illustrates how the tension of gender roles both within and without the church manifested itself in sometimes unexpected ways for example how a single family could produce both a legendary woman pastor credited with mediating multiple miracles and a man her son who joined the armed wing of the Zimbabwe African People s Union nationalist political party and fought in Zimbabwe s liberation war in the 1970s Investigating the lives of men and women in equal measure The Gender of Piety uses a gendered interpretive lens to analyze the complex relationship between the church and broader social change in this region of southern Africa *The Writing of East and Central Africa* G. D. Killam,1984

Abundant Life and Basic Needs Nyoni, Bednicho,2019 Western neglecting traditional religion is an important factor for the failure of many developmental strategies towards Africa Therefore religion s of the indigenous peoples must be given the necessary attention The book presents the example of the Shona religion playing a critical role in the life of the Zimbabweans If incorporated it will contribute to the better success of development initiatives back cover

African Belief and Knowledge Systems Munyaradzi Mawere,2011 The debate on the existence of African philosophy has taken central stage in academic circles and academics and researchers have tussled with various aspects of this subject This book notes that the debate on the existence of African philosophy is no longer necessary Instead it urges scholars to demonstrate the different philosophical genres embedded in African philosophy As such the book explores African metaphysical epistemology with the hope to redirect the debate on African philosophy It articulates and systematizes metaphysical and epistemological issues in general and in particular on Africa The book aptly shows how these issues intersect with the philosophy of life traditional beliefs knowledge systems and practices of ordinary Africans and the challenges they raise for scholarship in and on philosophy with relevance to Africa Hungochani, Second Edition Marc Epprecht,2013-04-01

In the tapestry of global queer cultures Africa has long been neglected or stereotyped In Hungochani Marc Epprecht seeks to change these limited views by tracing Southern Africa s history and traditions of homosexuality modern gay and lesbian identities and the vibrant gay rights movement that has emerged since the 1980s Epprecht explores the diverse ways African cultures traditionally explained same sex sexuality and follows the emergence of new forms of gender identity and sexuality that evolved with the introduction of capitalism colonial rule and Christian education Using oral testimony memoirs literature criminal court records and early government enquiries from the eighteenth century to the present he traces the complex origins of homophobia By bringing forth a wealth of evidence about once hidden sexual behaviour Epprecht contributes to the honest open discussion that is urgently needed in the battle against HIV AIDS Homosexuality or hungochani as it is known in Zimbabwe has been denounced by many politicians and church leaders as an example of how Western decadence has corrupted African traditions However a bold new gay rights movement has emerged in several of the countries of the region since the 1980s offering an exciting new dimension in the broad struggle for human rights and democracy unfolding on the

continent In a new preface to this edition Epprecht considers the recent advances of equality on the continent such as the legalization of same sex marriage in South Africa as well as discriminatory setbacks such as Uganda's anti homosexuality legislation

Securitising Monstrous Bottoms in the Age of Posthuman Carnavalesque? Artwell Nhemachena, Munyaradzi Mawere, 2020-07-03 Placing security studies in the context of contemporary discourses about the colonial comeback and posthumanism this book postulates the notion of staticide which avers that the effacement of African state sovereignty is crucial for the security of the oncoming empire Understood in the light of posthumanism antihumanism animism postanthropocentrism and transhumanism African human security has evidently been put on a recession course together with African state security Much as African states are demonised as so failed defective corrupt weak and rogue to require recolonisation transhumanism also assumes that human bodies are so corrupt imperfect defective failed rogue and weak to require not only enhancements or augmentation but also to beckon recolonisation Also deemed to be ecologies human bodies are set to be liberalised and democratised in the interest of nonhuman viruses nanobots microchips bacteria fungi and other pathogens living within the bodies The book critically examines the security implications of theorising human bodies as ecologies for nonhuman entities Reading staticide together with transhumanism this book foresees transhumanist new eugenics that are accompanying the new empire in a supposedly Anthropocene world that serves to justify the sacrifice and disposability of some surplus humans living in the recesses and nether regions of the empire Paying attention to the colonial comeback the book urges African scholars not to mistake imperial transformation for decolonisation The book is invaluable for scholars and activists in African studies anthropology decoloniality sociology politics development studies security studies sociology and anthropology of science and technology studies and environmental studies

Hungochani Marc Epprecht, 2004-10-20 Homosexuality or hungochani as it is known in Zimbabwe has been denounced by many politicians and church leaders as an example of how Western decadence has corrupted African traditions However a bold new gay rights movement has emerged in several of the countries of the region since the 1980s offering an exciting new dimension in the broad struggle for human rights and democracy unfolding on the continent
