

### CHAPTER III MOUNT DOOM

Sam put his ragged orc-cloak under his master's head, and covered them both with the grey robe of Lórien; and as he did so his thoughts went out to that fair land, and to the Elves, and he hoped that the cloth woven by their hands might have some virtue to keep them hidden beyond all hope in this wilderness of fear. He heard the scuffling and cries die down as the troops passed on through the Isenmouthe. It seemed that in the confusion and the mingling of many companies of various kinds they had not been missed, not yet at any rate.

Sam took a sip of water, but pressed Frodo to drink, and when his master had recovered a little he gave him a whole wafer of their precious waybread and made him eat it. Then, too worn out even to feel much fear, they stretched themselves out. They slept a little in uneasy fits; for their wear grew chill on them, and the hard stones bit them, and they shivered. Out of the north from the Black Gate through Cirith Gorgor there flowed whispering along the ground a thin cold air.

In the morning a grey light came again, for in the high regions the West Wind still blew, but down on the stones behind the fences of the Black Land the air seemed almost dead, chill and yet stifling. Sam looked upon of the hollow. The land all about was dreary, flat and drab-hued. On the roads nearby nothing was moving now; but Sam feared the watchful eyes on the wall of the Isenmouthe, no more than a furlong away northward. South-eastward, far off like a dark standing shadow, loomed the Mountain. Smokes were pouring from it, and while those that rose into the upper air trailed away eastward, great rolling clouds floated down its sides and spread over the land. A few miles to the north-east the foothills of the Ashen Mountains stood like sombre grey ghosts, behind which the misty northern heights rose like a line of distant cloud hardly darker than the lowering sky.

Sam tried to guess the distances and to decide what was to be taken. 'It looks every step of fifty miles,' he muttered, 'and that'll take a week. The threatening mountain, and that'll take a week. Mr. Frodo as he is.' He shook his head, and a slowly a new dark thought grew in his mind. Not in his staunch heart, and always until now, but in the bitter truth came their return. But the bitter truth came. The provision would take them to their goal.

**The Routledge Research Companion to Media Geography** Paul C. Adams, Jim Craine, 2016-03-23 This Companion provides an authoritative source for scholars and students of the nascent field of media geography While it has deep roots in the wider discipline the consolidation of media geography has started only in the past decade with the creation of media geography's first dedicated journal *Aether* as well as the publication of the sub-discipline's first textbook However at present there is no other work which provides a comprehensive overview and grounding By indicating the sub-discipline's evolution and hinting at its future this volume not only serves to encapsulate what geographers have learned about media but also will help to set the agenda for expanding this type of interdisciplinary exploration The contributors leading scholars in

this field including Stuart Aitken Deborah Dixon Derek McCormack Barney Warf and Matthew Zook not only review the existing literature within the remit of their chapters but also articulate arguments about where the future might take media geography scholarship The volume is not simply a collection of individual offerings but has afforded an opportunity to exchange ideas about media geography with contributors making connections between chapters and developing common themes     The English Reports ,1914
