Ockham On The Virtues

Eric W. Hagedorn

Ockham On The Virtues:

Ockham on the Virtues Rega Wood,1997 One of the world's great philosophers William of Ockham's *On the Connection of the Virtues* *De connexion virtutum* provides insightful perspectives on ordinary issues of human conduct Written in reasonably simple and nontechnical language it is translated into English here for the first time Ockham's views on many subjects have been misunderstood his views on ethics as much as any This book is designed to avoid some pitfalls that arise in reading medieval philosophy generally and Ockham in particular Wood begins her introduction with an account of what is known about Ockham's life and works and with a discussion of his place in the history of philosophy followed by a brief general guide to his views Finally there is a historical account of the medieval debate on the connection of the virtues to which Ockham's treatise is an important contribution William of Ockham: Questions on Virtue, Goodness, and the Will

Eric W. Hagedorn,2021-05-06 A collection of the influential ethical writings of medieval philosopher William of Ockham published in English for the first time Conscience and Other Virtues Douglas C. Langston,2009-03-02 Conscience once a core concept for ethics has mostly disappeared from modern moral theory In this book Douglas Langston traces its intellectual history to account for its neglect while arguing for its still vital importance if correctly understood In medieval times Langston shows in Part I the notions of conscientia and synderesis from which our contemporary concept of conscience derives were closely connected to Greek ideas about the virtues and practical reason although in Christianized form As modified by Luther Butler and Kant however conscience later came to be regarded as a faculty like will and intellect and when faculty psychology fell into disrepute so did the role of conscience in moral philosophy A view of mature conscience that sees it as relational with cognitive emotional and conative dimensions can survive the criticisms of conscience as faculty In Part II through discussions of Freud Ryle and other modern thinkers Langston proceeds to reconstruct conscience as a viable philosophical concept Finally in Part III this better grounded concept is connected with the modern revival of virtue ethics and Langston shows how crucial conscience is to a theory of virtue because it is fundamental to the training of any morally good person **The Cardinal Virtues in the Middle Ages** István Pieter Bejczy,István Bejczy,2011-08-11 Exploring the history of the cardinal virtues from patristic times to the late fourteenth century this book offers a comprehensive view of the development of moral debate in the Latin Middle Ages **Martin Luther's Understanding of God's Two Kingdoms** William J. Wright,2010 A leading Reformation scholar historically reassesses the original breadth of Luther's theology of the two kingdoms and the cultural contexts from which it emerged *William of Ockham's Early Theory of Property Rights in Context* Jonathan Robinson,2012-11-23 This book analyzes William of Ockham's early theory of property rights alongside those of his fellow dissident Franciscans paying careful attention to each friar's use of Roman and civil law which provided the conceptual building blocks of the poverty controversy **William of Ockham's Early Theory of Property Rights in Context** Jonathan William Robinson,2012-11-23 William of Ockham's ca 1288-1347 *Opus nonaginta dierum* has long been of

interest to historians for his theory of rights Yet the results of this interest has been uneven because most studies do not take sufficient account of the defences of Franciscan poverty already articulated by his fellow Franciscans Bonagratia of Bergamo Michael of Cesena and Francis of Marchia This book therefore presents and analyzes Ockham s account of property rights alongside those of his confreres This contextualization of Ockham s theory corrects many misconceptions about his theory of property natural law and natural rights and therefore also provides a new foundation for studies of his political oeuvre intellectual development and significance as a political theorist **John Duns Scotus** ,2021-11-01 Of really the rarest

veined unraveler John Duns Scotus was one of the profoundest metaphysicians who ever lived In this volume the world s foremost Scotus scholars collaborate to present the latest research on his work In ethics the focus is on practical wisdom on beauty as an ethical concept and on the independence of the virtues in metaphysics on modality individuation and being Textbook accounts notwithstanding Scotus s theory of logical possibilities implies no existence or actuality for possible beings though being and thinking presuppose the domain of possibility potency only supervenes on the actual There are important 13th century precursors of Scotus s theory of modality and individuation Posterior to quidditative entity Scotus clearly distinguishes the ultimate reality of individual beings both from individuals and from individuality **The**

Cambridge History of Moral Philosophy Sacha Golob,Jens Timmermann,2017-12-31 With fifty four chapters charting the development of moral philosophy in the Western world this volume examines the key thinkers and texts and their influence on the history of moral thought from the pre Socratics to the present day Topics including Epicureanism humanism Jewish and Arabic thought perfectionism pragmatism idealism and intuitionism are all explored as are figures including Aristotle Boethius Spinoza Hobbes Hume Kant Hegel Mill Nietzsche Heidegger Sartre and Rawls as well as numerous key ideas and schools of thought Chapters are written by leading experts in the field drawing on the latest research to offer rigorous analysis of the canonical figures and movements of this branch of philosophy The volume provides a comprehensive yet philosophically advanced resource for students and teachers alike as they approach and refine their understanding of the central issues in moral thought **Between Creativity and Norm-Making** Sigrid Müller,Cornelia Schweiger,2012-11-09

The time of the transition from the Middle Ages to the onset of early modernity c 1400 1550 is a very complex one It brought what on first sight appear to be contradictory developments Human creativity and freedom became much more important yet at the same time the foundations were laid for systems that allowed control to be exercised over virtually every aspect of human social life How can we put these two phenomena together Which tendency is the stronger one The contributions in this volume focus on the tension between creativity and norm making from the perspective of different academic disciplines so as to shed light on this fascinating period in our history **Theoretical Virtues in Science** Samuel

Schindler,2018-05-24 In depth discussion of the value of scientific theories bringing together and advancing current important debates in realism **A Companion to Jan Hus** Ota Pavlicek,František Šmahel,2015-02-24 A Companion to Jan

Hus includes eleven substantial essays covering the central aspects of the life thought and commemoration of Jan Hus 1415 Czech theologian reformer and martyr Besides older experienced specialists in the Hussite studies also younger researchers who enter the scientific discourse with new approaches participated in the volume Experts and students alike will profit from this guide to Jan Hus who was well known as follower of John Wyclif and forerunner of Martin Luther Burning of Jan Hus at the stake at the Council of Constance gave rise in Bohemia to religious and social revolt that ushered the European reformations of the 16th century

A Companion to Philosophy in the Middle Ages Jorge J. E. Gracia, Timothy B. Noone, 2008-04-15 This comprehensive reference volume features essays by some of the most distinguished scholars in the field Provides a comprehensive who's who guide to medieval philosophers Offers a refreshing mix of essays providing historical context followed by 140 alphabetically arranged entries on individual thinkers Constitutes an extensively cross referenced and indexed source Written by a distinguished cast of philosophers Spans the history of medieval philosophy from the fourth century AD to the fifteenth century

Philosophy of Mind in the Late Middle Ages and Renaissance Stephan Schmid, 2018-07-06 Characterized by many historically significant events such as the invention of the printing press the discovery of the New World and the Protestant Reformation the years between 1300 and 1600 are a remarkably rich source of ideas about the mind They witnessed a resurgence of Aristotelianism and Platonism and the development of humanism However philosophical understanding of the complex arguments and debates during this period remain difficult to grasp Philosophy of Mind in the Late Middle Ages and Renaissance provides an outstanding survey of philosophy of mind in this fascinating and still controversial period and examines the thought of figures such as Aquinas Suarez and Ficino Following an introduction by Stephan Schmid thirteen specially commissioned chapters by an international team of contributors discuss key topics thinkers and debates including mind and method the mind and its illnesses the powers of the soul Averroism intentionality and representationalism theories of self consciousness will and its freedom external and internal senses Renaissance theories of the passions the mind body problem and the rise of dualism and the cognitive turn Essential reading for students and researchers in philosophy of mind medieval philosophy and the history of philosophy Philosophy of Mind in the Late Middle Ages and Renaissance is also a valuable resource for those in related disciplines such as religion literature and Renaissance studies

Passions in William Ockham's Philosophical Psychology Vesa Hirvonen, 2004-05-31 This study is not only the first extensive analysis of passions or emotions in William Ockham's c 1285-1347 psychology it also contains a detailed analysis of Ockham's little known two souls anthropology The study shows how Ockham diverged from the traditional opinion of emotions in arguing that there were emotions in the will not only in the lower part of the soul Because of this new theory of the intellect and the will Ockham believed that certain phenomena of the will were subjective reactions to occurrent phenomena and could therefore be treated as emotions The book also discusses Ockham's approach to the traditional distinctions between amicable love and wanting love and enjoyment and use and to some other classical

themes *The Oxford Handbook of the History of Ethics* Roger Crisp, 2013-01-31 Philosophical ethics consists in the human endeavour to answer rationally the fundamental question of how we should live The Oxford Handbook of the History of Ethics explores the history of philosophical ethics in the western tradition from Homer until the present day It provides a broad overview of the views of many of the main thinkers schools and periods and includes in addition essays on topics such as autonomy and impartiality The authors are international leaders in their field and use their expertise and specialist knowledge to illuminate the relevance of their work to discussions in contemporary ethics The essays are specially written for this volume and in each case introduce the reader to the main lines of interpretation and criticism that have arisen in the professional history of philosophy over the past two or three decades **The Development of Ethics: Volume 1** Terence Irwin, 2007-09-20 The Development of Ethics is a selective historical and critical study of moral philosophy in the Socratic tradition with special attention to Aristotelian naturalism its formation elaboration criticism and defence It discusses the main topics of moral philosophy as they have developed historically including the human good human nature justice friendship and morality the methods of moral inquiry the virtues and their connexions will freedom and responsibility reason and emotion relativism subjectivism and realism the theological aspect of morality This volume examines ancient and medieval philosophy up to the sixteenth century Volumes 2 and 3 will continue the story up to Rawls s Theory of Justice The present volume begins with Socrates the Cyrenaics and Cynics and Plato and then offers a fuller account of Aristotle stressing the systematic naturalism of his position The Stoic position is compared with the Aristotelian at some length Epicureans and Sceptics are discussed more briefly Chapters on early Christianity and on Augustine introduce a fuller examination of Aquinas revision elaboration and defence of Aristotelian naturalism The volume closes with an account of some criticisms of the Aristotelian outlook by Scotus Ockham Machiavelli and some sixteenth century Reformers The emphasis of the book is not purely descriptive narrative or exegetical but also philosophical Irwin discusses the comparative merits of different views the difficulties that they raise and how some of the difficulties might be resolved The book tries to present the leading moral philosophers of the past as participants in a rational discussion that is still being carried on and tries to help the reader to participate in this discussion William Ockham's Theory of the Foundations of Ethics Taina M. Holopainen, 1991 *Emotion and Cognitive Life in Medieval and Early Modern Philosophy* Martin Pickavé, Lisa Shapiro, 2012-10-04 This volume offers a much needed shift of focus in the study of emotion in the history of philosophy Discussion has tended to focus on the moral relevance of emotions and except in ancient philosophy the role of emotions in cognitive life has received little attention Thirteen new essays investigate the continuities between medieval and early modern thinking about the emotions and open up a contemporary debate on the relationship between emotions cognition and reason and the way emotions figure in our own cognitive lives A team of leading philosophers of the medieval renaissance and early modern periods explore these ideas from the point of view of four key themes the situation of emotions within the

human mind the intentionality of emotions and their role in cognition emotions and action the role of emotion in self understanding and the social situation of individuals The Routledge Handbook of Philosophy of Relativism Martin Kusch, 2019-12-06 Relativism can be found in all philosophical traditions and subfields of philosophy It is also a central idea in the social sciences the humanities religion and politics This is the first volume to map relativistic motifs in all areas of philosophy synchronically and diachronically It thereby provides essential intellectual tools for thinking about contemporary issues like cultural diversity the plurality of the sciences or the scope of moral values The Routledge Handbook of Philosophy of Relativism is an outstanding major reference source on this fundamental topic The 57 chapters by a team of international contributors are divided into nine parts Relativism in non Western philosophical traditions Relativism in Western philosophical traditions Relativism in ethics Relativism in political and legal philosophy Relativism in epistemology Relativism in metaphysics Relativism in philosophy of science Relativism in philosophy of language and mind Relativism in other areas of philosophy Essential reading for students and researchers in all branches of philosophy this handbook will also be of interest to those in related subjects such as politics religion sociology cultural studies and literature
