ML Yell

Riots In The Cities Popular Politics And The Urban Poor In Latin America 1765 191:

Riots in the Cities Servando Ortoll, Silvia M. Arrom, 1996-02-01 The goal of *Riots in the Cities* editors Silvia Marina Arrom and Servando Ortoll contend is to encourage Latin Americanists to rethink standard notions of urban politics before the populist era The actual political power wielded by the underprivileged city dwellers before the twentieth century has received little scholarly attention or has been downplayed Researchers often described urban inhabitants as having little influence over both their lives and on the politics of their day The elite were perceived as having firm control over the political process The seven essays in this reader analyze urban riots that broke out in major Latin American population centers between 1765 and 1910 Inspired by the works of Eric Hobsbawm and George Rud the authors find that the participants in these riots were far from irrational The crowds responded to specific social provocation and attacked property rather than people When taken together these essays challenge the notion that prior to 1910 power was strictly in the hands of the elite Lower class city residents too held strong opinions and acted on their convictions Most important their voices were not unheeded by those who officially wielded power and implemented social policies

Street Occupations Patricia Acerbi, 2017-10-04 Winner Warren Dean Memorial Prize Conference on Latin American History CLAH 2018 Street vending has supplied the inhabitants of Rio de Janeiro with basic goods for several centuries Once the province of African slaves and free blacks street commerce became a site of expanded mostly European immigrant participation and shifting state regulations during the transition from enslaved to free labor and into the early post abolition period *Street Occupations* investigates how street vendors and state authorities negotiated this transition during which vendors sought greater freedom to engage in commerce and authorities imposed new regulations in the name of modernity and progress Examining *ganhador* street worker licenses newspaper reports and detention and court records and considering the emergence of a protective association for vendors Patricia Acerbi reveals that street sellers were not marginal urban dwellers in Rio but active participants in a debate over citizenship In their struggles to sell freely throughout the Brazilian capital vendors asserted their citizenship as urban participants with rights to the city and to the freedom of commerce In tracing how vendors resisted efforts to police and repress their activities Acerbi demonstrates the persistence of street commerce and vendors tireless activity in the city which the law eventually accommodated through municipal street commerce regulation passed in 1924 A focused history of a crucial era of transition in Brazil *Street Occupations* offers important new perspectives on patron client relations slavery and abolition policing the use of public space the practice of free labor the meaning of citizenship and the formality and informality of work
