Book Review Index ,2006 Every 3rd issue is a quarterly cumulation **Attracting and Keeping the Best Teachers** Anna Sullivan,Bruce Johnson,Michele Simons,2019-08-26 This book challenges dominant thinking about early career teachers and their work It offers an in depth and critical analysis of policies concerning the work of early career teachers and how they are supported during this critical period when they are highly vulnerable to leaving the profession Moreover the book provides examples from actual practice that illustrate how to help early career teachers make a successful transition into the profession These practices promote early career teachers development and help the profession as a whole to capitalize on the new knowledge and skills that these teachers bring to their classrooms and their students The book is divided into two main parts Part 1 deals with the difficult to define process of retaining early career teachers and its respective chapters consider this broad issue from an international perspective They explore how policies and practices have

an impact on what happens in schools and what it means to be a teacher and to teach In turn Part 2 focuses on the need to reconsider the policies and practices that create the problem of early career teachers and offers alternative ways forward Each chapter addresses a specific aspect of the early career teacher retention issue contributing to a greater understanding of how we can rethink the work of early career teachers so that they can more successfully transition into the profession

Resources in Education ,2001-10 *Initial Teacher Education in Schools* Carey Philpott,Helen Scott,Carrie Mercier,2014-08-11 Successfully establishing initial teacher education courses in schools requires a careful understanding of what it means to train someone to teach This book provides guidance on how teacher training can be effective in school based settings Essential practical issues are covered including recruitment pastoral care and the organization of academic components of a course It also covers conceptual topics such as what makes a good mentor models of learning suitable for teacher education the role of evidence based teaching in a practical setting Examples from existing primary and secondary school based programmes explore good practice and show how challenges to developing courses can be overcome
