School That Went On Strike:

Schools In Great Depression Dominic W Moreo, 2021-12-12 First Published in 1996 The Great Depression was not a seamless web of human experience Disparate images of highs and lows in daily individual experiences proliferated This study is a modest attempt to delineate the effects of the Great Depression upon the schools For the most part the voices of this work are drawn from the press and periodicals of the times On one level this work is concerned with the coming of the Depression and its effects upon the schools It is a tale worth telling Struggle for Power the Longest School Strike Leon Bock Kavunedus, Leon Bock, Leon Bock/ Thomas Kavunedus, 2011 Two people participating in the same events yet on opposite sides give an engrossing view of a struggle which engulfed a large community in northern Westchester County in New York State It became the longest teachers strike in New York State s history Even though they are personal memoirs both authors try to give as full a picture of the personalities institutions and issues driving the struggle as each experienced it The narrative is in two parts side by side and event by event Both are impressionistic accounts that do not claim to be objective Dr Leon Bock s account is the viewpoint of a leader of a major institution the Lakeland School District In representing the district he had the heavy responsibility to merge the interests of students and parents faculty the taxpaying community and the Board of Education Mr Thomas Kavunedus a faculty member served as a negotiator for the Lakeland Federation of Teachers He saw his responsibilities as extending to the promotion of learning and teaching environment which would foster excellence The contract with the school district which Mr Kavunedus had participated in promulgating years earlier was a major step in raising teachers out of the dark ages of coffee in the boiler room and hopefully greater professionalism Both authors disagree with one another on many of the issues Most of these issues bedevil our schools today Yet there is enough civility to recognize that partisanship need not be so all engulfing that it demonizes the other side and its objectives No narrative of such a complex event can be totally accurate and objective The authors try to focus on the interpersonal relationships rather than serve as a textbook history of this series of complex events There is no intention to discredit or malign any of the personalities in the narrative rather they are presented as the writers experienced them under conditions of stress Berry College Ouida Dickey, Doyle Mathis, 2011-08-15 Illustrated with more than one hundred photographs a detailed and comprehensive history of Berry College located in northwest Georgia reviews its humble beginnings in 1902 as a trade school for rural Appalachian youth to its present day standing among the Southeast s best liberal arts colleges

Teacher Militancy, Negotiations, and Strikes Sam P. Sentelle, 1972 Schoolhouse Politicians Helen Roberta Chauncey, 1992-01-01 Scholarly study of the Chinese republic 1911 1949 has traditionally viewed the period through its shortcomings notably its failure to establish a secure political order thus allowing the chaos and violence of national power politics to overshadow formative developments taking place at the local level By focusing on the interaction of local politics and the central state Helen Chauncey argues for the importance of local initiative in defining the post imperial state and

suggests a rethinking of our understanding of republican period politics Through the prism of educational circles in central Jiangsu province *Schoolhouse Politicians* challenges assumptions about local elite conservatism by showing how actively politics were pursued in local municipalities well removed from traditional centers of wealth and power It highlights the activism of political entrepreneurs in the arena of local schooling and interprets the apparent disorderly conduct of local republican politics in terms of the strategies activists used to test their right to public association with the central state and to determine what concerns could be addressed through such an association Pursuing a comprehensive approach to the study of local politics this interpretation is sensitive to political intent in a variety of cultural representations from school journals to teachers assemblies to the physical management of public space such as schoolhouses and exercise yards *Schoolhouse Politicians* makes a compelling case for the central importance of its immediate subject the growth of the elementary and secondary educational establishment as well as illuminating larger questions of state building This carefully crafted local history based on pioneering research is of significance to the field of modern Chinese history It is also a valuable addition to the recent comparative literature on state making that seeks by exploring a variety of occupations and social groups neglected by traditional histories to give due importance to those little studied experiences that helped shape the potential and limits of the modern state

The Newark Teacher Strikes Steve Golin,2002 After interviewing more than fifty teachers who were on the front lines during these strikes historian Steve Golin concludes that another equally important agenda ignored until now was on the table These professionals wanted a voice in the decision making process BOOK JACKET

Media Education Goes to School Allison Butler,2010 *Media Education Goes to School* examines the struggles involved in integrating media education across the curriculum at a small urban school Based on quasi ethnographic research specifically semi formal individual and group interviews with twenty one participants and participant observation the text focuses on how students understand and make meaning of media education in their schools and what they know about urban education and urban school reform The book argues against the neoliberal ethos that continuously harms urban youth and the rhetoric of new school reform that replicates not heals subjected social positions Media education is a necessity in secondary schooling but it cannot be thoroughly integrated into schools until significant structural changes are made in education this book positions the site of change through the struggles students express with their own experience of education

Reinterpreting Urban School Reform Louis F. Miron,Edward P. St. John,2012-02-01 Have urban schools failed or has reform failed urban schools This book examines existing urban school programs ranging from desegregation to reading improvement in light of available historical empirical and case study evidence Miron and St John and their contributors probe the underlying theoretical normative and political assumptions embedded in specific reform initiatives They explore how reforms might be reconstructed to better address the underlying challenges and they

demonstrate that reforms can be constructively critiqued throughout the stages of implementation arguing that greater attention should be paid to ethnic and cultural traditions within urban educational settings Contributors include Leetta Allen Haynes Joseph Cadray Choong Geun Chung Richard Fossey Barry M Franklin David Gordon Carol Anne Hossler Siri Loescher Kim Manoil Genevieve Manset Louis F Mir n Glenda Droogsma Musoba Kathryn Nakagawa Carolyn S Ridenour Ada B Simmons Edward P St John Neil Theobald Sandra Washburn Kenneth K Wong and Kim Worthington The School that Went on Strike Pamela Scobie,1991 The story of a group of school children who went on strike on behalf of their teachers which became the longest strike in history **Junior Graphic** Mavis Kitcher (Mrs),2002-07-17 *The American School Board Journal* William George Bruce,William Conrad Bruce,1894 *Beginning Teaching* Joseph Emory Avenet,1926

Beyond School:A Novel Chitra Anand,10-01-14 Beyond School centres upon the weeks leading up to 17 year old Shail s final board exams as his world becomes a pressure cooker and the weight of preparing for the exams sends him fleeing rebelliously in the other direction Along with Shail s journey from boyhood to manhood Beyond School vividly weaves between the narratives of four main characters seamlessly uniting the past and present of Shail his parents Urmila and Sushil and his mentor Gladys in a story that is honest funny heartbreaking and ultimately incredibly human **Kenya National Assembly Official Record (Hansard)** ,1974-03-12 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya Harper's Weekly John Bonner,George William Curtis,Henry Mills Alden,Samuel Stillman Conant,Montgomery Schuyler,John Foord,Richard Harding Davis,Carl Schurz,Henry Loomis Nelson,John Kendrick Bangs,George Brinton McClellan Harvey,Norman Hapgood,1902 *Country Reports on Human Rights Practices* ,2002

American Law School Review ,1911 **Pennsylvania School Journal** ,1911 **Changing Urban Education** Clarence Nathan Stone,1998 With critical issues like desegregation and funding facing our schools dissatisfaction with public education has reached a new high Teachers decry inadequate resources while critics claim educators are more concerned with job security than effective teaching Though urban education has reached crisis proportions contending players have difficulty agreeing on a common program of action This book tells why Changing Urban Education confronts the prevailing naivete in school reform by examining the factors that shape reinforce or undermine reform efforts Edited by one of the nation s leading urban scholars it examines forces for change and resistance in urban education and proposes that the barrier to reform can only be overcome by understanding how schools fit into the broader political contexts of their cities Much of the problem with our schools lies with the reluctance of educators to recognize the profoundly political character of public education The contributors show how urban political contexts vary widely with factors like racial composition the role of the teachers union and relations between cities and surrounding metropolitan areas Presenting case studies of original field research in Baltimore Chicago Houston and six other urban areas they consider how resistance to desegregation and

the concentration of the poor in central urban areas affect education and they suggest how cities can build support for reform through the involvement of business and other community players By demonstrating the complex interrelationship between urban education and politics this book shows schools to be not just places for educating children but also major employers and large spenders of tax dollars It also introduces the concept of civic capacity the ability of educators and non educators to work together on common goals and suggests that this key issue must be addressed before education can be improved Changing Urban Education makes it clear to educators that the outcome of reform efforts depends heavily on their political context as it reminds political scientists that education is a major part of the urban mix While its prognosis is not entirely optimistic it sets forth important guidelines that cannot be ignored if our schools are to successfully prepare children for the future
