Spanish in Chicago is the first book length study of Spanish in Chicago where populations originating in both Mexico and Puerto Rico have lived in contact for generations and Latinos now comprise nearly a third of the population Identifying Chicago as a rich site for examining language and dialect contact at both community and family levels Kim Potowski and

Lourdes Torres describe the spoken Spanish of Chicago analyzing patterns of language change and identity constructions and establishing their likely causes Drawing on interviews with 124 individuals across three generations of Mexican Puerto Rican and MexiRican Chicagoans Potowski and Torres trace the effects of language and dialect contact through close sociolinguistic analysis of lexicon discourse markers codeswitching the subjunctive and phonology Their analysis uniquely examines these features across three generations of speakers and two different regional origins within the same corpus By including MexiRicans as a category the book not only assesses the dynamics of linguistic convergence dialect leveling accommodation and language loss but also the concept of intrafamiliar dialect contact pioneered by Potowski Contextualizing these language changes within the history of Latino communities in Chicago Spanish in Chicago provides a nuanced picture of a minority language in a major US city and a vital contribution to sociolinguistics and Latino studies *The Next Phase in Heritage Language Studies: Methodological Considerations and Advancements* Fatih Bayram, Maki Kubota, Sergio Miguel Pereira Soares, 2024-03-27 Over the past three decades studies investigating heritage speaker HS linguistic competencies have shown time and again that despite being L1 or 2L1 native speakers of their home language s HS outcomes display variation across a wide spectrum of differences as compared to each other other types of bilinguals as well as their monolingual peers Studies have traditionally used mostly behavioral methodologies rooted in adjacent established fields e g L1 acquisition adult L2 acquisition offering in addition to documenting and describing HS performance important insights for linguistic theory and challenges related to home minority language maintenance contact policy and more A birds eye view makes it clear that the methodologies one uses to tap into HSs linguistic knowledge areas if not more are important than the phenomena under investigation especially in light of how their unique experiences with their heritage and other languages are present across a continuum Courses of Study in Spanish Boston (Mass.).
