book *Challenging Behaviour in Schools* describes effective practical approaches that have been developed by schools and support services. It contains chapters on behaviour support in mainstream primary and secondary schools, the organisation of support services and also looks at the ways parents and schools can work together. Other chapters outline whole school approaches to building better behaviour as well as specific techniques. *Challenging Behaviour in Schools* will be of direct practical value to all teachers, senior staff, special needs coordinators and governors in schools, educational psychologists, support teachers and all those involved in policy and planning. *School-Linked Services* Laura R. Bronstein, Susan E. Mason, 2016-05-24. The evidence based strategies in this volume close the achievement gap among students from all sociological backgrounds. Designed according to local needs assessments, they provide the services, programs, initiatives and relationships that are crucial for children's success in school and life. These practices and programs include afterschool and summer sessions, early childhood education, school linked health and mental health services, family engagement and youth leadership opportunities. This book addresses the policy and funding requirements that help these partnerships thrive and offers effective counterarguments against those who would question their value. The text describes strategies that work in both rural and urban contexts and includes a chapter evaluating school community partnerships across the world. Because it involves collaborations across professions and organizations, the book's interdisciplinary approach will appeal to those in social work, education, psychology, public health, counseling, nursing and public policy. *Children's Services* Malcolm Hill, Sir George Head, Andrew Lockyer, Barbara Reid, Raymond Taylor, 2013-10-08. *Children's Services Working Together* brings together contributions from a number of authors in the field. Brock, 2023-11-10.
