Populations, Projections, Politics Jochen Fleischhacker, Henk A. De Gans, 2003 This book examines the interrelations of population change developments in projection methodology and politics in the 1920s and 1930s Together the contributions in the book represent an important scholarly and critical contribution to the history of d **Annual Report** Cardiff (Wales). Free Library, Museum, and Science and Art Schools, 1910 Critical Issues in Educating Autistic Children and Youth, 1981

Learning to Write "Indian" Amelia V. Katanski, 2005 Examines Indian boarding school narratives and their impact on the Native literary tradition from 1879 to the present Indian boarding schools were the lynchpins of a federally sponsored system of forced assimilation These schools located off reservation took Native children from their families and tribes for years at a time in an effort to kill their tribal cultures languages and religions In Learning to Write Indian Amelia V Katanski investigates the impact of the Indian boarding school experience on the American Indian literary tradition through an examination of turn of the century student essays and autobiographies as well as contemporary plays novels and poetry Many recent books have focused on the Indian boarding school experience Among these Learning to Write Indian is unique in that it looks at writings about the schools as literature rather than as mere historical evidence Behavioral Methods in Social Welfare Steven Paul Schinke, James. K Whittaker, Scott Briar, 2017-09-08 Behavioral Methods in Social Welfare offers positive proof that behaviorism has come of age in social work Steven Paul Schinke and the contributors to this volume are social work practitioners who document their attempts to extend the basic tenets of behavioral psychology from the laboratory clinic and classroom to the full range of client groups and social problems that make up the practice of social work In social work education traditionally to the extent it appeared in the curriculum at all behavioral content appeared in electives or in courses not focused on practice It is a true measure of progress that behavioral methods are now visible integral component of social work education and practice The authors of each piece in this collection indicate progress in developing an empirically based approach to social work practice Despite the impressive documentation contained in the present volume no conclusive evidence as to the effectiveness of behavioral methods exists What behavioral methods do offer however is a systematic format for both problem intervention and evaluation that over time should produce a more empirically based practice A promising sign well documented in the present effort is the facility with which this book has subjected practice procedures to the rigor of research and evaluation This blending of clinical practice and research develops the sense of

competence that student practitioners acquire in understanding and controlling both the art and science of their clinical practice Steven Schinke and his colleagues offer a series of snapshots of important work in process Their collective portrait provides a fresh perspective and new stimulus for all social work practice as well as an affirmation that disciplined responsive and sensitive social work intervention can make a difference in the lives of people *An Almanack for the Year of Our Lord 1984* Joseph Whitaker,1984

Lessons from an Indian Day School Adrea Lawrence,2011-10-18 Clara D True and Clinton J Crandall teacher and superintendent for the Indian Day School of the Santa Clara Pueblo were typical agents in the campaign waged by the federal government to assimilate Native Americans into mainstream American society As the primary Office of Indian Affairs officials for the Pueblo True and Crandall administered the school and also served as de facto health officials demographers arbiters and legal consultants as well as the eyes and ears of the government Drawing upon an extensive correspondence between True and Crandall from 1902 to 1907 Adrea Lawrence provides an intimate look at the daily lives and challenges that the two educators faced as they worked with a diverse community of Tewa Indians and Hispanos Through this long overlooked correspondence Lawrence introduces us to two fascinating characters flawed but intent individuals charged with the task of carrying out the government s colonialist Indian education policy Through descriptions of such episodes as their disdain for older Indians suspicion of vaccination True and Crandall provide clear examples of the inherent contradictions in the federal government s culturally insensitive approach toward its Indian population Yet they were also great advocates for the Indians often stepping in to mediate in matters involving land and taxation The complex portrait of these educators that emerges is based not just on the letters but also on corresponding documents from Pueblo Indians periodicals legal cases statutes Indian Office circulars and anthropological studies conducted by both Native and non Native scholars Lawrence reveals the challenges federal employees faced as they tried to execute the federal policy of assimilation while dealing with educative issues relating to land disease citizenship and modes of education that confronted Santa Clara Pueblo and its neighbors Several recurring themes are traced through each chapter such as colonization as negotiation place as a participant True and Crandall s notions of good and bad Indians and the significance of the relationships among Pueblo Indians Hispanos and Anglos Simultaneously caring and condescending dedicated yet oblivious to cultural complexities True and Crandall in these letters offer a rare and nuanced look at the daily interactions between OIA employees and their charges It makes a unique contribution to both Native American and education history

The fifty-first (-136th) annual report of the Religious tract society Religious tract society,1880 *The Story of White Hall Centre* Pete McDonald,2018-05-01

Secure and Tranquil Travel Martha J. Smith,Derek B. Cornish,2012-12-06 Herein lie the answers to crime and disorder So many people become dispirited fatalistic or angry about crime instead of seeing crime problems like business setbacks as challenges or even opportunities This book sets out a clear systematic and demonstrably successful strategy for reducing the temptations and opportunities for crime You cannot change

the travelling public or the communities which public transport serves but you can change the immediate circumstances and surroundings that you present to people you can re think and reinvigorate your service offering you can recruit help from other agencies from staff and even those who ride the system and you can make the transition from being reactive to being ahead of the game The theory is backed up by concrete examples of how and why and where smart thinking has worked before to outflank crime this is not just off the shelf self help philosophy but a compendium of real world best practice What s more you can often make money or at least save a lot of money by doing the right thing and this book tells you how Nick Ross BBC Crimewatch UK Chairman UCL Jill Dando Institute of Crime Science Advisory Board **Report of the**
